ZZ lances are designed for hot or cold water systems and couple easily to trigger guns. The square, ventilated insulator is constructed of tough reinforced polymer mounted to a 1/4" zinc-plated steel pipe.

ZZDBL lances provide a convenient method of operating a downstream chemical injection system by turning the insulated adjustment handle. Designed for hot or cold water systems, ZZDBL lances couple easily to trigger guns and feature a round reinforced polymer insulator mounted to 1/4" zinc-plated steel pipe for comfort and durability.
