Soft Glow™
Color temp: 3000k to 1800k

Choose your dim level with Soft Glow™ and experience cozy like never before.

Reason: *There is no planet B.*

Focusing on what matters

Sustainability

Vaughan Elec & Co has implemented a number of sustainable efforts, including solar at our headquarters in an effort to run on renewable power.

Responsible Sourcing

We aim to assess materials as locally and ethically as possible. This means taking into account the carbon footprint and human rights impact. We source from key manufacturers such as Eaton, Ovid and Panasonic where sustainability matters. These suppliers conduct reasonable due diligence with metal suppliers to assure that the materials are not conflict metals (including Gold (AU), Tantalum (TA), Tungsten (W), Cobalt (CO), Palladium (PD), and Tin (SN) from the DRC democratic republic of congo.

Making Health a Priority

In a modern world we are surrounded by artificial light, with primarily blue light found in the majority of LED. High 95 CRI uses high reds and soft glow dimming which does not affect your melatonin. This results in better sleep and no toxic blue light near our kids and newborns.

We offer mindful light options that do not use mass produced toxic blue LED diodes. Ovid Lighting leads the way, using 95 CRI red infused diodes, bringing health and positivity of light.

04

01

Cabinet Hardware

A collection of solid metal kitchen handles, cabinet pulls, drawer knobs and furniture hardware to elevate your furniture. Refined by hand and featuring our signature cross and linear knurls, these are the details that will set your space apart from the rest. All our cabinet hardware products are designed to complement our other ranges, such as lighting, in order to help you create the style you desire.

02

Door Hardware

Our door hardware is a collection of designer door handles, door knobs, door stops, double-sided pull bars and accessories for all internal doorways. Built from rare and solid metals and finished with our signature, diamond-cut, knurling pattern to feel amazing with every touch. All our door hardware products are designed to complement our electricity and statement lighting ranges.

03

Electricity

A collection of unique light switches, dimmer switches, plug sockets, and USB chargers that you will not want to hide. Crafted from solid metals and featuring our signature cross-knurl pattern and solid metal coin screws. All our electricity products are designed to complement our other ranges and elevate your home details.

04

Lighting

A collection of compelling pendant lights, wall lights, spotlights, ceiling lights, chandeliers and light bulbs. Designed to work in harmony with each other and cover all areas of a home or a commercial space. Crafted from solid metals and featuring our signature cross-knurl pattern and coin screws, these lights will help you set the vibes. Our lighting collections consist of exhaust, caged, hooked, hero and heavy metal - all designed to work with our ground-breaking LED light bulbs.

4

Self-Cooking Fornoteca Duetto

The Ultimate Game Changer

This self-cooking pizza oven makes perfect Neapolitan style pizza in as little as 90 seconds! It features a fire brick stone that reaches an ideal cooking temperature

of 700°F in less than five minutes! Fornoteca Duetto is also great for cooking vegetables, chicken, salmon, shrimp, wings, ribs and more!

Outdoor Comfort Home Management Systems

Bring comfort to your outdoor space with our home management control systems.

The Smart home integration is designed to combine ambient warmth with convenient ease of use. It's one of many innovative control options at your fingertips when you choose Infratech heaters like our Home Management System or Universal Control Package. From smart home to any home, our commitment to leading-edge technology enables us to offer the widest array of controls in the industry.

Steel Flush Mount Frame

High-powered, dual-element WD-Series fixtures provide more concentrated heat for large scale coverage needs with surface and flush mount options. Exclusive smart home integration with Lutron.

High Power WD Series

High-powered, dual-element WD-Series fixtures provide more concentrated heat for large scale coverage needs with surface and flush mount options. Exclusive smart home integration with Lutron.

Surge Protection

Panel Kits & Breakers

Our best selling panel kits include the most essential breakers every home should have to keep their family safe!

01 400 AMP

This package features a 400 amp, 42 circuit Eaton panel with 20 breakers (10-BR115, 3-BR215, 1-BR240) 8 -Arc Faults and 1- BR230 surge protector.

02 200 AMP

This package features a 200 amp, 60 circuit Eaton panel with 20 breakers (10-BR115, 3-BR215, 1-BR240) 9-Arc Faults and 1-BR230 surge protector.

03 100 AMP

This package features a 100 amp, 30 circuit Eaton panel with 20 breakers (10-BR115, 3-BR215, 1-BR240) 8- Arc Faults and 1- BR230 surge protector.

Safeguard with Surge

Crucial to long lasting LED life and performance.

Surge protection is one of the most overlooked safeguards. Keep electrical devices and equipment operating unaffected from voltage spikes or transient voltage surges with surge protection.

Fuse Panels

User Guide

Residential Fuse Panel Insert Trims

- ◆ Doors are die formed with sloping sides and rounded corners and permanently mounted to the trim.
- ◆ Semi concealed hinges. ②
- ◆ Includes circuit directory card and self adhesive clear plastic directory holder.
- ◆ Painted ASA61 light grey baked on enamel.
- ◆ Mounting hardware included. ③
- ◆ Trims are custom sized larger than the existing trim and door.
- ◆ Mounting holes located to line up with existing box holes. ④

② If the main service entrance is bottom entry the door hinges left. If it is top entry then the door hinges right.

