ClosetPURE DEODORIZER & FRESHENER

Congratulations on your purchase of the O3PURE® portable **ClosetPURE**. Functional both at home and while traveling, the **ClosetPURE** utilizes ionic technology to generate both anions and ozone (O₃). Your compact ClosetPURE Ozonizer is great for deodorizing and purifying storage containers, boxes, cabinets, small refrigerators, wardrobes and of course closets.

To view more O3PURE products visit www.o3pure.com.

Features:

- Neutralizes stale, musty and foul odors in refrigerators, bathrooms, cars and closets.
- Extends shelf life of produce in refrigerators by combating mold, bacteria and neutralizing ethylene gas.
- Built-in micro CPU intelligently controls the operation cycle.
- Performs up to 90 days on 3 AAA batteries.
- No costly filters to replace.

| | |
|-----------------------|--|
| Model Number: | O3P-TW3 |
| Rated Voltage: | DC 4.5V 3 AAA batteries (Not included) |
| Power: | 0.5 watts |
| Ozone density: | ~ 4.0ppm range <250L |
| Product WT: | 0.16KG |
| Anion Output: | 3 million/cm ³ |
| Warranty: | 1 year Limited Manufacturer Warranty |

Operating Instructions:

1. Remove the battery cover on the back of the unit. Install 3 AAA 1.5V high-quality alkaline or rechargeable batteries (sold separately) according to the proper polarity and close the battery cover.
2. Press the POWER button once. You may hear a light hissing sound and the blue LED power indicator will light up. The ClosetPURE will work continuously for the first 30 minutes. Then the unit will cycle to standby mode and run for 1.5 minutes every one hour. While in standby mode, the LED indicator will flash every 2.5 seconds.
3. When red LED power indicator illuminates this means batteries are low.
4. Press the POWER button again to turn off the unit.

Caution

1. Avoid breathing ozone directly through the top of the unit's vent.
2. Do not attempt to open or repair this unit.
3. Remove the batteries if the unit is not in use. The batteries may corrode when the power is not turned on for an extended period of time.
4. Do not operate the unit in areas where flammable or combustible products or vapors may be present.
5. Keep the unit away from water.
6. Do not drop or hit unit to avoid any interior damage.
