Head to Head

Luzchem above the rest

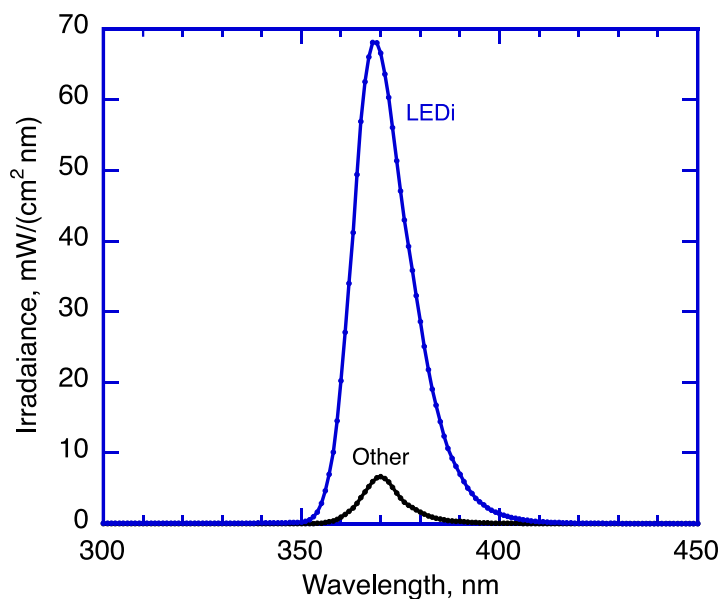

Comparing Luzchem's LEDi-HUV7 to a leading lab-grade UV Lamp

Luzchem's LEDi heads offer the perfect solution for your lab illumination needs! Achieve unmatched peak irradiance, delivering over **14 times more intensity** than other leading UVA LED lamps, with the light concentrated precisely on your sample (both lamps measured at 38 mm). Made in Canada, Luzchem's products are designed and manufactured with quality in mind.

Choose from our wide range of LEDi heads and see the difference for yourself.

LEDi-HUV7 offers up to **12,500 W/m²**

Get your hands on the LEDi today!

Luzchem's LEDi illuminator offers continuous power adjustment with a readout for precise repeatability, 4 "banks" of LEDs that can modify wavelength or beam profile (depending on the setup), thermal overload protection, and leading-edge LEDs. LEDi's also include an integrated magnetic mixer! The LEDi is easily integrated into both horizontal and vertical arrangements with leading optical bench setups.

Deliver the light where you need it!

Luzchem offers more than 14 times the irradiance!