③ Measure the existing box holes locations as they may be part of the end walls, side walls, or tapped into a box flange.

④ The hardware supplied will accommodate boxes that are mounted up to 1/2" too deep or equal to 3-1/2" net depth.

⑤ Panel insert CQLP8100 can also be used with this size trim.

⑥ For box sizes either 26" or 27-1/2" high no insert or trim is available..

Trusted Power

20kW1 Fortress Standby Generator

A perfect fit for any home, the 20kW1 standby generator powers all of a home's electrical needs easily and automatically. Keep your family safe, comfortable and free from the stress that comes with power outages.

Its power management system automatically allows you to power more high voltage appliances in your home for less. Added convenience and flexibility for you to be able to change the power priorities via Wi-Fi at

any time with the ease of a free app on your smartphone. Load management ensures the generator won't overload and shutdown so your family can continue with its daily routine. Transfer switches and modules sold separately.

Select up to 32 high-wattage appliances based on your family's specific power needs. Use the Standby Generator Management app to change priorities from your smartphone at any time.

Low Idle Mode

Scheduled weekly test mode that runs at a low RPM for fewer disturbances and less fuel consumption.

Power Management

Manages the distribution of power to your selected appliances automatically.

Wireless Monitoring

Monitor the status on your computer, tablet or smartphone and send maintenance reminders so your generator is always ready for the next power outage.

Best In Class Warranty

Covers parts, labor and travel for the full-length of the warranty.

Corrosion Resistant

Made from automotive-grade galvanized steel to resist rust. Its advanced powder coat paint process results in years of protections against chips and abrasions.

Pre-Commissioned

All our units are now pre-commissioned saving you further time on site and activated best in class warranty.

Align Lighting

Wired Lighting

Flexibility

Align is an easily specifiable with magnetic modules come with multiple light and mounting options and, with tool-free installation and removal capabilities, the opportunity to create unique configurations are almost infinite.

Smart Tech

Using nLight® AIR or nLight® Wired lighting control solutions allows the luminaires to digitally communicate with other nLight® enabled controls such as dimmers, switches, occupancy sensors,

Configuration is key to lighting.

A highly configurable lighting system designed to accommodate the changing needs of any space.

and photo controls. Enhance any space with a simple, scalable, and connected lighting system that provides both energy savings and increased configurability.

Mix it up

Create your unique lighting configuration - mix and match accessories as needed.

Features

Align comes with several control options. Choose from:

- nLight® AIR or nLight® Wired lighting control solutions
- wireless Casambi
- standard 0-10V dimming with dual circuit.

Appliances

Bertazzoni Products

With its roots in highly engineered cooking machines, Bertazzoni now offers complete kitchen solutions.

For more than 135 years, Bertazzoni cooking appliances have helped people bring the best of home-cooked food to the family table. Bertazzoni has built a reputation on the quality of its engineering and a deep passion for food and family. The entire line of products is designed for versatility, precision and performance in every part of the kitchen.

01

Intelli-Balance™ 100

Ideal for single family homes and multi-family units. It is a customizable, high performance, high efficiency Energy Recovery Ventilator (ERV) that's designed to help you meet ASHRAE 62.2 requirements. This unique and cost effective Cold Climate ERV was engineered for total versatility and installation flexibility, in a cold climate zone. Now with Boost function, which can move the fan speed to high when activated.

02

WhisperCeiling® DC™

This Precision Spot Ventilation Fan with built-in Pick-A-Flow™ speed selector switch allows you to select your required airflow (50-80-110 CFM). Features a ECM Motor with SmartFlow® technology and a Flex-Z Fast installation bracket. Can be used to comply with the latest codes and standards.

Flip up your thinking.

Colour Matters

95 CRI

We're serious about making your life more colourful.

Colour (95 CRI) versus Blue Light (80 CRI)

About 80% of the LED lighting on the market is 80 CRI, while great for office and commercial use, the effects they have on residential applications have negative effects on your health and wellbeing. LED lighting that offers 90 and higher CRI removes blue light and replaces it with red hues in the colour spectrum. Red is associated with health and relaxation!

Max Colour

Not all LEDs dim the same. Look for Soft glow dimming effect. They dim like traditional incandescent bulbs by getting warmer in tone as the light gets dim. Other LED bulbs and SLIM LED simply get less bright, without the relaxation effects of Soft Glow.

Glare vs No Glare

Strained Eyes

LED slim lights, while popular, provide no end user benefits, instead they offer wasteful light that causes strain on your eyes.

Eye Comfort

The Gimbal design eliminates strain, blocks blue light and influences well being using its Soft Glow dim feature.

EV Charger

With over air updates and Power Sharing! Add a 2nd station on the same breaker.

Outdoor Magic

Outdoor Lighting

The magic of outdoor lighting is In-Lite Lighting.

