

PUMPKIN BUILDER DIES INSTRUCTIONS

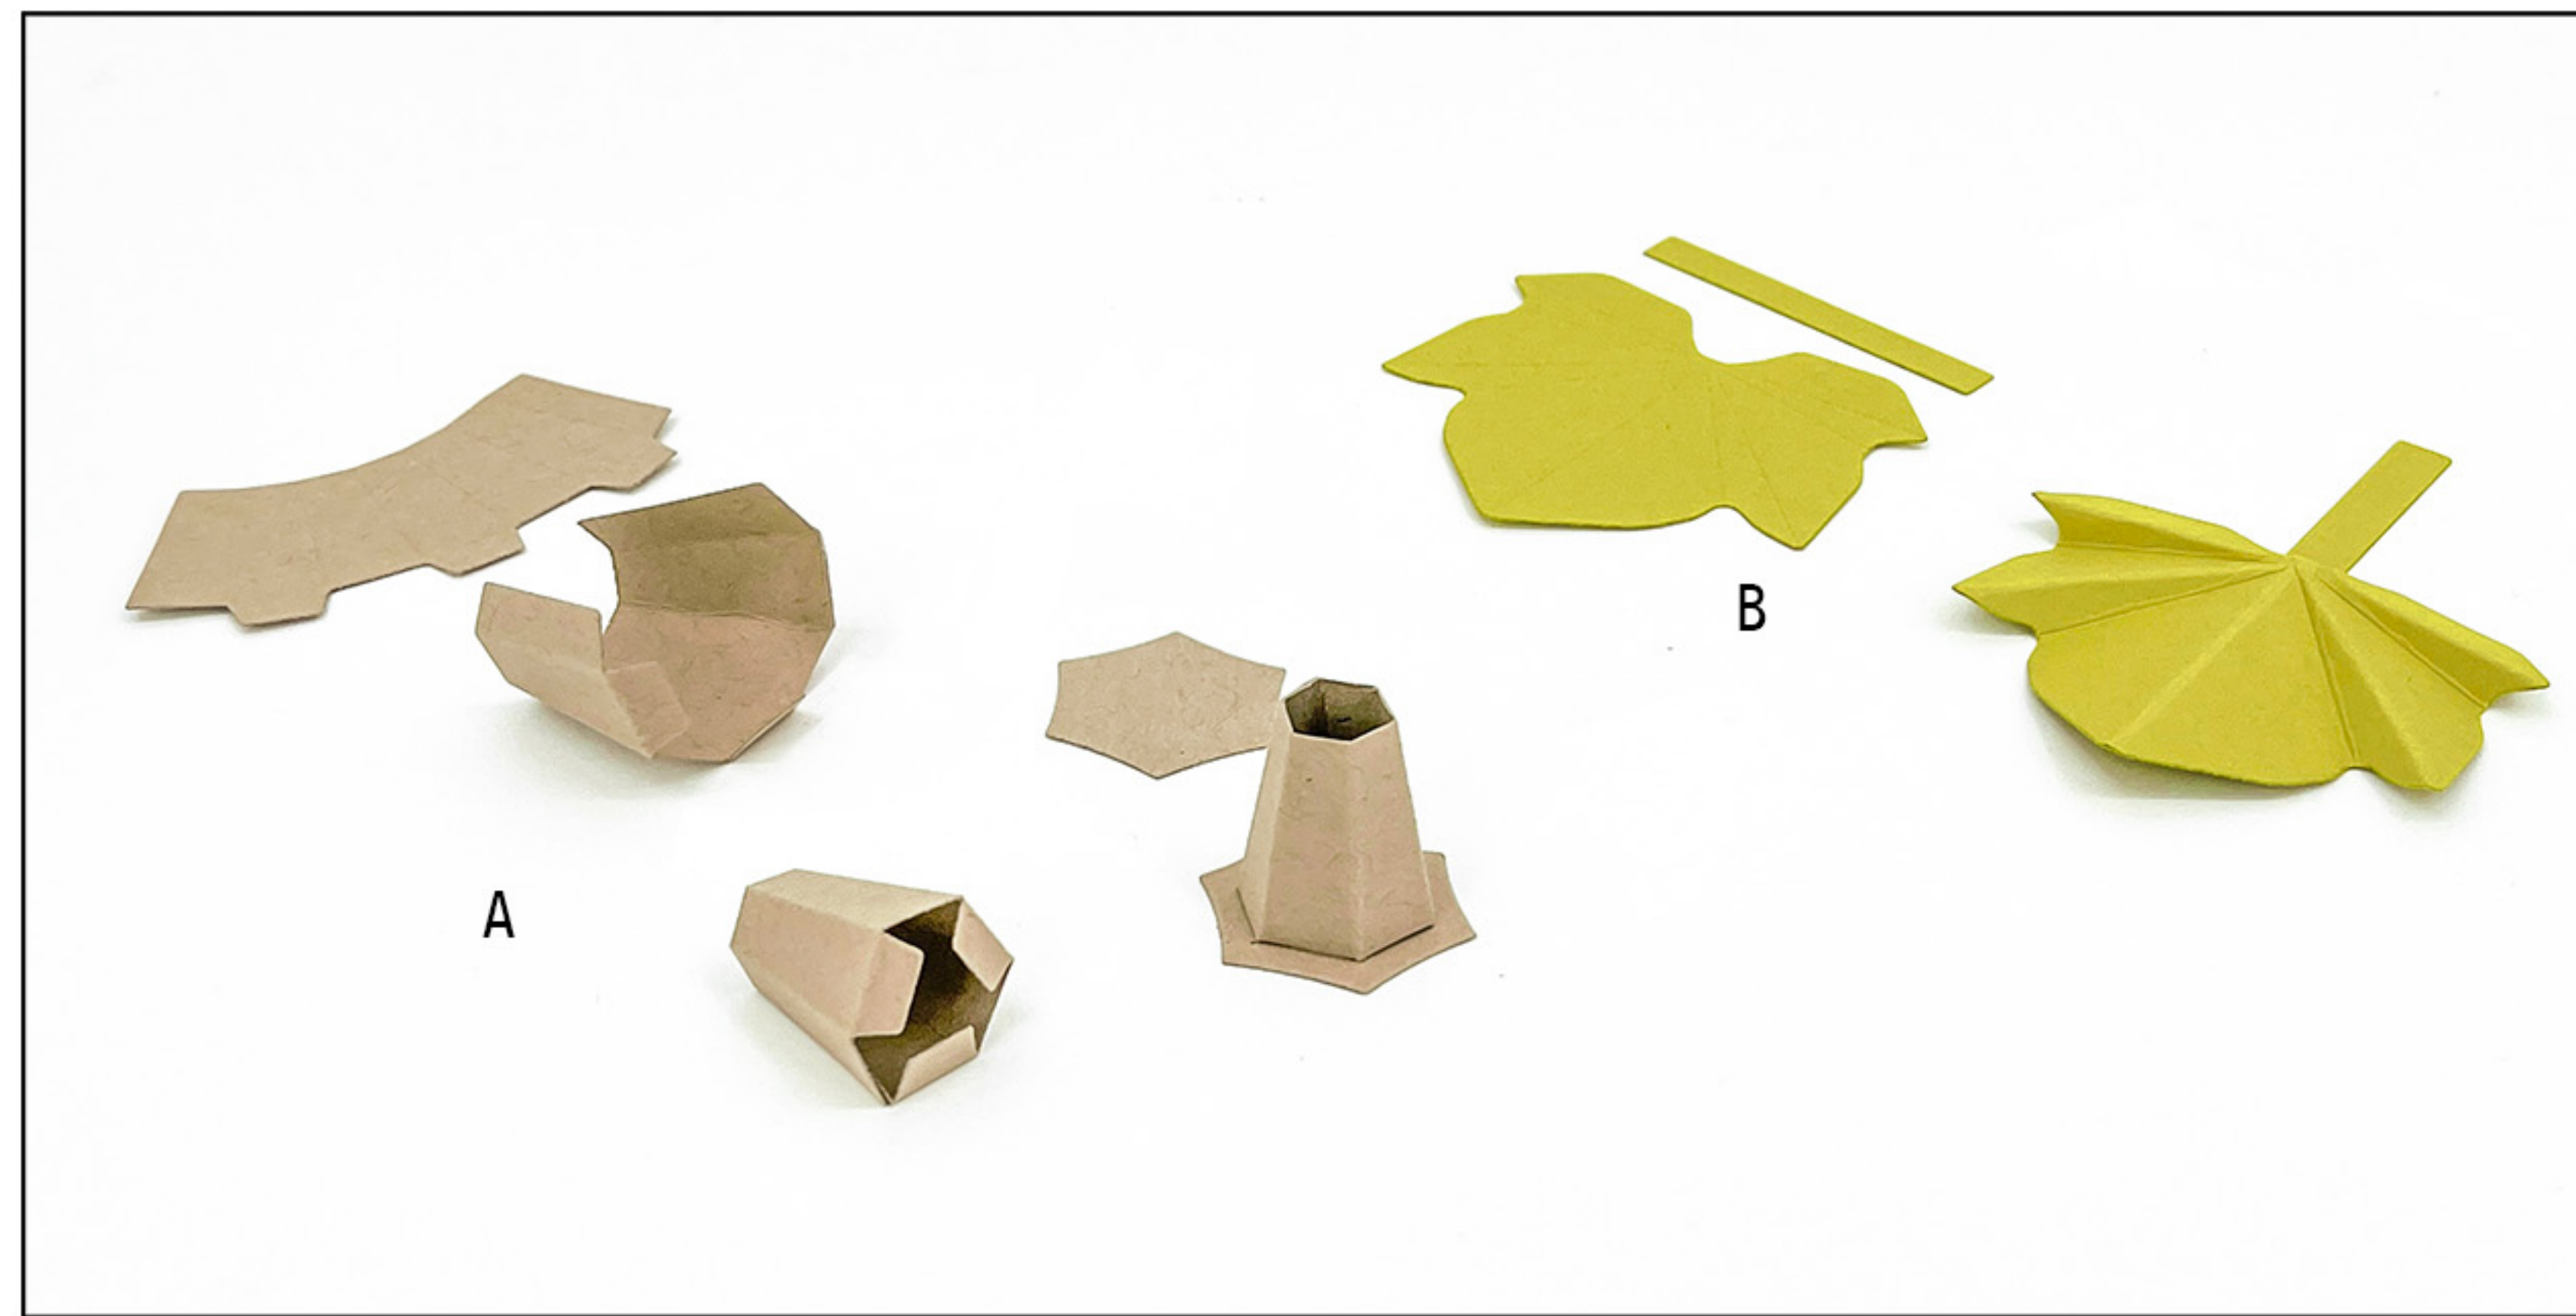

1. Die cut six pumpkin segments from Spiced Cider, one stem from Wheat, one stem base from Wheat, one leaf