MULTIPLICATION
(Missing Factors)

Directions: Write the missing factors for each set.

Column 1

$4 \times \underline{\quad} = 20$

$\underline{\quad} \times 3 = 15$

$4 \times \underline{\quad} = 8$

$\underline{\quad} \times 5 = 35$

$2 \times \underline{\quad} = 10$

$\underline{\quad} \times 1 = 9$

$8 \times \underline{\quad} = 24$

$\underline{\quad} \times 6 = 18$

$7 \times \underline{\quad} = 21$

$\underline{\quad} \times 4 = 28$

Column 2

$\underline{\quad} \times 8 = 0$

$7 \times \underline{\quad} = 42$

$\underline{\quad} \times 6 = 54$

$10 \times \underline{\quad} = 40$

$\underline{\quad} \times 2 = 18$

$4 \times \underline{\quad} = 12$

$\underline{\quad} \times 9 = 27$

$3 \times \underline{\quad} = 15$

$\underline{\quad} \times 5 = 20$

$5 \times \underline{\quad} = 100$

Column 3

$6 \times \underline{\quad} = 30$

$\underline{\quad} \times 4 = 16$

$5 \times \underline{\quad} = 20$

$\underline{\quad} \times 9 = 36$

$8 \times \underline{\quad} = 0$

$\underline{\quad} \times 7 = 42$

$5 \times \underline{\quad} = 40$

$\underline{\quad} \times 9 = 81$

$6 \times \underline{\quad} = 60$

$\underline{\quad} \times 7 = 49$
