

Manual LOQTRACK 4G MINI

1. SIM CARD

If you bought the Bundle Deal, then a SIM card is already included and placed. You can skip this chapter and proceed to next chapter: 2. TURN ON THE LOQTRACK 4G MINI.

If you want to insert your own SIM card into the SIM card slot:

Open the silicone plug and insert the SIM card.

Indicator Light	
Yellow - Solid	No signal
Yellow - Flash	Connection
Blue - Solid	No GPS
Blue - Flash	GPS
Red - Solid	External power connected, charging until battery is fully charged. When battery is full, then the Red light turns off.
On / off button	The on / off button is displayed at the blue arrow.
Charging	External power connection is displayed at the green arrow.

When you inserted your own SIM card, you need to set the APN for the device. This is not needed when you purchased the Bundle Deal that include a SIM card from AlwaysTrace.

Send an SMS to set the APN:
 apn123456 content
 apnuser123456 content
 apnpasswd123456 content

Please note there is a space between 123456 and content. Replace content with the actual information.

Example Vodafone Germany:

You need to find out what the APN is for your SIM card. For Vodafone mobile SIM card in Germany, the APN is for example: web.vodafone.de

Sometimes there is also a username and password. For Vodafone Germany, the username is vodafone and the password is vodafone.

Send an SMS to set the APN for Vodafone Germany:

apn123456 web.vodafone.de

apnuser123456 vodafone

apnpasswd123456 vodafone
