

Dynamic-4

[DT-DYN-4]

On wall projector screen with 4-way motorised masking

SCREENS

DYNAMIC-4 [DT-DYN-4]

On wall projector screen with 4-way motorised masking

The DT Dynamic-4 is an on wall projector screen featuring 4-way motorised masking, Mask Position Logic based control and Whispertec motor technology.

PRODUCT HIGHLIGHTS:

- Motorised Variable Masking – 1.33 to 2.40:1
- Mask Position Logic – Preset free mask position selection
- RS232 and IP control as standard
- Front image surface fitting – fit the frame to the wall then install the image surface
- Whispertec quiet motors

Dynamic-4

[DT-DYN-4]

On wall projector screen with 4-way motorised masking

The **Dynamic-4** supports **4-way motorised masking** allowing perfect framing of all aspect ratios in the range 1.33 to 2.40:1. This variable width and variable height masking maximises the impact of all types of content.

The **Mask Position Logic (MPL) system** is a proprietary development of DT Screens and enables the Dynamic-4 to calculate the exact location that the masks should be positioned to create any requested aspect ratio in the supported range. With MPL, setting mask presets is no longer required.

The **proprietary Whispertec motor system** runs at just 30dB which makes the Dynamic-4 the quietest masking screen in operation.

TECHNICAL SPECIFICATION:

- Overall size=

Width = Viewable Screen width + 400mm [15.75"]

Height = Viewable Screen height + 400mm [15.75"]

Max frame depth = 195mm [7.68"]

Wall Surface to image Surface = 51mm [1.99"]

- Available with our full range of Image Surfaces
