

## Ozone Injection Trailer with Advanced Oxidation Process Manifold

### Features:

- 7'x 16' Trailer with single side door and double access rear doors
- Climate Control LG Air Conditioner

### Ozone System

- SpartOX Ozone Generator
  - ◇ SPARTOX ozone generator converts oxygen to ozone.
  - ◇ Depending on the conditions, ozone concentrations of 1% to 10% by weight can be made.
  - ◇ The SPARTOX system has two 70 g/h PTI Gen2 ozone generators. Either generator can be run separately or both units can be run at the same time.

### Air Sparge System

- ELGI Air Compressor
  - ◇ Air Compressor rated for 125psi
  - ◇ Inline 80 gallon 200psi air tank with pressure regulator
- Inline SMC Air Dryer
- Inline Micron filters and a coalescing filter
- ProMinent GammaX Chemical Feed Pump
  - ◇ Chemical Feed Pump has dosing rate of 1.5gph
- Sparge and Ozone Manifolds with solenoid valves, rotameters and pressure gauges

### System Controls

- NEMA 4 Industrial Control Panel, UL listed, 3rd Party Certification
- HOA switches and lights integrated on HMI 7" color touchscreen