Hardscape Lights

EVO HYDE

The EVO HYDE 550 DARK lets you easily create unique lighting effects in your yard. The EVO HYDE indirect line-lighting can be installed under stairs, duckboards, railings and (sitting) walls. Produces a wide, subtle light. Suitable for installation under stairs and pond edges. Available in two sizes.

Path Lights

ACE DARK

The ACE Dark 12V is a bollard that provides a soft light that can be used to illuminate a path or driveway. Produces an attractive soft light. Designed for illuminating a driveway or walkway. Tilting light source.

Experience outdoor lighting while being in control with the in-lite app and the complete line of in-lite smart products.

SMART HUB

The SMART HUB-150 transformer completes the in-lite transformer line and is controlled exclusively by the in-lite smartphone app for iOS and Android. Maximum installation value of 150 VA.

Recessed Lights

EVO GROUND

EVO GROUND 300 12V is a multifunctional integrated line-lighting with a sleek architectural design. Let your imagination run wild with the EVO integrated LED line-lighting and give your paving an upgrade with your own personal lighting design. Produces a wide sparkling lighting effect. Designed for illuminating the edges of a driveway or walkway. Drive-over.

Deck Lights

HYVE

The HYVE 22 RVS 12V with a subtle 22 mm diameter fixture includes a stainless steel ring. Produces an eye-catching yet attractive lighting effect. Designed for illuminating the edges of a driveway, walkway or deck. Drive-over.

25

In-Lite Lighting

Spotlights

01

Mini Scopeduo

The most versatile spotlight in our range of spotlights and wall lights.

02

Halo

Elegant and robust wall light with a sleek and wide light display.

03

Flux

This spotlight is ideal for illuminates objects and walls.

04

Scope

The perfect addition to outdoor spotlights, great for lighting trees.

Plug n' Play

The In-Lite 12 Volt System

The in-lite system is a low-voltage (12V) system. Our transformers convert the 120V electricity from your home through a GFCI outlet to 12 V. This makes the system environmentally friendly and cheaper to run.

BEFORE YOU PURCHASE YOUR IN-LITE SYSTEM

- 1. DESIGN A LIGHTING PLAN**
Decide which areas of the yard you want to light up and choose your fixtures
- 2. DESIGN A CABLE PLAN**
Calculate the power consumption of your lighting plan and plan where your cables will go
- 3. CHOOSE YOUR HUB**
Determine which transformer you need

Touch n' Shade

Home & Commercial Shading

Control your shades at the touch of a button.

26

Consumer Beware

Look out for potential pitfalls of knock-offs.

Don't be fooled by the simple exterior. Knock off imports (LED) are built with uncontrolled manufacturing processes that often lead to contamination, resulting in inconsistent illumination across a panel, hot spots and visual defects.

Yellowing Panels

Power Cleaning

Vacuum Systems

The Signature™ series is designed for mid to large homes where families, pets, and active daily activities will push a central vacuum system day in and day out.

What's inside counts

When you select the Signature™ Series of central vacuum systems, you immediately take a step up with the heavy duty performance and longevity of a Tangential Bypass Motor. Unlike Flow-Thru motors which use vacuumed air to cool the motor, Tangential motors have a dedicated “fresh air” cooling fan for optimal cooling. This maximizes its life expectancy and provides Signature™ with a premium source of power.

01 Power Essentials

Excellent for hardwood floors, area rugs, berber, and low pile carpeting. Switch from hardwood to carpeting without changing tools. Designed for the day-to-day cleaning of the house with silent and powerful brushes for all types of floors. Rechargeable, it provides up to 25 minutes of cleaning power to remove dust on one streak. Easy to handle, JV252 is perfect for pet owners.

01

02

02 Heavy Duty

The Signature™ Series of central vacuum systems is a step up with the heavy duty performance and longevity of a Tangential Bypass Motor. Excellent for hardwood floors, area rugs, berber, and low pile carpeting. Switch from hardwood to carpeting without changing tools.

Features

- High Efficiency HEPA Filtration System that captures up to 99.97% of allergens @ .3 microns.
- Cooling Intake Muffler circulates fresh air during operation, allowing the motor to stay cool for a longer life and quiet operation.
- Industry Leading 10-Year Warranty for ultimate peace of mind.
- Allergen Bag is included

Eco Line

LED Lighting

01

Economical LED Technology

Eco Family Line

The Eco family line is an economical family of products using LED technology. The Eco line comes standard with either a 2W, 2.5W, or 3W LED module. The SRE remote head LED modules are constructed of high-impact thermoplasti and have a fully adjustable swivel. The SRE remote head comes in white as standard and black as optional.

02

LED Panel

Planex Premium

Planex® Premium is a flat panel LED light source designed to replace a standard ceiling tile. This low profile LED luminaire provides an estimated 50,000 hour LED life at L70. Available in 1'x4', 2'x2' and 2'x4'. Mounting comes standard for grid ceilings, adjustable 50" aviation cable for suspension mount, surface and recessed wall/ceiling mount kits are offered. 0-10V dimming is standard.

03

LED Industrial

Illumina BS100LED

The Illumina® BS100LED is designed to be resilient, highly efficient, and easy to install; it is the pinnacle of vapor tight luminaires.
