

ModCo Wheels (ModCo) - Limited Warranty

Subject to the terms and conditions set forth herein below, ModCo offers the Limited Warranty as follows:

ModCo warrants that wheels manufactured by them ("Products") will be free from structural failure for as long as the original retail purchaser owns the Product.

ModCo further warrants to the original purchaser that: (1) the Products will be free from defects in material and workmanship under normal and intended use for a period of twelve (12) months from the date of retail purchase; (2) Machined aluminum finishes are not covered under warranty. Machined aluminum wheels oxidize. They require regular maintenance. (2) Painted defects are limited to a twelve (12) month period from the date of purchase. Surface rust, pitting or discoloration, which are direct results of improper maintenance, are not covered by this Limited Warranty.

ModCo sole and exclusive obligation under this Limited Warranty shall be to repair or replace at ModCo's sole discretion, without charge, any Product that does not conform as warranted herein and is returned with a copy of the original sales receipt or satisfactory evidence of date of purchase to the dealer from whom the product was originally purchased or to ModCo. Such repair shall not include incidental charges such as removal, installation or shipping. In no event shall ModCo be liable for special, incidental or consequential damages. Wheels replaced under warranty will be covered for the remainder of the original Limited Warranty in place for that specific Product at that time.

ModCo does not warranty custom powder coat. Due the differences in climates we cannot guarantee long term durability. If you are worried about longevity in your climate, we recommend purchasing raw wheels and reaching out to a local powder coater for the appropriate powder coat for your climate.

This Limited Warranty is Void if:

[a] Corrosion or damage occurred due to improper maintenance; refer to Recommended Wheel Care Instructions below for correct wheel maintenance.

[b] Damage or structural failure occurs as the result of road conditions or an accident.

[c] Damage or structural failure occurs as the result of racing applications or willful abuse,

[d] Damage occurs due to neglect or adverse weather conditions.

[e] The wheels have been altered or repaired other than by ModCo or installed on customized vehicles (i.e., non-original equipment, or non-OEM parts).

[f] Damage resulted from improper mounting, excessive vehicle loads, and/or incorrect tire sizes.

This limited warranty is the express warranty given by ModCo and is in lieu of all other warranties, whether written or oral.

This Limited Warranty expires upon transfer of title of any ModCo products by the original retail purchaser.

The Products are not designed to be mounted with any accessories or adapters other than those supplied or approved by ModCo and any damage caused by any such other accessories or adapters is not covered by this warranty.

Disclaimer

OTHER THAN AS EXPRESSLY STATED HEREIN, ModCo GIVES NO WARRANTIES HEREUNDER ON THE PRODUCTS AND HEREBY EXPRESSLY DISCLAIMS ANY AND ALL OTHER WARRANTIES, INCLUDING ALL IMPLIED WARRANTIES OR CONDITIONS, OR WARRANTIES OR CONDITIONS OTHERWISE ARISING BY OPERATION OF LAW, INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, TITLE, AND NONINFRINGEMENT.

Disclaimed Liability. In no event will ModCo be liable to any purchaser arising out of any claim, demand, suit, action, allegation, or any other proceeding involving Products that have been altered or repaired other than by ModCo or installed on customized vehicles (i.e., non-OEM vehicles).

Recommended Wheel Care Instructions

- Wheels should be cleaned by hand regularly to remove contaminants like road grime, salt, ice/snow melting chemical, dirt, and brake dust.
- Automatic spray and touch free car washes do not completely remove contaminants and can cause harm to the finish; hand washing is highly recommended.
- Many areas of the country use road salts and chemicals during the winter months that can cause adverse effects on your wheels; it is recommended to clean more frequently during this season. Failure to do so may greatly reduce the life of the product.
- Avoid using automatic car washes as the cleaning agents and brushes used to clean tires can damage the wheel surface.
- Never wash your wheels when they are still hot from driving. Do not attempt to cool hot wheels with water as this may cause damage to the finish and can warp the brake rotors and/or drums.
