

# KUPIILKA®

## KUPIILKA FACTS

Our roots date back to 1775 when the first handmade cup was carved - old traditions combined with the best modern materials guarantee quality with no compromise. The name Kupilka originates from an old Karelian nickname for a wooden mug. Heikki Koivurova, a Finnish industrial designer who is known for his down to earth attitude and beautiful organic, yet functional forms, has designed the products.

TRAVELLER'S  
BEST FRIEND

## RAW MATERIAL

Our very own Kareline® Natural Fibre Composite!

- ✓ Eco-friendly cellulose fibres from pine forests reinforce the material
- ✓ FDA approved polypropylene is used as an adhesive
- ✓ Ratio: 50% wood-based cellulose fibres + 50% thermoplastic

### ADVANTAGES

#### compared to plastic:

- ✓ ecological choice
- ✓ smoother to the touch
- ✓ better thermal insulation
- ✓ stiff and strong structure
- ✓ organic and unique appearance
- ✓ wide operating temperature (-30°C..+100°C)

#### compared to wood:

- ✓ more durable and strong - long life span
- ✓ dishwasher safe
- ✓ easy to maintain, no extra care needed
- ✓ insensitive to water and humidity
- ✓ easy to clean, more hygienic

At the end of the life span the products can be recycled, incinerated for heat energy or returned to the manufacturer for re-use. Kupilka® fulfils the requirements of EU No 10/2011 and 1935/2004/EC §3.
