SECTION 1 – ROUSH® POWERTRAIN COMPONENTS

The ROUSH® Supercharged Powertrains all have varying content. Your vehicle may or may not include some of the following components:

ROUSHcharger®

The latest technology on the market, the TVS 2650 takes superchargers to the next level. Improved air flow, isentropic efficiency and lower discharge temps all help with tremendous power potential of this head unit.

ROUSH® Intake Manifold

Custom made for the 5.0L DIPI Ti-VCT engine, this cast aluminum intake packages all of the requirements for an integrated charge air cooler and manifold in one.

ROUSH® Intercooler System

The stand alone water to air intercooler system helps with maintaining consistent air charge temperatures and delivering peak performance on demand.

ROUSH® Fuel System Upgrades

The ROUSH® kit utilizes higher-flow injectors that meet performance demands and retain everyday driveability.

ROUSH® Engine / Transmission Calibration

The PCM/TCM (automatic transmission equipped vehicles) have unique calibrations developed specifically for the ROUSHcharged® engine packages. Countless hours of engine dynamometer testing, durability testing, cold & hot weather trips and varying altitude trips go into the end product you drive.

SECTION 2 - ENGINE MAINTENANCE INFORMATION (Applicable to ROUSHcharged® Vehicles Only)

Before any repairs are made to your vehicle for any engine concern, please have your dealer contact ROUSH® Performance Customer Service between the hours of 8 AM to 5 PM Eastern Time, Monday through Friday, at 800.59.ROUSH (800.597.6874) for diagnostic and repair assistance.

Your ROUSHcharged® vehicle has been uniquely calibrated by ROUSH® for proper operation of the Powertrain system. This calibration program may be accidentally erased if improperly accessed by any service tool having Powertrain Control Module (PCM) flash capabilities. Instruct your service technician to contact ROUSH® before performing service to the Powertrain control system.

Engine Fuel

As your ROUSHcharged® equipped vehicle is a high-performance vehicle, it requires the use of premium unleaded fuel of at least 91 octane (R+M)/2. Do not use any type of octane booster or other fuel additives as it may cause damage to the spark plugs, catalyts, and/or other emission control devices.

Fuel Filter

Your vehicle is equipped with a lifetime fuel filter that is integrated with the fuel tank. Regular maintenance or replacement is not needed.

Engine Oil and Filter

Change your oil every 6 months or 5,000 miles, whichever occurs first, using Motorcraft SAE 5W-50 Full Synthetic Motor Oil. This should be done more frequently if high operating temperatures are encountered, or the vehicle is run hard for extended periods such as on a racetrack. The Motorcraft oil filter FL-500-S should be replaced every time you change your oil.

Spark Plug Information

If equipped with a ROUSHcharger®, your ROUSH® vehicle will have ROUSH® spark plugs with a preset gap. If your plugs need to be changed, contact ROUSH® Customer Service at 800.59.ROUSH for the correct part number. The use of a non-ROUSH® approved spark plug may damage the engine and will void your warranty.

Cooling Systems

Your ROUSH® Vehicle has two separate cooling systems – one for the engine and one for the intercooler system. Both use a 50/50 mix of Motorcraft Specialty Orange Engine Coolant and distilled water. This coolant mix provides both proper lubrication for the pumps in the system and anti-freeze/anti-boil protection. Consult the Ford Owner's Guide for recommended fluid replacement intervals.

Engine Coolant Fill Procedure

Fill the overflow bottle to the full line with coolant. Operate the engine until it reaches normal operating temperature. Check the overflow bottle and add coolant as necessary. Re-check the overflow bottle after the engine has cooled and, if necessary, add coolant to bring the level up to the full line. Repeat steps 1 through 3 until no drop in coolant level is noted.

Intercooler Coolant Fill Procedure

Your ROUSH® vehicle is equipped with a single-core, air-to-water intercooler system with an electric water pump. This provides a cooler air charge to the cylinders, allowing your engine to develop more power. Add coolant until it is one inch from the top of the intercooler reservoir bottle. Turn the ignition key to the "ON" position to turn on the intercooler pump and purge any trapped air in the system. Repeat steps 1 and 2 until the reservoir stays at the full mark.

