ARTISTIC ENCOUNTER

Walls embrace an artist's sensibility: be ontrend with all things natural and handmade.

Elitis artisans embrace the handmade, layering by hand each strip of paper and fibre to create mixed media papers that are at once works of art for walls. An alchemy of raw, delicate materials (think paper, palm fibre, abaca bark, bamboo) and natural colour pigments come together under the eye and skilful hand of artisans to create one artistic expression.

You can't help but be inspired by the passion, attention to detail and creativity of the artists and craftspeople behind the new Elitis Mindoro wallcovering collection.
