

A Healthcare Professional's Product Guide

Master Supplements Inc. owns Master Supplements and U.S.Enzymes brand of products and partners with Tomorrow's Nutrition as the exclusive seller of the Tomorrow's Nutrition PRO brand of products.

In 2019, when we partnered together as three Minnesota based companies, we became collectively stronger and the family of brands is now able to help practitioners in a more cohesive and holistic way.

Raising the Standard on Probiotics, Enzymes, and Fiber Supplements Since 2003

BETA-XYM™

Beta-Glucan Supplement

Beta-xym™ offers pure linear 1,3-D-glucan consisting of 7 Beta-(1,3)-D-glucose and 2 Alpha-(1,3)-D-glucose monomers. Isolated from microorganisms in marine tidal flats, Beta-xym is unique in its 100% pure 1-3 backbone and optimal water solubility.

- ▶ 100% Pure 1-3 Glucan (78% Beta and 22% Alpha) from Agrobacterium ZX09.
- ▶ Water soluble, All-natural ocean-source from microorganisms in marine tidal flats.
- ▶ Supports heart health, colon health and bowel regularity as well as increases energy.
- ▶ Supports both humoral and cellular immune functions.
- ▶ Contains AstraZyme® for added absorption and optimization.

SUGGESTED USE: Take 1 capsule daily. Can be taken with or without food, any time of day.

BIOME-XYM™

Broad Spectrum Probiotic

Biome-xym™ is a blend of 12 broad spectrum probiotic strains that originate from 5 different genera to promote maximum biodiversity throughout the G.I. tract. Biome-xym™ contains LactoStim®, a patented prebiotic that re-hydrates and stimulates probiotic cells.*

- ▶ Probiotics are safe and beneficial microorganisms that support proper digestive and immune functions.*
- ▶ Biome-xym is delivered to the lower intestinal tract via delayed release, acid resistant capsules.
- ▶ Contains 50 billion CFU that exert a powerful balancing effect on the body's microbiome.*
- ▶ Biome-xym may help with nutrient absorption and waste elimination, leading to increased energy levels.*
- ▶ Free of fillers, artificial colors, flavors, and preservatives.
- ▶ This product does not require refrigeration.

SUGGESTED USE: Take 2 capsules on an empty stomach at bedtime with 8 ounces of water. Separate by 3 hours when taking with antibiotics.

CHLORA-XYM™

Superfood Supplement

Chlora-xym™ is a blend of three green superfoods with probiotics and is designed for ultimate absorption that supports healthy detoxification, whole body alkalinity, and overall digestive and immune health.*

- ▶ Organic green superfoods are the most nutrient dense sources of protein, vitamins, minerals, amino acids, and essential fatty acids available.*
- ▶ Provides easily absorbed plant protein (70% by weight).*
- ▶ Supports the microbiome and a healthy intestinal flora balance.*
- ▶ Contains all essential amino acids and chlorophyll to support healthy energy levels*.
- ▶ Contains AstraZyme® to assist with protein digestion and faster and more complete absorption of peptides and amino acids.
- ▶ Free of fillers, artificial colors, flavors and preservatives.

SUGGESTED USE: Take 1 capsule twice a day with meals and a glass of water.

GLUTAXYM™

DPP-IV Enzyme Blend

Glutaxym™ is a blend of eight plant-based proteolytic enzymes that includes 15,000 units of Peptidase DPP-IV that breaks down gluten, plus four additional enzymes that digest starches and sugars.

- ▶ Helps provide support for digestive issues relating to eating foods that contain gluten or casein.*
- ▶ Includes a significant amount of the specific gluten digesting enzyme: Peptidase DPP-IV.
- ▶ Supports the digestion and absorption of foods and can offer relief from occasional gas, bloating and digestive discomfort associated with gluten intake.*
- ▶ Contains AstraZyme®, which enhances the enzyme actions by assisting protein digestion and absorbing peptides and amino acids faster and more completely.
- ▶ Free of fillers, artificial colors, flavors, and preservatives.