Powertrain Control Module (PCM)

The calibration values contained in the Powertrain Control Module are the exclusive property of ROUSH®, and contains highly proprietary, confidential, and trade secret information of ROUSH®. User may not copy, reverse engineer, create derivative works, transfer, loan, sell, lease, download, upload or disclose the calibration data contained in your ROUSH® vehicle to others in any manner whatsoever. Any routine or systematic re-distribution of any portion of ROUSH's calibration data is expressly prohibited.

Transmission

Your ROUSH® Vehicle was calibrated using factory transmission components, therefore no modifications are recommended. Refer to the Ford owner's manual for the recommended fluid replacement intervals.

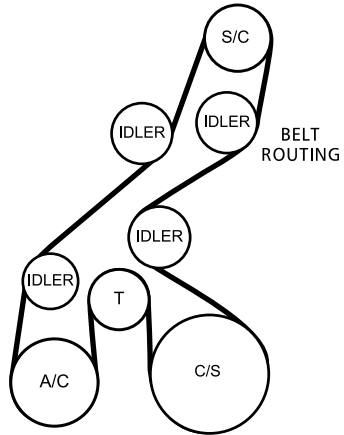

Traction Control

Your ROUSH® Vehicle is equipped with traction control, which can only be disabled by the operator after the vehicle is running. It is primarily intended for slippery road conditions. Due to the high acceleration capability of the ROUSHcharged® equipped vehicles , the traction control feature could engage while accelerating at wide-open throttle.

Appendix A – Vacuum Schematic

Appendix B – Supercharger Accessory Belt Routing Diagram

Appendix C – Summary Table

Component	Part Number	Recommended Interval
Oil Filter	Motorcraft FL-500-S	6 months / 5000 miles
Oil	Motorcraft SAE 5W-50 Full Synthetic	6 months / 5000 miles
Spark Plugs	Motorcraft M-12405-M50A (set of 8)	As Needed
Accessory Drive Belt	K060806	As Needed
Coolant	Motorcraft Specialty Orange Coolant	3 Years / 50,000 miles
Consult your Mustang Owner's Guide for all other specifications		

SECTION 3 - DID YOU KNOW:

- Modifying your vehicle may void your Limited Powertrain Warranty. Please consult ROUSH® warranty prior to making any modifications.
- Altering wheel and/or tire size beyond factory allowable specifications is not recommended. Doing so may cause your vehicle to experience a lack of performance and/or check engine light(s). Ensuring the correct tire size (rev/mile) has been accounted for inside the PCM/BCM is critical to normal vehicle function. This information must be updated using proper service tools by a certified installer/dealer prior to driving any vehicle with an altered wheel and/or tire combination.
- Aftermarket clutches and/or flywheels are not recommended with Roush® calibrations. Choosing to do so may require a custom, non-Roush® calibration at your expense and it will void your Limited Powertrain Warranty.
- Within 30 days of Supercharger installation, your warranty card must be sent to Roush® for vehicle registration. Warranty is only applicable to the original purchaser of the kit and is non-transferrable.
- Regular Ford service intervals and fluids are recommended after installation of the Supercharger. Make sure you use the correct engine oil for your application. 2018+ Supercharged 5.0L Mustangs and F-150s require 5W-50 full synthetic engine oil.

Tire Replacement

If you replace your vehicle's tires, make sure the size (aspect ratio) and load rating match the tires supplied with your vehicle because speedometer, odometer, and ABS brake operation are based on these factors. The use of tires larger than originally supplied may interfere with operation of these components and possibly cause vehicle damage. The proper size of tire is critical to vehicle performance, as off-size tires may cause a lack of performance and/or malfunction indicator light. Smaller tires may not properly seat on the wheels, causing a dangerous operating condition. We recommend purchasing replacement tires identical to those on your new vehicle. See your dealer or contact us at **800.59.ROUSH (800-597-6874)**.

