Store product and maintain its temperature in a cool (75 F or below), dry area away from odor causing substances. Best if used within one year from date of manufacture.

All information herein is considered to be confidential and is deemed the sole property of AAK USA K1, LLC. Solid Fat Content analysis has been statistically evaluated to establish the new specification. There may be some minor corrections/modifications made as new data becomes available. All physical and chemical analyses are determined as packed. Flaked shortening may have visible condensate present due to temperature variables in the flaking process.