from Lemongrass and one vine from Avocado.

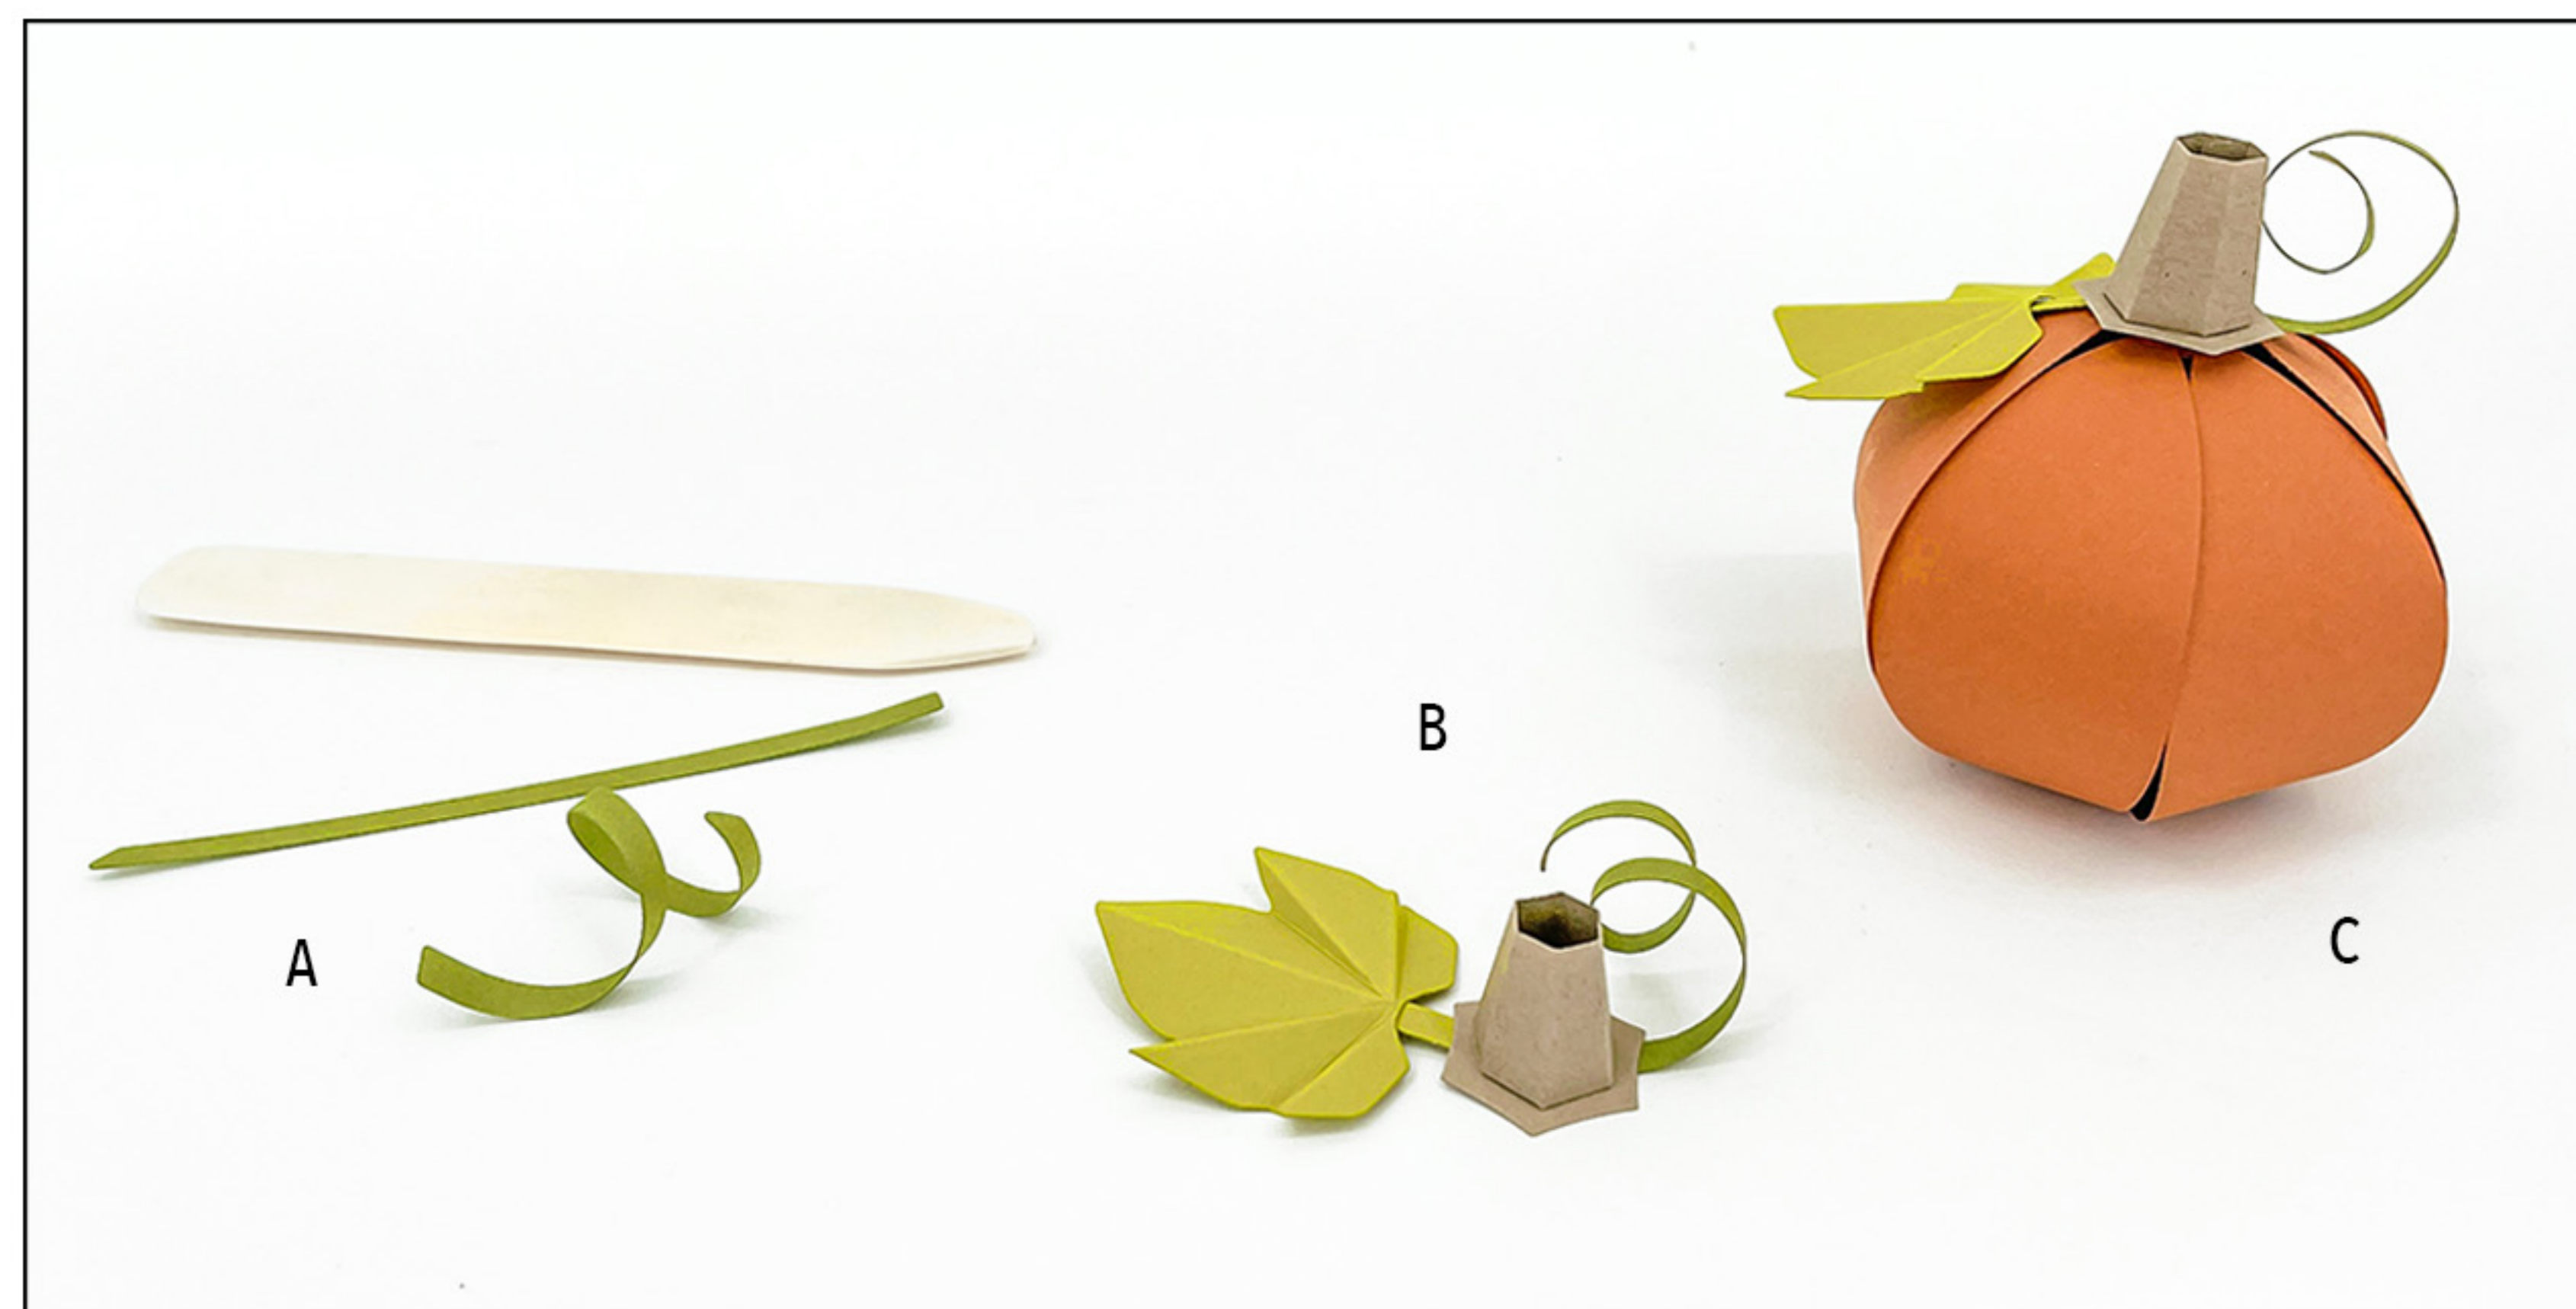

2. Using a bone folder, slightly curl each pumpkin segment. Apply glue to the large hexagon on each segment and layer on top of each other to form the bottom of the pumpkin.

3. Repeat the same steps using the small hexagon to form the top of the pumpkin.

- 4a. Fold the stem on all the score lines. Roll up and adhere together to form the stem. Using the tabs, adhere stem to the stem base.
- 4b. Accordion fold the leaf on the score lines, adhere leaf stem to the leaf.

- 5a. Using a bone folder, curl the Avocado strip as shown for the vine.
- 5b. Adhere the leaf and vine under the stem base.
- 5c. Adhere completed stem to the top of the pumpkin.
