The Elements

A NICOLE BURCH COLLECTION

WWW.NICOLEBURCHJEWELRY.COM

Inspired by Nature

Inspiration Behind *The Elements*

This collection was born from a deep connection to the natural world and the energies that flow through it. Each piece represents one or more of the five elements—*Earth, Air, Fire, Water, and Wood*—and was intentionally crafted to reflect the unique qualities each element brings into our lives.

From grounding Earth tones and airy clarity to fiery warmth, flowing water energy, and the steady growth of Wood. The stones I selected to embody these energetic forces- From Aquamarine to Fluorite, and Fossilized Wood to Fire Agate. I wanted to create jewelry that not only reflects the beauty of nature but helps the wearer feel aligned, balanced, and connected to something greater.

This collection is a celebration of energy in motion—how we shift, grow, release, and return to center.

xoxo Nicole

The Elements

Earth

Grounding. Stable. Nurturing.

Stones that connect to Earth offer balance, strength, and a sense of rootedness. They're a reminder to slow down, stay present, and build from the ground up.

Air

Fire

Bold. Creative. Passionate.

The energy of fire ignites action and transformation. These pieces are designed to spark motivation, courage, and inner power.

Water

Fluid. Intuitive. Reflective.

Water stones carry the energy of emotion and healing. They invite flow, softness, and a deep return to your inner world.

Avoid exposure to chemicals: Keep your crystal jewelry away from harsh chemicals such as lotions, perfumes, and household cleaners. Chemicals can damage the surface of the crystals and metals and affect their appearance.

Store properly: Store your crystal jewelry in a soft pouch or a separate compartment in your jewelry box to prevent scratching or chipping. Crystals are susceptible to scratches, so keeping them separate from other jewelry pieces can help maintain their shine.

Clean gently: Use a soft, non-abrasive cloth to gently wipe your crystal jewelry after each use to remove oils, dirt, and sweat. Avoid using harsh cleaners or abrasive materials that could scratch or damage the surface of the crystals.

Avoid water exposure: Many crystals are porous and can be damaged by prolonged exposure to water. Remove your crystal jewelry before swimming, showering, or washing your hands to prevent potential damage or discoloration.

Recharge and cleanse: Crystals have their own energy and benefit from regular cleansing and recharging. You can cleanse them by using methods like smudging with sage, placing them under moonlight or sunlight, or using other crystal cleansing techniques to clear any negative energies they may have absorbed.

FAQ

THE PENDANT I WANTED IS SOLD ALREADY, CAN YOU REMAKE IT?

The nature and uniqueness of my pieces make them hard to duplicate exactly. While there are some designs that I can remake certain aspects of, no two pieces will be the same. I often search for unique, rare stones, which makes it hard for me to duplicate. If you have questions about some of my designs being remade, please reach out to me at nicole@nicoleburchjewelry.com with screenshots of the piece you are inquiring about.

DO YOU ACCEPT CUSTOM ORDERS?

At this time I am accepting custom orders into 2025. There are usually delays in this process because I do custom orders in between collections. If you would like to inquire about a custom piece please send me an email at nicole@nicoleburchjewelry.com