SECTION 4 - General Information about the ROUSH® Limited Warranty

WARRANTY PERIOD AND COVERAGE FOR NON-EMISSION ROUSH® PART(S)

The warranty coverage for ROUSH® Part(s) (other than emissions-related ROUSH® Part(s)) are split into two categories. ROUSH® Powertrain Warranty coverage and ROUSH Bumper to Bumper coverage. The ROUSH® Powertrain Warranty period is limited to the first to occur of 5 years or 60,000 miles, with the Bumper to Bumper period limited to the first to occur of 3 years or 36,000 miles. Both are subject to the limitations of coverage and exclusions identified below. The Warranty Start Date is determined by the Ford dealer OASIS (On-Line Service Information System) report (as stated in Section 5 - "When Does Your Warranty Begin").

ENGINE COMPONENTS COVERED:

All internal lubricated parts, cylinder block, cylinder heads, electric fuel pump, electronic engine control unit, engine mounts, flywheel, manifold (exhaust and intake), manifold bolts, oil pan, oil pump, seals and gaskets, thermostat, thermostat housing, timing chain cover, timing chain (gears or belt), supercharger unit, valve covers, and water pump. If a failure of any of the above parts damages either the engine block or cylinder heads, a remanufactured long block assembly will be provided.

TRANSMISSION COMPONENTS COVERED:

All internal parts, clutch cover, seals and gaskets, transmission case, and transmission mounts.

REAR AXLE COMPONENTS COVERED:

Axle shafts, bearings (front and rear), center support bearing, drive axle housing (including all internal parts), drive shaft, propeller shafts, retainers, supports, seals and gaskets, universal and constant velocity joints.

For vehicles prepped for or upfitted with a ROUSHcharger®, in addition to the points noted above under “What is Not Covered”, the following are NOT COVERED by this warranty for the ROUSHcharger®:

Engine components specifically not listed as “COVERED” under the ROUSHcharger® section found under “Limitation of Coverage”, including, but not limited to parts, filters, etc., that are required to be replaced as a part of a normal vehicle maintenance schedule.

Failure of related parts external to the transmission that causes a transmission claim including, but not limited to, transmission coolers, levers, controls, etc., will void coverage under this warranty.

Installation or modification with aftermarket components including ROUSH® Retail Parts may void the Powertrain Warranty.

Further, this warranty DOES NOT COVER the original equipment manufacturer (OEM) exterior engine components, ignition, fuel system, or damage related to or arising from:

- a) Use of fuel with octane rating less than $91 (r+m)/2$ (requires Premium Fuel), or contaminated fuel.
- b) The use of non-ROUSH®-approved accessories, such as, headers, air induction, fuel additives (i.e. Octane booster), camshafts, nitrous oxide systems, rear end modifications, remanufactured components, or engines unauthorized by ROUSH® or OEM, and other aftermarket products.
- c) Damage or abuse related to overloading, PCM recalibration, misuse, negligence, road conditions, and other non-ROUSH® approved modifications.

Maintain Your Vehicle Properly

Your glove box contains a Ford Schedule Maintenance Guide for reference and recording maintenance work performed on your vehicle. Proper vehicle maintenance is the sole responsibility of the vehicle owner.

ROUSH® Performance Products and/or Ford Motor Company may deny you warranty coverage if you fail to keep records and receipts that verify vehicle maintenance specified in the Ford Schedule Maintenance Guide has been performed.

Section 5 - When Does Your Warranty Begin

When Does Your ROUSH® Warranty Begin?

Your ROUSH® warranty begins either the day you take delivery of your new vehicle or the day it is first put into service (for example, as a dealer demonstrator), whichever occurs first. The vehicle's original in-service date or warranty start date (W.S.D.) is determined by Ford dealer OASIS (On-Line Service Information System) report. Should you ever require warranty repairs to any ROUSH® part on your vehicle, we recommend that you take your vehicle to an authorized Ford Dealer that sells ROUSH® vehicles for service.

Who Pays For ROUSH® Warranty Repairs?

You will not be charged for covered warranty repairs made during the warranty periods identified in the ROUSH® Limited Warranty for those ROUSH® parts installed by ROUSH®. All initial warranty claims are processed through your dealer and the ROUSH® Performance corporate office in Plymouth, Michigan, regardless of where the vehicle was purchased.

