

Polypropylene Industrial Filter Housings offer excellent chemical resistance for corrosive environments ideal for industrial and chemical applications and bulk particulate removal.

Features Include:

- Full PPH Construction (Polypropylene Homopolymer)
- Lightweight, Durable, and UV Resistant
- Trade Size #1, #2 and #4 Housings
- Flanged Inlet and Outlet Connections
- Maximum Flow Rates:
#1 Housing: 75 GPM
#2 Housing: 125 GPM
#4 Housing: 40 GPM
- Viton® O-rings Standard
- 87 psi Working Pressure
- 176°F Maximum Temperature

PRM PART #:

- #1 SIZE HOUSING: BFHHTF1APF200X**
- #2 SIZE HOUSING: BFHHTF2APF200X**
- #3 SIZE HOUSING: BFHHTF4APF150X**
