

Seneca Ontrend

play it smooth

Colour-blocking combines with smooth textures to enhance the contemporary organic curves of today's designs.

Palettes emerge in subtle nuanced tones to brilliant life-force colours so that the individual can respond with a new chromatic culture across furniture and windows.

At once structured and relaxed, colour-blocking is designed for play. Dare to build your interior in Daffodil Yellow, Gentian Blue, Soft Apricot, Pastel Green, Off White, Taupe... as seen here in Jab's LUKE Collection.