Vehicle Service

ROUSH® has authorized specific Ford Dealers to sell and service our vehicles. In case a service need arises, we suggest you contact your selling Ford Dealer for service, who wants to ensure your continued satisfaction. If this is not possible, you may take your vehicle to any authorized Ford Dealer that sells ROUSH® vehicles for service. If you have a warranty claim, please contact your local Ford dealer that sells ROUSH® vehicles or contact ROUSH® Performance Customer Service between 8 AM and 5 PM Eastern Time, Monday through Friday, at **800.59.ROUSH (800.597.6874)**. Please have the vehicle identification number (V.I.N.) available.

Emergency Repairs

If you encounter an emergency where neither an authorized Ford Dealer that sells ROUSH® vehicles, nor any authorized Ford Dealer is available to repair your vehicle and you must have repairs made by someone else, ROUSH® may reimburse you for the cost of repairs (within reason) and with prior approval from ROUSH®. Be sure to obtain the parts that were replaced along with a receipt for the repairs. Present both to your local authorized Ford Dealer that sells ROUSH® vehicles, who will work with ROUSH® to determine if the repair is warrantable and reimbursement is justified.

Customer Service

Customer satisfaction is a primary objective of ROUSH®, and we make every attempt to ensure that our owners are satisfied. We recognize the importance of retaining customer confidence in us after the purchase, and rely on those Ford Dealers that sell ROUSH® vehicles to maintain effective customer relations.

If you have any questions or issues relating to your ROUSH® vehicle, we suggest you follow these steps:

1. First, contact your selling Ford Dealership salesperson or service advisor.
2. If your concerns remain unresolved after Step 1, please contact the dealership's Sales Manager or Service Manager.
3. If you are still unable to resolve your concern, please feel free to contact ROUSH® Performance Customer Service between the hours of 8 AM and 5 PM Eastern Standard Time, Monday through Friday, at **800.59.ROUSH (800.597.6874)**. A ROUSH® representative will assist you in resolving your concern.

Production Changes

ROUSH® and those authorized Ford dealers that sell ROUSH® vehicles reserve the right to make changes in vehicles at any time without incurring any obligation to make the same or similar changes on vehicles previously built or sold.

Does The ROUSH® Warranty Apply In Other Countries?

The ROUSH® Limited Warranty described here applies to your vehicle if:

- It was originally sold or leased by a Ford dealer in the United States or U.S. Federalized Territories that sells ROUSH® Performance Products, and it was originally registered/licensed and operated in the United States, U.S. Federalized Territories, or Canada; or
- It was originally purchased through the Ford Export Operations Military Sales Program. If you meet either of these two requirements, you have ROUSH® warranty coverage when you travel with your vehicle outside of the United States or Canada. In some cases, you may have to pay the servicing authorized Ford Dealer in a foreign country for a repair that is covered under the ROUSH® warranty. If this occurs, be sure to save the paid repair order or invoice. For refund consideration, you should present your receipt to your U.S. or Canada authorized Ford dealer that sells and services ROUSH® vehicles.

SECTION 6 - ROUSH LIMITED WARRANTY

WHO IS COVERED

The vehicle is covered for the original purchaser of a new, genuine ROUSH® vehicle that has been upfitted by the ROUSH® factory with genuine ROUSH® parts and components (individually and collectively called "ROUSH® Part(s)") and purchased from an authorized Ford Dealer that sells ROUSH® vehicles. This Limited Warranty is transferable from the original purchaser to subsequent owners within the warranty period. The term "ROUSH® Part(s)" as used in this Limited Warranty includes all ROUSH®-installed parts and components on the vehicle, unless the part is separately called out in this warranty.

WARRANTY PERIOD AND COVERAGE FOR NON-EMISSION ROUSH® PART(S)

The warranty period for ROUSH® Part(s) (other than emissions-related ROUSH® Part(s)) are split into two categories. ROUSH® Powertrain Warranty coverage and ROUSH Bumper to Bumper coverage. The ROUSH Powertrain Warranty period is limited to the first to occur of 5 years or 60,000 miles, with the Bumper to Bumper period limited to the first to occur of 3 years or 36,000 miles. Both are subject to the limitations of coverage and exclusions identified below. The Warranty Start Date is determined by the Ford dealer OASIS (On-Line Service Information System) report (as stated in Section 5 - "When Does Your Warranty Begin").

