GOING GREEN WITH MEMEDA!

The environment is facing a multitude of problems. Each one of us can make a difference, and from climate change to pollution, it's crucial that we choose more eco-friendly options for the products we use daily. The benefits of using biodegradable products for our environment and our health outweigh the impact of traditional single-use products.

It's our collective responsibility to work towards building a sustainable future and choosing eco-friendly, biodegradable products is one of the easiest and most impactful ways we can do so. With MEMEDA offering sustainable and affordable choices, you can be a part of this journey toward a better, more sustainable future.

PRODUCTION FACILITY

Our production facility is in China, with over 400,000 square feet. The daily capacity is 90-100 tons of product.

We have established long-term and stable collaboration of industry, academia, and research with many colleges and universities to anchor the development trend of the industry, accelerating enterprise digitalization.