SUGGESTED USE: Take 1 capsule with a glass of water at the beginning of each meal.

HCL-XYM™

Betaine HCL Supplement

HCL-xym™ contains a natural source of Betaine Hydrochloride that promotes healthy digestive function. HCL-xym™ supports the body's normal HCL production and helps ensure optimal protein digestion.*

- ▶ Contains AstraZyme® for added protein digestion and support with peptide and amino acid absorption.*
- ▶ Offers relief from occasional gas, bloating, and indigestion.*
- ▶ Creates the proper pH in which protein-digesting enzymes work best.*
- ▶ Supports the digestion and absorption of food.*
- ▶ Free of fillers, artificial colors, flavors and preservatives.

SUGGESTED USE: Take 1 capsule after each meal. If needed, take 2 capsules after a heavy meal or a meal rich in proteins.

IMMUNOXYM

Immune Support Supplement

TOMORROW'S NUTRITION **PRO**

ImmunoxyM is a proprietary blend of probiotics, vitamins, enzymes and other key nutrients that support immune health and specifically, T-regulatory cell activity. It is important to keep T-regulatory cells functioning in their optimal state. ImmunoxyM is designed to support this role of the immune system.*

- ▶ Three proven probiotic strains support immune and gastrointestinal health.*
- ▶ Provides over 200% DV of Vitamins A, D3, and K2.
- ▶ Contains 600 mg of Alpha Lipoic Acid for antioxidant support.*
- ▶ Delivers 200mg of Sunphenon®, a branded green tea extract to support metabolism and healthy cellular function.*
- ▶ Includes AstraZyme® to enhance enzyme actions by assisting protein digestion and absorbing peptides and amino acids faster and more completely.*
- ▶ This product is Non-GMO, Gluten-Free, and free of fillers, artificial colors, flavors and preservatives.

Supplement Facts		
Serving Size: 2 Capsules Servings per Container: 31		
	Amount per Serving	% Daily Value
Calories	5kcal	
Vitamin A	1800mcg RAE (6000 IU)	200%
Vitamin D3	75mcg (3000 IU)	375%
Vitamin K2	500mcg	417%
Alpha Lipoic Acid Powder	600mg	†
Green Tea Extract (Sunphenon® 90D)	200mg	†
Proprietary Probiotic Blend	110mg (25 billion CFU**)	†
<i>Bifidobacterium lactis, Bifidobacterium breve, Lactobacillus rhamnosus</i>

ISOQUERCETIN

SunActive® IsoQ Supplement

TOMORROW'S NUTRITION PRO

Tomorrow's NutritionPRO IsoQuercetin provides a soluble form of IsoQuercetin (a precursor to quercetin) that increases bioavailability 25 times, the equivalent to 2,000 mg of quercetin! Quercetin is a potent antioxidant flavonoid found in many foods and used as a dietary supplement for support against oxidative stress and to support overall health and wellness.*

- ▶ IsoQuercetin promotes healthy immune and metabolic function and supports cellular health.*
- ▶ The SunActive® IsoQ ingredient is 25x more bioavailable than quercetin because of the patented SunActive® Nutrient Delivery System, consisting of micro-encapsulated nutrients which increase the absorption and the bioavailability of fat-soluble nutrients.
- ▶ Supports exercise performance and recovery.*
- ▶ Contains generous amounts of immune supporting Vitamin C.*
- ▶ Flavonoids (derived from the Latin word "flavus," meaning yellow) are phenolic substances that exhibit biological activities.*
- ▶ Quercetin belongs to the class called flavonols that cannot be produced in the human body.

SUGGESTED USE: Take 2 capsules daily. Can be taken with or without food, any time of day.