When installed, ROUSH® Part(s) will void the Ford warranty as it pertains to that specific part or component (i.e., a ROUSH® suspension package will only void the Ford suspension warranty). The ROUSH® warranty only covers defects in materials and workmanship of ROUSH® Part(s) and their installation, from the date and mileage your vehicle is first put into service. During the warranty period ROUSH® will in its sole discretion repair, replace, or adjust any defective ROUSH® Part(s) on the vehicle or other substantially damaged areas on the vehicle that arise as a direct result of interaction with the defective ROUSH® Part(s). A replaced ROUSH® Part(s) or component assumes the remaining warranty of the original replaced. ROUSH® reserves the right to improve or modify any ROUSH® Part(s) without assuming any obligation to update or replace any previously manufactured and installed ROUSH® Part(s).

WHAT IS NOT COVERED?

The following circumstances are intended to parallel standard Ford warranty exclusions and are not covered by this warranty, including but not limited to:

- Abnormal operation, road hazards, misuse, abuse, neglect, accidents, collision, fire, theft, freezing, vandalism, riot, explosion, or objects striking the vehicle;
- Participating in or preparation of the vehicle for racing or other high-performance driving activity (on a track or otherwise), including but not limited to competition driving, participation in timed driving events, and performance driving school training or practice;

- Misusing the vehicle, such as driving over curbs, overloading, racing, or using the vehicle as a stationary power source;
- Altering, disassembling, or modifying the ROUSH® Part(s) after the vehicle leaves the Ford Dealer's or ROUSH®'s control;
- Tampering with the vehicle or with other parts (OEM or ROUSH®) that affect the ROUSH® Part(s) including without limitation, the emissions systems or the other parts that affect these systems;
- Defects caused or induced by failures, breakdowns, or damage by other parts, components, or the vehicle;
- Vehicle recall or service campaign warranty claims negotiable on an incident-by-incident basis;
- Subjecting the ROUSH® Part(s) to excess moisture or water or any motor vehicle fluids (e.g. oil, anti-freeze, battery acid, brake fluid, etc.) or driving through water deep enough to cause water to be ingested into the engine;
- Acts of God, acts of war or terrorism, natural disasters, and other similar causes beyond the reasonable control of ROUSH®;
- Application of chemicals that affect the ROUSH® Part(s) including, without limitation, caustic (acid based) cleaners on chrome, coated, or finished surfaces;
- Lack of maintenance or lack of fluids;
- Failure to follow recommended maintenance of the ROUSH® Part(s) including without limitation periodic cleaning and polishing;

- Damage resulting from a collision (including operation of such an impaired vehicle will void this warranty), owner is responsible for ensuring no further damage occurs once damage has occurred;
- Valve replacement on ROUSH® wheels and using proper weights on ROUSH® chrome wheels;
- Using improperly-sized tires on the ROUSH® wheels that are not in accordance with standards recommended by ROUSH® or the Tire and Rim Association;
- Inflating the tires on the ROUSH® wheels beyond the maximum or below the minimum air pressure as specified by the tire manufacturer;
- Altering, modifying, or subjecting the ROUSH® wheels to processing such as heating, welding, straightening, or machining;
- Brake pads or other items that would be consumed in the course of driving the vehicle;
- Installation or modification with aftermarket components including ROUSH® Retail Performance Parts may void the Powertrain Warranty

This warranty does not cover surface deterioration of paint, finish, trim, and appearance items on any ROUSH® Part(s) that result from use and/or exposure to the elements such as stone chips, bird droppings, lightning, hail, windstorm, dings, dents, earthquake, road salt, brake dust, trees (sap, leaves, berries, etc.), water or flood, surface corrosion, damage, chips, dents, scratches, customer neglect, or normal wear and tear.

MAINTENANCE/WEAR

The ROUSH® Limited Warranty does not cover: (1) parts and labor needed to maintain the vehicle; and (2) the replacement of parts due to normal wear and tear. You, as the owner, are responsible for these items. Some examples of maintenance and normal wear are:

- Oil changes
- Oils, lubricants, and other fluids
- Oil/air filters
- Cleaning/polishing
- Clutch linings
- Wiper blades
- Tire rotation/inflation

SECTION 7 - HOW TO GET SERVICE FOR NON- EMISSIONS ROUSH® PART(S)

For warranty service, ROUSH® recommends that you bring your vehicle to an authorized Ford Dealer that sells ROUSH® vehicles, or if one is not available, to any authorized Ford Dealer. The dealer will review and submit all claims for defects in, or damage arising from ROUSH® Part(s) or their faulty installation. ROUSH® will promptly assess the claim and make a determination regarding the claim. To the extent Ford's warranty is involved, the final action will be determined by a combined analysis by the Ford Dealer, Ford Motor Company, and a ROUSH® Performance representative. The Ford Dealer must receive ROUSH®'s written authorization before beginning any work to be billed to ROUSH®.

