

PICTURE PERFECT BOX INSTRUCTIONS

1. Die cut two each of the box sleeves and 2 box bottoms. Die cut one each of the camera and camera accessories.

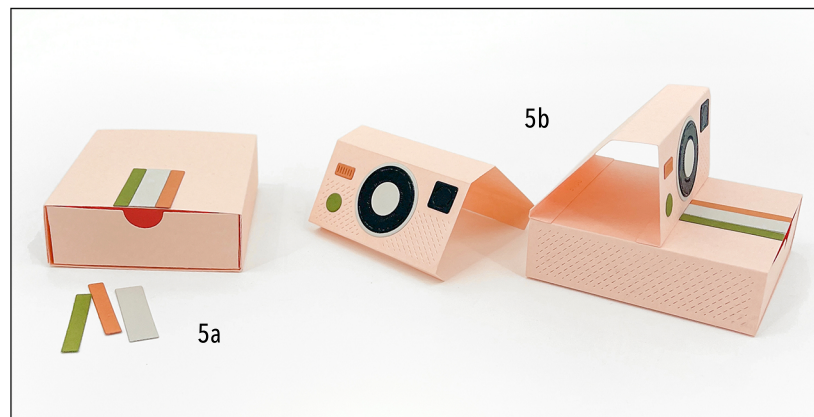

2. To create the box, start by adhering the two box bottom pieces together. Fold on all score lines. Add glue to the small tabs and fold in to form the box.

3. Fold all score lines on the box sleeve pieces. On one sleeve, add adhesive to the back of both side segments. Adhere the two box sleeve pieces together to create a finished sleeve. Slide the sleeve onto the box.

4. Adhere the accessories onto the camera as shown. Fold on all score lines. Add adhesive to the tabs that are marked GLUE.

5a. Adhere the three strips flush to the edge of the sleeve as shown.
 5b. Add the camera to the box by applying the bottoms tab flush to the back edge of the sleeve. Then adhere the front tab flush to the edge of the strips. Note: When the camera is adhered together correctly, the back side of the camera will be slightly angled.

6a. Add a polaroid card, treats, or a gift card to the camera box.
 6b. To create a slot for the polaroids to slide in and out of the camera, die cut the slot die on the shorter side of the box before assembly.