Supplement Facts

Serving Size: 2 Capsules
Servings per Container: 31

LUMBROXYM™

Targeted Systemic Enzyme

Lumbroxym™ is a blend of the two systemic enzymes Lumbrokinase and Catalase with Astrazyme®, a proprietary blend that enhances enzyme absorption and activity.* Pure Lumbrokinase is difficult to source and a notably expensive proteolytic enzyme that has been shown to support cardiovascular and circulatory health.*

- ▶ Includes 375 FU of Lumbrokinase and 350 U of Catalase in a patented sodium alginate base and protective delayed-release capsules.
- ▶ Lumbrokinase is a fibrinolytic enzyme that helps support healthy circulation and healthy blood pressure levels.*
- ▶ Supports longevity.*
- ▶ Contains AstraZyme® enhances enzyme actions by assisting protein digestion and absorbing peptides and amino acids faster and more completely.
- ▶ This product is Non-GMO, Gluten-Free, and free of fillers, artificial colors, flavors and preservatives.

SUGGESTED USE: Take 1 capsule with a glass of water on an empty stomach 2 hours before or after a meal.

NATTOXYM™

Targeted Systemic Enzyme

Nattoxym™ is a blend of the systemic enzymes Nattokinase and Catalase in a proprietary mineral base which is designed to super-charge the effects of the enzyme actions.* Nattoxym's primary function is to offer targeted circulatory support.*

- ▶ Nattokinase is susceptible to stomach acid so it is protected with DR capsules.
- ▶ Nattokinase helps maintain healthy circulation.*
- ▶ Catalase removes hydrogen peroxide which results from enzyme action.*
- ▶ Supports overall immune health.*
- ▶ Is free of fillers, artificial colors, flavors, and preservatives.
- ▶ Should be taken on an empty stomach with a full glass of water for best results.

TruBifidoPRO[®]

Targeted Colon Probiotic

TruBifidoPRO[®] contains 50 billion CFU of five Bifidobacteria probiotics that support regularity and immunity by fortifying your colon with beneficial bacteria.*

- ▶ Bifidobacteria are generally gentler on the body compared to other probiotic genera, making it a great choice for sensitive G.I. issues.*
- ▶ This blend of strains supports humoral immunity, creates no type-D lactic acid and no histamines.*
- ▶ LactoStim[®], a patented prebiotic, is added for effective rehydration and as a food source for the probiotics.
- ▶ Bifidobacteria are strict anaerobes and need to reach the oxygen free colon before they colonize. Our acid-proof delivery and Delayed Release (DR) capsules ensure the bacteria reach the colon.

SUGGESTED USE: Take 1 or 2 capsules daily. Separate by 3 hours when taking with antibiotics.

Supplement Facts:

Enzalase®

Digestive Enzyme Blend

Enzalase® contains 12 enzymes that breakdown carbohydrates, fiber, proteins, and fats, providing relief from occasional gas and bloating and digestive discomfort.*

- ▶ With our sodium alginate delivery and the EnzaStim® ingredient, Enzalase has a unique cleansing action and works deep in the G.I. tract to eliminate waste build-up and to support proper digestion.*
- ▶ Enzalase can be used as an enzymatic colon cleanse to help prep the entire GI tract for probiotic colonization.
- ▶ This combination of enzymes helps release prebiotics from fruits, vegetables and whole grains.
- ▶ Enzalase contains 6,000 FIP Lipase Units. Lipase is a vital digestive enzyme for fats, enabling other enzymes to work more effectively by removing fat blockage.
- ▶ Works systemically when taken on an empty stomach.*

SUGGESTED USE: Take 1 capsule with water at the start of a meal. For systemic use, take 1 capsule a day on an empty stomach.