ROUSH® reserves the right to transport your vehicle to the ROUSH® factory for any repair, replacement, or adjustment of ROUSH® Part(s). However, ROUSH®'s warranty does not cover the cost of rental cars or towing during the performance of any such repair, replacement, or adjustment service, whether performed at ROUSH®'s factory or a Ford Dealership.

For further information about ROUSH® Performance vehicles and products, call us between the hours of 8 AM and 5 PM Eastern Standard Time, Monday through Friday, at **800.59.ROUSH (800.597.6874)**, or locate us on the World Wide Web at **www.ROUSHperformance.com**.

SECTION 8 - ROUSH®'S WARRANTY COVERAGE AND AFTERMARKET PARTS/RACING

ROUSH® vehicles are engineered for street performance and are not intended or warranted for racing on a track or otherwise. ROUSH® does not recommend modifying or racing ROUSH® vehicles, as they are designed to be driven as built and delivered from ROUSH®.

Although the installation of aftermarket parts by itself will not void the ROUSH® Limited Warranty, failures that result from these parts or modifications may result in a denial of warranty coverage by ROUSH® for such damage. The best rule of thumb is to consider whether any modification you do may cause any component to fail, and if it does, recognize that ROUSH® will likely deny warranty coverage for any subsequent damage. If you intend to race the ROUSH® vehicle on track or otherwise, and the loss of warranty coverage is not a concern, ROUSH® recommends that you make those modifications necessary to ensure that the vehicle can be driven safely under such conditions. Again, subjecting the vehicle to racing, track preparation and participation, and competition conditions will void the ROUSH® Limited Warranty; therefore, all repairs to the vehicle will be non-reimbursable.

SECTION 9 - WARRANTY DISCLAIMER AND LIMITATION OF LIABILITY

The ROUSH® limited warranty and its remedies described in this ROUSH® owner's guide supplement are exclusive and in lieu of all other warranties, remedies, and conditions, whether oral or written, statutory, expressed or implied, as permitted by applicable law. ROUSH® specifically disclaims all express, statutory, or implied warranties, including, without limitation, the warranties of merchantability, fitness for a particular purpose, and warranties against hidden or latent defects. If ROUSH® cannot lawfully disclaim any statutory or implied warranties then to the extent permitted by law, all such warranties shall be limited in duration to the warranty period and the warranty coverage described herein. Except as provided in this warranty and to the extent permitted by law, ROUSH® is not responsible for special, indirect, consequential, incidental, or punitive damages resulting from any breach of warranty or condition, or under any other legal theory including, without limitation, loss of earnings, personal damages, personal injury (including death), personal expenses (food, room, medical, dental), or rental vehicle expenses. ROUSH®'s maximum liability to you for any and all loss or damage, whether as a result of breach of contract, warranty, tort (including negligence and strict liability), or otherwise, shall be limited to the actual price paid by you for the ROUSH® package of ROUSH® part(s) installed on the ROUSH® vehicle that gave rise to the claim.

SECTION 10 - CUSTOMER ASSISTANCE AND HOW STATE LAW APPLIES

If you are not satisfied with the handling of a warranty matter, please contact ROUSH® Performance Customer Service between the hours of 8 AM and 5 PM Eastern Standard Time, Monday through Friday, at **800.59.ROUSH (800.597.6874)**.

This ROUSH® Limited Warranty gives you specific legal rights, and you may have other rights which vary from state to state.

SECTION 11 – CALIFORNIA PROPOSITION 65 WARNING STATEMENT

WARNING: Some constituents of engine exhaust, certain vehicle components, certain fluids contained in vehicles, and certain products of component wear contain or emit chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.
