WHAT DOES A FULL-SERVICE BATH INCLUDE?

- Bath with Quadruped Tearless Hypoallergenic Shampoo applied TWO times (rinse thoroughly).
- Conditioning with Quadruped Silky Coat Leave in Conditioner (sit for 5 minutes and rinse)
- Ear Cleaning with Chris Christensen Mystic Ear (Use cotton balls to apply/clean)
- Nail Clipping- Just a quick snip with our professional nail trimmers.
- Anal Gland Expression- External ONLY (Vet's do the internal glands if impacted or infections are present)
- Blow Dry & Brush Out

WHY DO WE DO TWO RINSES OF SHAMPOO?

- The first rinse is to get all of that dirt, dander, grit and grime off of the coat and skin.
- The second rinse is to let the shampoo do its job! Clean!
- Conditioner is applied aiding in healthy and happy skin and coat!
- Shampoo does do its job by cleaning through the tough dirt, dust, pollen, etc. that builds up on your pup's coat and skin between regular baths and grooms. The conditioner plays a huge role in adding back moisture, luster, and shine to the freshly stripped hair. It is essential to the process as it adds back essential oils needed throughout your pup's fur and skin.