SUPPLEMENT FACTS:		
Serving Size: One Capsule		
Servings Per Bottle: 50		
	Amount Per Serving	%DV
Plant-Source Digestive Enzymes	277 mg	**
<i>Bromelain Protease</i>	(200 GDU)	
<i>Papain Protease</i>	(42,500 TU)	
LIPASE	(6,000 FIP Lipase Units)	
<i>Alpha-Amylase</i>	(5,000 SKB)	
<i>Cellulase</i>	(3,000 CU)	
<i>Alpha-Galactosidase</i>	(165 GALU)	
<i>Hemicellulase</i>	(6,400 HCU)	
<i>Protease</i>	(5,800 HUT)	
<i>Lactase</i>	(1,000 ALU)	
<i>Pectinase</i>	(25 Endo-PG U equivalent to 7,500 AJDU)	
<i>Glucoamylase</i>	(5 AGU)	
<i>Invertase</i>	(400 SU)	

**Daily Value (DV) Not Established

OTHER INGREDIENTS: Vegetable Capsule (vegetable cellulose and water), Microcrystalline Cellulose, Tapioca Dextrin, Sodium Alginate, Magnesium Stearate (Vegetable Source), Silicon Dioxide, Maltodextrin, Sunflower Lecithin + Oleic Acid (ENZASTIM®), Calcium Silicate.

Granular Theralac[®]

Broad Spectrum Probiotic Powder

Our probiotic powder, Granular Theralac[®], contains the same five strains found in Theralac that help reinforce a healthy microbiome and support regularity, digestive comfort, and immune health.*

- ▶ Perfect for kids or anyone that has difficulty swallowing capsules.
- ▶ Small 1/4 teaspoon serving is packed with 25 billion live organisms and is EASY TO TAKE.
- ▶ Add essential probiotics to food and beverages of your choice to help maintain optimal health.*
- ▶ Contains both Lactobacillus and Bifidobacteria to colonize the entire G.I. tract.
- ▶ Third party labs guarantee CFU, purity, and activity of every lot.
- ▶ Results are guaranteed with 60-Day 100% money-back offer.

SUGGESTED USE: Fold or gently stir a ¼ teaspoon into any soft food or beverage. Separate by 3 hours when taking with antibiotics.

SUPPLEMENT FACTS:		
Serving Size: 0.75 grams (approx. 1/4tsp)		
Servings Per bottle: 40		
	Amount Per Serving	%DV
Proprietary Probiotic Blend	108.75 mg	
<i>Lactobacillus acidophilus</i> (Strains LA-1; UALa-01™)	10 billion CFU*	**
<i>Bifidobacterium lactis</i> (Strains BL-04 [®] ; UABla-12™)	10 billion CFU*	**
<i>Bifidobacterium lactis</i> (Strain Bi-07 [®])	3 billion CFU*	**
<i>Lactobacillus rhamnosus</i> (Strain LR-32 [®] ; UALr-06™)	1 billion CFU*	**
<i>Lactobacillus paracasei</i> (Strain LPC-37 [®] ; UALpc-04™)	1 billion CFU*	**
** Daily Value (DV) not established		

OTHER INGREDIENTS: Microcrystalline Cellulose, Sodium Alginate, Silicon Dioxide, Ascorbic Acid, Lactostim[®] (Sunflower Lecithin + Oleic Acid), Calcium Silicate.

Theralac[®]

Broad Spectrum Probiotic

Theralac[®] supports digestive and immune health with a combination of Lactobacillus and Bifidobacteria probiotics that colonize both the small and large intestines.*

- ▶ Contains 30 billion CFU per capsule with potency guaranteed through expiration when kept refrigerated.
- ▶ Patented deep delivery ensures probiotic survival and complete colonization throughout the gut.
- ▶ Theralac contains LactoStim[®], a patented prebiotic that effectively rehydrates the freeze-dried probiotic cells and provides probiotic nutrition.
- ▶ Third party lab tests are posted online to guarantee potency, purity, and activity of every lot.
- ▶ Two capsules per week provide a powerful maintenance dose and higher daily quantities offer additional digestive support.

SUGGESTED USE: Take 1 or 2 capsules daily. Separate by 3 hours when taking with antibiotics.

