

ONE LEAF WHOLE WORLD

Focus on biodegradable plant fiber products for more than **20+** years

About Us

We are MEMEDA, and we manufacture and produce eco-friendly to-go products for your everyday needs. We offer customization options for your products ranging from simply adding your logo to creating unique, specialized products tailored to your needs. It's time for all of us to switch to products made from materials with the Earth in mind.

Polypropylene (the main ingredient in plastic products) is generally considered safe for use, but you should still be wary of using plastics more often than you have to. The chemicals found in plastic products are proven to contribute to some cancers. While it's nearly impossible to avoid all plastic products, you can use as little plastic as possible. By using MEMEDA's products, you can make a small but significant change in the amount of plastic you come in contact with on a daily basis while also positively impacting the environment.

Applications

Food packaging

Fast-food chain: Hinged containers, containers with lids ect/Bakery & café: Plates, bowls, trays, ect.
Supermarkets & stores: Fruit vegetable trays, meat trays, egg trays, etc.

Industrial Packaging

Electronic devices inner packaging, glass /ceramic products packaging, gift box packaging, toy packaging, cosmetics inner packaging, etc.

Bamboo fiber paper towel

Pocket Tissue/Soft-Drawn/Toilet Tissue/Tissue Roll/Towel Tissue

Series of knife, fork and spoon

CPLA/PSM

Why choose us

● Abundant Raw Materials

Cooperating with a sugarcane and bamboo farm which covers about 100000 square meters and a pulping factory owned by MEMEDA, we can ensure ample supply of pulp.

● Biodegradable and compostable within 90 days

● Excellent for Any Menu

-25°C < Applicable range of temperature < 200°C

Focus On Disposable Eco-friendly Packaging!

We are MEMEDA

Factory Environment

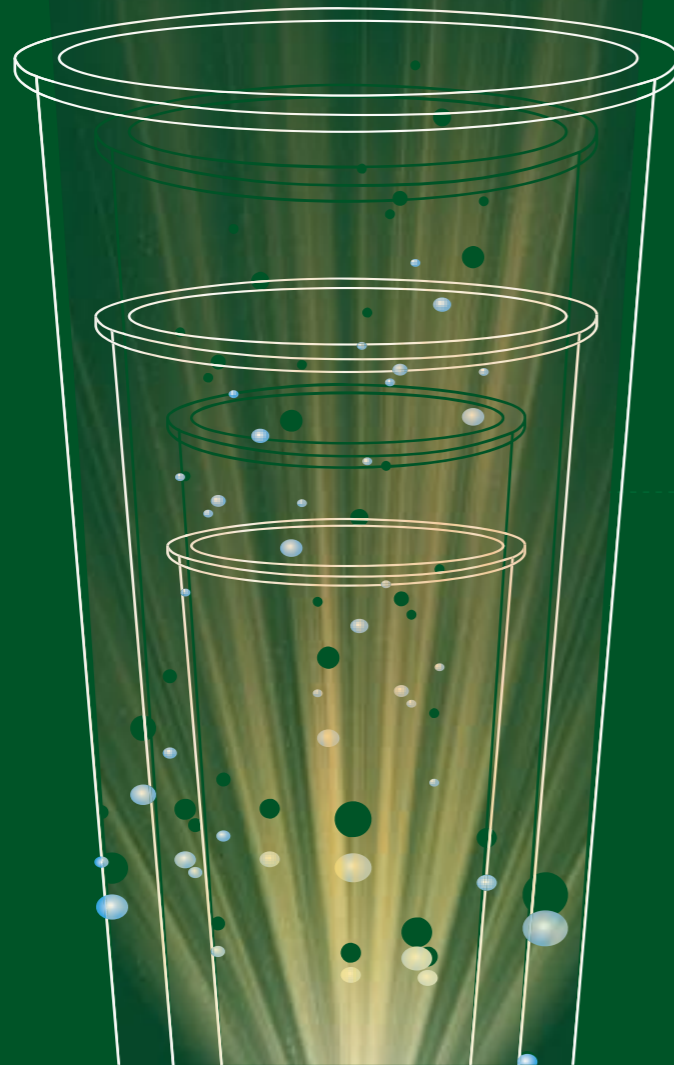

About Us & Mission

We are MEMEDA, a manufacturer specializing in eco-friendly to-go products for your everyday needs. Our range of products can be customized to meet your specific requirements, whether it's simply adding your logo or creating unique and specialized items. It's time for everyone to make the switch to environmentally conscious materials.

Although polypropylene, the main ingredient in plastic products, is generally considered safe for use, it is advisable to minimize your use of plastics whenever possible. The chemicals present in plastic products have been proven to contribute to certain types of cancers. While it may not be feasible to completely eliminate the use of plastic, you can make a difference by reducing your plastic consumption.

By choosing MEMEDA's products, you can actively reduce your daily exposure to plastic while also making a positive impact on the environment. Every small change counts, and together, we can make a significant difference.

Company Advantages

Specialized in global markets of paper food packaging products ; familiar with food safety regulations for different markets; can provide the most suitable products at the shortest time.

Manufacture

2,000,000,000

2,000,000,000 pcs annual capacity; two workshops with 20,000 M² , one for paper cups, the other one for paper boxes, paper bowls etc; with more than 100 middle & high speed machines.

12 NEW PRODUCTS

With more than 12 new products every year, Five-people R & D team, can help customers win more markets with new products;

7 DAYS

7 days sampling. Free samples & 7 days sampling time with customized logo;

SERVICE

Excellent 24 hours after-sales service

Process Flow

A Raw Material

Cooperated with powerful raw paper supplier, like Sun paper, Stora Enso

B Offset Printing

Usually proceed with cold drink cups, bowls etc

C Flexo Printing

Most advanced printing machine, ensure the best output

D Die Cutting

E Cup Forming

F Inferior Detector

Select the poor rolling and other detective goods automatically

G Leakage Test

Choose samples randomly to test when mass production start, and choose samples randomly every half hour for testing by using hot coffee & effusion liquid

H Packing

Auto packing machines

I Loading And Shipping

Deep cooperation with ship company, like COSCO, can get space with better price

01 | Flustix certified water-based products

Explosion

INTRODUCTION

we use a water - based barrier coating solution, dispersion the biodegradable additive (Metallic salt of ethylene - methacrylic acid) into water and permeate into paper, then all additive in liquid will be absorbed by the raw paper; No PE/PLA/PBS lining. These cups can be disposed of in any paper waste bin domestically, commercially or public recycling bins.

New products

02 | Ice cream cups

 Long term storage in freezer

 Hidden spoon in lid

 24 0-24month

 Water based technology

 Ideal packaging for ice cream manufacturer

Round cup

lids

Rectangular bowl

PRODUCT SIZE

Product Name	SIZE	Top Dia.(mm)	Bottom Dia.(mm)	Height(mm)	Packaging
Round cup	500ml	115	91	78	50*20
