Beauty blossoms  
at Seneca

Bring spring's bounty into your interiors with the latest exquisite floral-print fabrics from JAB.

Oversized floral prints are enjoying their moment in the sun, with timeless designs being delivered in a more vivid fashion than ever before, thanks to the wonders of digital printing.

These big, beautiful blooms will reinvigorate any room. JAB brings us two charming new releases, Botany and Countryside that embraces this flourishing trend.

BOTANY is a bold design featuring generously sized lilies and orchids on pure cotton and expressed in four fashionable colourways.

COUNTRYSIDE is a veritable potpourri of summer blossoms on pure linen. Hydrangeas, buttercups and anemones all burst forth in glorious style. The two colourways reflect combinations of refreshing blue, green and yellow or warm pink and red tones that convey a feminine touch.

To see more visit a Seneca Textiles showroom near you.