SUPPLEMENT FACTS:		
Serving Size: One Capsule		
Servings Per Bottle: 30		
	Amount Per Serving	%DV
Proprietary Probiotic Blend	133.31 mg	
<i>Lactobacillus acidophilus</i> (Strains LA-1, UALa-01)	10 billion CFU*	**
<i>Bifidobacterium lactis</i> (Strains BL-04, UABla-12)	10 billion CFU*	**
<i>Lactobacillus rhamnosus</i> (Strains Lr-32, UALr-06)	2 billion CFU*	**
<i>Lactobacillus paracasei</i> (Strains LPC-37, UALpc-04)	5 billion CFU*	**
<i>Bifidobacterium lactis</i> (Strain Bi-07)	3 billion CFU*	**

** Daily Value (DV) not established

OTHER INGREDIENTS: Microcrystalline Cellulose, Sodium Alginate, Hydroxypropyl Methyl Cellulose (capsule shell), Tri-Sodium Phosphate, Magnesium Stearate (vegetable source), Silicon Dioxide, Calcium Silicate, Ascorbic Acid, LactoStim[®] (sunflower lecithin + oleic acid).

TruBifido®

Targeted Colon Probiotic

TruBifido® contains 30 billion CFU of Bifidobacteria that support regularity, immunity, and colonic fortification.* The five strains were chosen for their superior efficacy and compatibility.

- ▶ TruBifido does not contain any Lactobacillus bacteria, which can be too aggressive for some individuals.
- ▶ TruBifido can help maintain proper immune functions and works in the colon to help produce short-chain fatty acids.*
- ▶ Combined with a DR capsule, our patented sodium alginate process protects TruBifido through the stomach and small intestine, allowing unharmed, targeted delivery to the colon.
- ▶ Potency is guaranteed through expiration when kept refrigerated.
- ▶ Third party lab tests posted online guarantee CFU, purity, and activity of every lot.

SUGGESTED USE: Take 1 or 2 capsules daily. Separate by 3 hours when taking with antibiotics.

This product is sold to Healthcare Professionals and through retail distribution.

SUPPLEMENT FACTS:

Serving size: one capsule
Servings/bottle: 30

	Amount Per Serving	%DV
Proprietary Probiotic Blend	130.64 mg	
<i>Bifidobacterium lactis</i> (Strains BL-04, UABla-12)	21 billion CFU*	**
<i>Bifidobacterium infantis</i> (Strain Bi-26)	2 billion CFU*	**
<i>Bifidobacterium bifidum</i> (Strains BB-06, UABb-10)	2 billion CFU*	**
<i>Bifidobacterium lactis</i> (Strain Bi-07)	3 billion CFU*	**
<i>Bifidobacterium lactis</i> (Strain HN019)	2 billion CFU*	**

** Daily Value (DV) not established

TruFiber[®] is a tasteless fiber powder combined with fiber digesting enzymes which work together to provide prebiotic nutrition for beneficial bacteria and supports overall gut health.*

- ▶ Dissolves fast, clear, with no grit and flavor-free without thickening.
- ▶ SunFiber[®] is the soluble fiber source and has been shown to support optimal regularity.*
- ▶ TruFiber may provide a satiated feeling for some individuals.*
- ▶ Prebiotic fiber combines with three bifidogenic enzymes to stimulate Lactobacillus and Bifidobacteria probiotics.
- ▶ Each serving provides 13% of the Daily Value for fiber.
- ▶ Can be used with Enzalase as a gentle enzymatic colon cleanse by taking two servings of each at night for ten nights.

SUGGESTED USE: Mix 1 scoop into 8-12 ounces of a non-carbonated beverage. Additional mixing may be needed depending on beverage type and temperature.

