HOW TO MEASURE			

Wrist Position: 15° - for patients with high tone

Side: Left

35° - for patients with low tone

Right

Digit Caps: These measurements correspond to the digit cap ring (used for measuring the fingertips).

Thumb _____
Index _____
Long _____
Ring _____
Little _____

HOW TO MEASURE (continued)

Use measuring tape and record your measurements (in inches) in the spaces provided.

Distal Component

Measure across the base of your fingers:
Place the measuring tape just above your knuckles; do not wrap the tape down the side of your fingers.
*(Clinicians: Measure **across** the MCPs 2 – 5.)*

Measure the circumference of your wrist:
Wrap the measuring tape around your wrist, just below your wrist bone.
*(Clinicians: Measure **around** the wrist just proximal to the ulnar head.)*

Measure the circumference of your forearm:
Measure 6 inches below your wrist bone and wrap the measuring tape around your forearm.
*(Clinicians: Measure **around** the forearm 6" proximal from the ulnar head.)*
