

# NINE LIVES BAZAAR

The lovechild of Rose Madden and Vanessa Cave, work wives by trade and soul sisters by heart, Nine Lives Bazaar is a Northern Rivers based brand for the lovers of locomotion, life and a whole lot of nostalgia.

What started as a way to resell their beloved, overflowing collection of vintage clothing at the local Village Markets, has now turned into a much loved fashion label recreating vintage inspired threads that feel a little softer and fit a whole lot better.

Dripping with bold colours, fierce freedom and unapologetic expression, Nine Lives Bazaar is inspired by the colourful lives of generations that came before us. The moniker comes from the nostalgia anticipated for every creation it homes. Who will you pass this possession down to? How many date nights and weddings will it dazzle? What festival grounds will it strut upon? The collections are timepieces and talismans that will fall into nine (or more) hands, and sink deep into their hearts.

Nine Lives Bazaar is a celebration of freedom, expression, good times and truly is an extension of Ness and Rose's intrinsic style, just like it exists to be an extension of yours, designed for the statement-makers. Because life's too short for anything but.