SUPPLEMENT FACTS:		
Serving Size: 3.6g (Approx. one scoop)		
Servings Per Container: 50		
	Amount Per Serving	% D/V

TruFlora®

Bio-Cleansing Probiotic

TruFlora® pairs 15 billion CFU of Lactobacillus and Bacillus probiotic bacteria with two powerful enzymes in a combination that helps cleanse the digestive tract.*

- ▶ TruFlora produces high levels of Type-L lactic acid, due to the large amount of Lactobacillus plantarum, which helps purge the G.I. tract and promotes a healthy bacterial balance.*
- ▶ Beta glucanase breaks down beta glucans in yeast cell walls allowing the probiotics to better deter a yeast imbalance.*
- ▶ LactoStim®* promotes healthy, rapid growth of the beneficial bacteria and our patented delivery ensures protection through the acidic stomach.
- ▶ TruFlora works well in rotation with Theralac and TruBifido as it offers a different functional action.

SUGGESTED USE: Take 1 or 2 capsules daily. Separate by 3 hours when taking with antibiotics.

SUPPLEMENT FACTS:		
Serving Size: One Capsule		
Servings Per Bottle: 32		
	Amount Per Serving	%DV
Beta Glucanase	73.12 mg	**
Proprietary Probiotic blend	117.24 mg	**
<i>Lactobacillus salivarius</i> UALS-07	3 billion CFU*	**
<i>Lactobacillus plantarum</i> LP-115	10 billion CFU*	**
<i>Bacillus coagulans</i> IS-2	2 billion CFU*	**
Hemicellulase	27 mg	**

**Daily Value (DV) Not Established

What makes us different.

We believe the most expensive supplements are the ones that do not work. Therefore, we have formulated our products to **deliver noticeable results, guaranteed**. This means pure and potent ingredients coupled with patented and proprietary science that truly **raises the standard**.

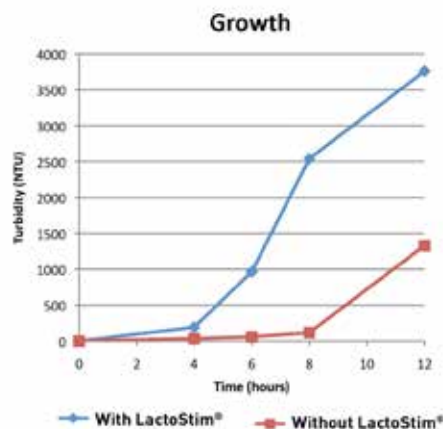

LACTOSTIM® PATENTED SPECIAL FUNCTION

All probiotic bacteria are freeze dried. They are produced in stainless steel fermenters in a proprietary nutrient broth and then harvested and freeze dried. The resulting freeze-dried powders are typically mixed with various excipients and filled into capsules as final products. **Probiotic cells are alive in the freeze-dried condition** but must be effectively rehydrated before they can multiply and colonize in the intestinal tract.

There is an inherent problem with the above process: freeze drying renders probiotic cells exceptionally fragile, particularly their cellular membranes. Cellular membranes made brittle by freeze drying are sensitive to rehydration. In the lab rehydration is a friendly process that takes place in sterile microbial media under optimum conditions of temperature, pH and nutrient availability; unimpeded probiotic growth begins quickly.

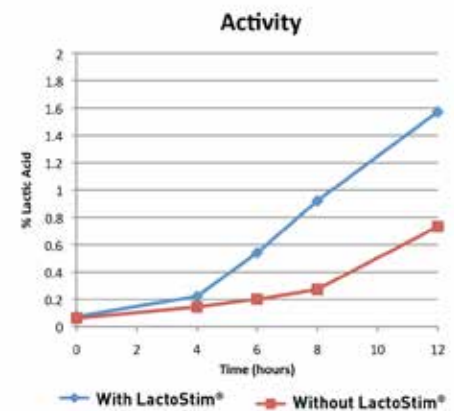

This is not the case in the intestinal tract where trillions of microbial competitors create a hostile environment: Competition for space and nutrients is heavy, and biofilms and antimicrobial

required for effective membrane rehydration. The membranes of probiotic bacteria, like Lactobacillus and Bifidobacterium species, specifically require the phospholipids provided by sunflower

substances are everywhere. Most probiotic CFU don't reconstitute and make it alive through this war zone; a major reason why many probiotic products fail to work. High CFU guarantees mean nothing if effective rehydration fails.

