## About us

As the world's leading manufacturer of Pre-Rolled Paper Cones®, we provide a one-stop-shop experience to medical dispensaries and the recreational smoking industry.

Since 1994 we have developed some of the most efficient and innovative ways to help you get your beautiful product in the hands of your happy customers.

From seed-counting machinery, to pre-rolled Cones® filling machines, to customized (blister) packaging. We are here to support you in your success and to keep you ahead of the competition.

Please contact our sales team for more information or to place your order.

Display contains 32 packs x 6 pcs.

# The Original Cones®

No Mountain is too High when you're on a mission. That was exactly what we were when we developed the first Cones® in the world and the equipment to fill them. Back in 1994, the time when Pulp Fiction was the movie on everybody's lips... as would be our Cones® at some point :)

Cones® come in different sizes and papers, from Giga to Small Cones® and from Original to Bio Organic Hemp paper. You can find yourself a pre-rolled paper Cones® "For Every Smoking Moment"

The Giga Cones® are the largest Cones® we have. They are a whopping 28 cm long, 20 cm of which you can fill up with your finest herbs. A real crowd-stopper :)

The Super Sized Cones® are our second largest Cones®. Measuring 18 cm long, 12 cm of which you can fill up with your finest herbs. Giving another meaning to the words: "Want to Super Size that? Yes, please!"

What's life without a Party? Exactly! That's why we developed the Party Cones®. Just fill it and share amongst your friends. Measuring 14 cm long, this one gets the Party started.

Then the King Size Cones®. The Original of all Originals. Introducing this one it became the world-wide standard for pre-rolled Cones®.

The 1 1/4 Cones®, with a length of 83mm, gives enough fill for the ones that likes to take but do not need all the smoke. Just enough to loose that edge.

Lastly the Small "Sample" Cones®. For when you're out and about walking the dog or just want to have a quick little smoke. Measuring just 70mm of the thinnest paper.

These are just some of our most popular sizes.

# The Bio Organic Hemp Cones®

Beside our Original and Natural paper Cones®, we also developed a line of Bio Organic Hemp paper Cones®.

Made from the hemp fibers of 100%, certified, Bio Organic Hemp plants, this paper will strike a chord with conscious consumers around the world.

There are 10 different Bio Organic Hemp Cones® sizes available in our Bulk Boxes, all can be used in the Filling Equipment.

The Retail-Ready collection comes in King Size, Small 1 1/4 and Party Cones® versions.

## CERTIFICATE

- 100% BIO ORGANIC HEMP CONES® PAPER -

CERTIFICATE ON THE USE OF SPECIFIC TYPE OF BIOLOGICAL HEMP FIBRES FOR THE PRODUCTION OF CIGARETTE PAPER CONES.

The hemp fibers used in the production of the following cigarette paper Cones: BOH-16

are manufactured from hemp plants grown under biological conditions as attested by Bureau Veritas Certification No. Ab - 4429/40193. No artificial fertilizers, pesticides or herbicides have been used when growing the raw material.

We also certify that the paper is gluten-free.

And so we sign this document in Rotterdam, on September 15, 2020

# CTIP™

**FILTERS THE BAD,  
NOT THE GOOD!**

### Description

Our CTIP™, made of food grade aluminum, has a conical shape and is filled with activated carbon. They are perfect for Roll Your Own, The Weezy or available as a pre-rolled Cones®. The current CTIP's are filled with carbon flakes of coconutpeal (these are currently used in the bulk Cones® until we are out of supply), these will be replaced by CTIP's filled with nanobeads of black minerals. In the CTIP's for consumers the black minerals are already in use.

More and more smokers want the best taste experience with as few harmful substances as possible. The patented CTIP™ makes this possible. The activated carbon in the filter adheres to the harmful substances in the smoke and thus ensures that these do not end up in your mouth and lungs.

**Product code: 125-0051**

CTIP™ dispenser contains 500 pcs.  
8 dispensers per mastercase

### Benefits

Single wrapped CTIP™  
Hygienic  
Ideal for sampling

- **CONE-SHAPED**
- **LESS TAR AND TOXINS**
- **OPTIMIZED AIRFLOW**
- **SMOOTHENS THE TASTE**
- **REDUCES SHARPNESS**
- **IMPROVES THE FLAVOUR**

**100% RECYCLABLE**  
**NO LOSS OF THC, TERPENES OR CBD**

**Custom Made  
Seed blister packaging**

## Seed packaging Custom Made

Nearly all of our seed packaging is specially made. We specialize in the design and production of custom-made seed packaging. These vary from striking, full-colour prints to unique shapes or unusual sizes. We are eager to brainstorm with you about a distinct packaging design.

With the right seed packaging, you will bring your business to a higher level. Good packaging draws the attention of the consumer (more sales) and protects the product from damage (less loss costs). With our seed packaging, you will be knocking it out of the park. Each and every time. Guaranteed

**MOUNTAIN High®**

## Pre-filled Cones® packaging Custom Made

### Trendy joint packaging

You can package pre-rolled, filled Cones® with a flick of the wrist with our smart DIY packaging. Very useful and trendy joint packaging to businesses like shops and dispensaries.

### Do it yourself

For everyone that produces filled Cones® themselves, we offer two kinds of blister packs: "A La Carte 6" and "Power Pack 3". The packages guarantee maximum protection and stunning presentation for the filled Cones®. The blister packs are delivered flat, including individual blisters, and feature a practical cold seal. For sealing the blister packs, we also provide professional sealing machines in various dimensions (one-time purchase). The packs are characterised by their easy, fast handling. Just do it yourself.

### Custom made joint packaging

The A La Carte 6 is a single-six package. You can package a strip of six filled cones at once. The filled cones can be sold per piece. In the Power Pack 3 you can package three filled Cones®. We specialize in the design and production of custom-made joint packaging. These vary from striking, full-colour prints to unique shapes or unusual sizes. The proof is in the pudding: better looking packages yield better sales.

### Pre-filled joint boxes

In addition to blister packs, we sell pre-rolled joint boxes. The boxes are perfect to give to clients along with the filled Cones®. We are able to fully customize the packaging according to your needs for this as well. From the initial sketches to a complete, new packaging design, we would be happy to advise you about your many options.
