## KUPILKA JOINS THE #OURSEA CAMPAIGN

KUPILKA is a partner of #OURSEA, a charity campaign launched during the Moomins jubilee year of 2020. The aim of the campaign is to increase awareness for the condition of the Baltic Sea, and to raise one million euros for John Nurminen Foundation's work to protect the Baltic Sea and its heritage.

Part of the profits received from the sales of the KUPILKA #OURSEA products are donated to the campaign. The #OURSEA product line consists of KUPILKA 21 cups, featuring the official campaign logo lasered on one side. The products are available in two colors, original brown and blueberry blue. The #OURSEA products will be available during the duration of the campaign, which will be active until the end of summer 2021.

All KUPILKA products are manufactured using Kareline® natural fibre composite. They are unique, ecological, durable and dishwasher safe. All the products are made using certified green energy in Finland and the whole production is CO2 neutral. As a manufacturer of ecological camping products, KUPILKA feels connected to the values of the Moomins, known for their close-to-nature lifestyle and adventures in the wild.
