## Élitis, Panoramic Collection.

**Large-format creative freedom in 72 original designs.** Élitis panoramics continue to punctuate wallpaper collections with originality and dedicate their singular large-format decors to walls. The Élitis design studio is currently opening up its portfolios plunging us into a panoramic adventure. Their creative freedom inventories exceptional materials and territories on paper murals. Paintings, drawings, figurative motifs and engravings; the works offer a big screen show and the textured material of the backings on which they are displayed is unique. Raffia, linen, straw, silk, animal hide, metal, these material effects, characteristic of Élitis, reveal patterns, giving them texture, attracting light, vibrating colors and flattering walls. A unique panoramic wall collection on embossed vinyl. Standard format panoramics: 3m high x 2.80 - 4m wide depending on the model. Panoramics can be custom made offering customized solutions.
