All together better

COLOUR-MATCHED SOLUTIONS

ACROSS THE ENTIRE BUILDING ENVELOPE

Meet the growing demand for coloured profiles with Eurocell – offering you a spectrum of possibilities

Coloured profiles represent a fast growing market as more and more homeowners seek something a little different. For them, basic white just isn't right. They also demand a wider range of colour and finish options than ever before. Here at Eurocell, we can help you meet this increasing demand – and keep every customer delighted.

Or you can choose from our Made To Order range. Now the possibilities really begin to open up, with 32 superb options.

There's everything from the beautiful natural appearance of woodgrain finishes to cool greys, greens and blues. For made to order lead times contact our customer service team.

What's more, we guarantee colour matching across all of our PVC-U products. So when it just has to be perfect – you can rely on Eurocell.

MODUS WINDOWS & DOORS

COLOURS AVAILABLE FROM STOCK

Why is Modus so very different? Because of the cutting-edge design that sets it apart from decades-old chamfered and ovolo profile systems. It's the UK's first 75mm six/seven-chamber profile, delivering optimum energy efficiency with 28mm and 44mm bead options for a wider choice of double and triple glazing specifications. The fully integrated system also means you can make eight different window and door types from a single system – helping you achieve big savings in terms of stockholding and production.

LOGIK WINDOWS & DOORS

COLOURS AVAILABLE FROM STOCK

No wonder the Logik system is top of the list for more and more fabricators, with a 70mm front-to-back dimension that allows easy replacement of old timber frames for window and door projects, plus energy-efficiency performance and classic looks. Add to this sculpted ovolo beads in a range of colours and you're looking at a profile that really stands out.

ASPECT BI-FOLD DOORS

COLOURS AVAILABLE FROM STOCK

The Aspect bi-fold door system allows you to make great looking concertina doors that seamlessly connect outdoor and indoor spaces in all kinds of buildings.

Just the job for new-build projects and refurbishment projects, these designer folding doors are always high on the list for developers looking to create attractive, modern openings. They're versatile enough to create a glass wall up to six metres wide, with anything from two to six panel doors and smooth, simple opening thanks to a bottom and top rail hardware mechanism.

SYNCRO PATIO DOORS

COLOURS AVAILABLE FROM STOCK

The Syncro inline sliding patio door offers a market-leading maximum width of 3.5m (2 pane); additional panes increases the width possibilities even greater.

With triple glazing capability, grey substrate and soft close options, Syncro's performance is undoubtedly way ahead of other PVC-U patio doors on the market.

What's more, with more recycled content (at least 40%) than any of our previous patio doors, it's also one of the most environmentally friendly.

You can rest assured that every aspect of a Syncro door is manufactured and presented to the highest quality, meeting the very latest strength, security and weather performance standards (PAS24, BS6375.)

SKYPOD LANTERN ROOFS

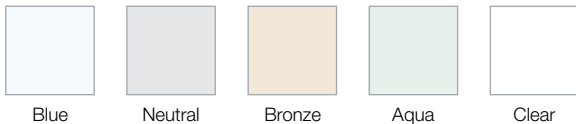

COLOURS AVAILABLE

Skypod lantern roofs provide an innovative alternative to aluminium skylights or conservatory roof systems that are a beautifully cost-effective way to add height and space to a room.

They're versatile enough for most situations, with a range of sizes, colours and finishes and don't just provide stylishly contemporary looks, but excellent energy efficiency, too.

The Skypod range of pitched lantern roofs for flat roofs extends from compact designs to those offering larger glass areas and clean sight lines, and they're designed to be fast and easy to install.

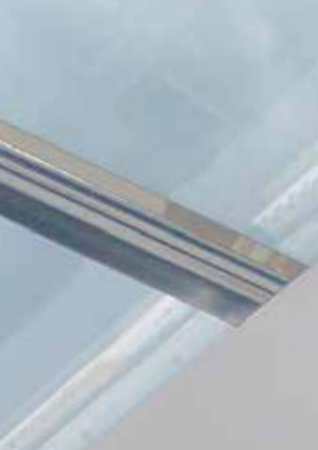

GLASS COLOURS

Kits available on a 5-day lead time

Skypod Plus is a brand new addition to the successful Skypod range. Building on the existing purpose designed thermally broken aluminium ridge and ring beam, Skypod Plus now offers aluminium rafter top caps powder coated in smooth grey and white, to sit alongside the existing black. This means the whole of the external face offers stunning architectural aesthetics. All internal bars are capped in the conventional way with PVC-U and are available in white, grey or black finish.

CONSERVATORIES

COLOURS AVAILABLE

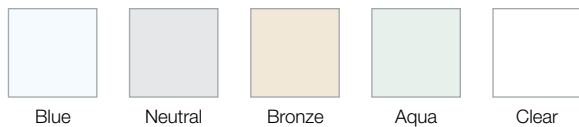

More and more customers are specifying high quality conservatories to connect living and outdoor space and create an extra room that's more cost-effective than an extension. But fewer and fewer installers want the hassle of sourcing components from separate suppliers.

That's why the Eurocell complete conservatory service provides fully compatible conservatory profiles, roof systems and high-performance doors and windows to allow you to provide a better service all round.

ROOFLINE

COLOURS AVAILABLE IN-BRANCH

When it comes to getting roofline right, you can't cut corners. Fit Eurocell fascias, soffits and cladding, for installations that shrug off the effects of the weather and stay looking great – guaranteed for up to 20 years.

What's more, they'll do this whilst reducing the time you spend on the job as they're strong enough to be fitted directly onto roof rafters with no painting required. Plus, all our boards are available in all popular widths and a wide range of colours to suit any replacement or new build project.