This is where **LactoStim®** makes a significant difference: The sunflower lecithin and oleic acid that comprise LactoStim® provide immediately available, critical components

lecithin with assistance from oleic acid. Little nicks and cracks in the membranes that result from the freeze drying are repaired quickly, allowing our high-quality probiotic strains to rehydrate effectively in hostile intestinal environments. The bio-availability is increased dramatically and the probiotics can begin growth and colonization. Contact us for more information on LactoStim®.

PATENTED SODIUM ALGinate, ACID-PROOF DELIVERY

Probiotic bacteria in commercial capsules are largely **destroyed by gastric acidity** when they enter the stomach; hydrochloric acid, salt and pepsin (major constituents of gastric juice) readily attack probiotics cells. It is not uncommon to see a loss in viability of >90% when unprotected probiotics pass through the stomach. A one billion CFU*/capsule product typically delivers less than 10 million CFU to the small intestine.

Since there are approximately 100 trillion microorganisms, mostly bacteria, in the human G.I. Tract, gaining control of this immense population **requires that billions of CFU, not millions, get delivered to the small intestine.**

Some commercial probiotics are enteric-coated with a polymer of acrylic acid for protection. Such coatings offer marginal protection and can be dangerous. Many other coatings and formulations have been tried but most have failed to offer significant protection from gastric acidity. The situation becomes critical when new generation probiotics strains, like those with strong mucosal adherence capabilities, are used since these can be ultra-sensitive to gastric acidity.

Here's how our patented acid-proofing process works. A natural alginate polymer from seaweed is combined with the probiotics bacteria and antioxidants from ascorbic acid by a proprietary process; this mixture is then encapsulated in either cellulose derived **V-caps™** or **delayed-release DR caps** depending on the specific

probiotic strains and the intended target. When the capsule enters the stomach (at pH 1.5- 2.5) the outer cellulose shell dissolves in minutes and a protective insoluble gel-structure forms in the shape of the original capsule. This unique structure is comprised of insoluble alginic acid which protects the internal contents- the probiotics cells- for as long as they remain in the stomach. Upon entering the small intestine (duodenum) where the pH is >7.0, the alginic acid gel reverts back to the soluble alginate form and releases the

probiotics bacteria unharmed. This patented process, unique to our supplements results in **>95% of the CFU reaching the small intestine** as viable probiotics cells. No other acid-proof formulation has been shown to equal the effectiveness of this process.

ASTRAZYME® VEHICLE OF ENERGY

AstraZyme® is a proprietary and proven combination of proteolytic enzymes, herbal extracts of astragalus

and noto-ginseng root, and trace minerals. It has been designed to successfully accomplish both aspects of **protein utilization, the complete breakdown of protein, and the enhanced absorption of peptides and amino acids.** With 17% of the human body consisting of protein, second only to water at 60%, it is vital to absorb the protein you eat and there is no other researched product on the market today that improves protein absorption.

The magnificently designed human body can be likened to a rocket; just like a rocket, the human body must utilize the right fuel to support its function. Protein utilization is necessary to: energize metabolism, balance blood coagulation, provide structural support, assist the immune system, support fluid balance, regulate hormones, transport materials in and out of cells, enable muscle contractions, and comprise the physical structure of all enzymes.

The "you are what you eat" concept has evolved into, you are what you digest, and finally with the introduction of AstraZyme to, you are what you absorb. The benefits of taking AstraZyme are increased energy levels, decrease in food consumption, relief from occasional gas and bloating, enhanced vitamin and mineral absorption, initial weight loss, and slowing the aging process. AstraZyme is **Non-GMO, non-dairy, non-soy, allergen and gluten free as well as vegan/vegetarian.** For more information, contact us and request a copy of the AstraZyme ebook.
