

# Mason-Lite Masonry Vent Less Fireplaces

*Our lightweight, gas-burning masonry fireplaces are taking the hearth industry by storm.*

Available in 39", 44" and 49" units, our Vent Free systems add value and elegance to a home without the mess and hassle of old-fashioned, wood-burning fireplaces.

For a complete system, try Mason-Lite's optional Virginia Log Set.

*Shown with Virginia Log Set*

- MFP44VF (44")
- MFP49VF (49")
- Custom sizes also available

Custom Vent Free units available at:

[www.Mason-Lite.com/CustomOrder](http://www.Mason-Lite.com/CustomOrder)

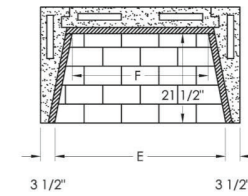

## FEATURES AND BENEFITS:

- Indoor or Outdoor Installation
- Fireplace is ready for either Mason-Lite's Virginia Vent-Free log set or any UL approved vent-free logs
- Indoor units: Maximum Btu of 40,000 for Indoor (Zero clearance to combustibles)
- Outdoor units: Higher Btu limit (need 2" clearance to combustibles)
- Clean and Environmentally Friendly: Lower outputs of carbon monoxide, pollutants, and particulate matter compared to wood-burners
- Convenient, No-Mess Operation:
  - Free from sparks and long-burning embers
  - No chimney cleaning
  - No messy ashes or wood chipss
  - No wood storage space needed
- Optional firebrick panels available in three colors and patterns for an authentic fireplace look-and-feel
- NO Flue for reduced framing requirements, architects love it!
- Compliant with ANSI-Z 21.50 gas fireplace standard for use with any ANSI-Z21.11.2 approved gas logs

\*Always check local building codes before purchase.

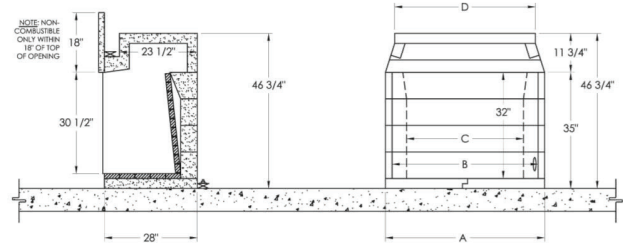

## Product Specifications
