Sensaphone 400 & 800 Series

Features and Specifications

Inputs

Accept four different inputs – either temperature or a contact type sensor.

2.8K — Series —

Power

Comes with a plug in power supply that also monitors for power failures.

Phone Line

Call up to four different phone numbers when an alarm has been detected. **Output**

Use in conjunction with the dual setback thermostat to control the temperature between two set points. Or control a light, siren or other device.

Keypad

Makes programming simple and easy. LED lights give a quick visual status.

Battery Backup

Rest easy knowing that even if the power goes out, the 400 will keep monitoring.

The Sensaphone 800 has the same features as the model 400, but adds an additional four inputs and additional four phone numbers.

is an alarm.
