

# A Systematic Way To Clean

Consistent Results That Exceed Expectations

1-833-554-3628 • [IntelligentDesignMFG.com](http://IntelligentDesignMFG.com) • [info@IntelligentDesignMFG.com](mailto:info@IntelligentDesignMFG.com)

## X-Scrub® Micro-Scrubbers

Adjustable water flow and brush speed.

Parking brake and stability wheels holds the X-Scrub® Pro upright for other hands-free activities.

Retractable hose allows the user to empty dirty water directly into a toilet or drain.

Steel frame and dual squeegee blades leave the floor dry and safe. No more wet floor signs!

Magnetic hub allows for a quick and easy change to brushes or pads.

Individual floating brush platforms automatically adjust to uneven surfaces.

## Walk-Behind & Ride-On Scrubbers

### X-Scrub® 20" Walk-Behind

Walk-behind scrubbers have the ability to use both brush and pads and have two versions. A Pad Assist version or a self-propelled, traction drive scrubber.

ALL X-Scrub® floor scrubbers are battery operated.

### X-Scrub® Ride-Ons

There are 5 different ride-on scrubbers

- » 20" Ride-On - 15 gal. solution tank
- » 28" Ride-On *lite* - 26 gal. solution tank
- » 28" Ride-On - 32 gal. solution tank
- » 32" Ride-On - 34 gal. solution tank
- » 36" Ride-On - 64 gal. solution tank

## X-Scrub® Industrial Scrubbers

### X-Scrub® 40" Scrubber

Available in two versions. A cylindrical brush head or two 20" brush/pad disc heads. Both scrubbers have a 100 gal. solution tank and 36 volt batteries.

ALL X-Scrub® floor scrubbers are battery operated.

### X-Scrub® 40" Benefit Summary

- » Easy to use, intuitive controls
- » Built for limited maintenance
- » Clean virtually any hard surface
- » Helps cut down on worker fatigue
- » Two LED running lights
- » Powerful, traction drive motor efficiently cleans large spaces quickly

## X-Sweep® Industrial Sweepers

### X-Sweep™ 53" & 61" Sweepers

All electric system. No hydraulic components means no hydraulic leaks. Three individual motors for the brooms, vacuum and drive. Consistent operating efficiency and power.

ALL X-Sweep® machines are battery operated.

### X-Sweep™ Benefit Summary

- » Easy to use, intuitive controls
- » Built for limited maintenance
- » Manages dust during the cleaning
- » Easy to manage dump system
- » Two LED running lights
- » Powerful, traction drive motor efficiently cleans large spaces quickly

## X-Tract™ Vacuums

### HEPA Dual Upright Vacuum

Two motor design with a 3 position switch. Larger debris opening to prevent clogging. HEPA filter bag and HEPA exhaust filter.

### Wet Dry Vac With Squeegee

Adjustable front-mount squeegee system and dual 1,000W vacuum motors. Comes with a dry filter insert and 25 ft power cord.

### Powerful Commercial Wet Dry Vacuum

Durable stainless steel tank. Unit weight 63 lb. empty. Cloth vacuum filter controls dust and protects the motors. Includes 10-foot vacuum hose, two piece wand and durable vacuum head. Includes a 4-piece tool kit: dust brush, squeegee tool, scalloped bristle floor brush, and crevice tool.

## Compact Automatic Washer

Stainless steel drum, pump out, fill hose, programmable up to 24 hours, settings for: water level, wash cycles, rinse & spin cycles. Designed specifically for CPI microfiber products. Easy to use!

110 volt

64 lbs,

22" x 22" x 36" high.

# Microfiber 5D Clean™ Systems

## ROTO Molded Housekeeping Cart

- 1 - Roto-molded base with casters
- 2 - Locking bi-directional drawers
- 1 - 90 degree upper front shelf
- 1 - 45 degree lower front shelf
- 1 - 90 degree lower rear shelf
- 1 - Push handle, with vacuum and duster holder
- 1 - Heavy-duty storage bag with multiple zipper pockets

## Compact, Modular Microfiber Cart Systems

Complete system on a compact, lightweight cart that is easy to maneuver in tight spaces.

Divided and coated laundry bag can be used for soiled mops and cloths with additional side pockets  
Storage for 5 upright mop handles and hooks for wet floor signs.

Metal cart with fixed rear wheels and front casters

- 1 - 3.5 Gallon Bucket w/ Self Sealing Lid
- 1 - 3.5 Gallon Bucket w/ Self Sealing Lid
- 1 - 6 Gallon Bucket w/ Self Sealing Lid
- 1 - 6 Gallon Bucket w/ Self Sealing Lid
- 1 - Rear Soiled Laundry Bag

# 5D Clean™ Tools

## TRIO-Split™ 18" Microfiber Pocket Mop System

- Patented Pre-Treated System™ with mesh flat mops.
- Pocket mops last longer
- Pocket mops increase productivity
- Fringe material easily cleans corners
- Quad Cross-Loop Stitch™ guaranteed for 1000 washings

## TRIO-Split™ 11" Microfiber Pocket Trowel System

Microfiber pad trowel system with black light and built in scraper. OR, 360° Pocket microfiber trowel for cleaning hard-to-reach areas.

Patented Product

- Color coding with removable grips and pads
- Pocket system allows changing the microfiber pads without touching the soiled pad
- Flexible base allows for cleaning curved surfaces.
- Durable construction made of high quality engineered plastics

## Dual Compartment Bucket & Down Press Wringer

- Heavy Duty Construction, 2 year warranty
- Solid wall divider = no leaking or seepage between sections
- Works with flat TAB mops or TUBE/String mops
- Solid and durable manufactured material made to outlast the competitor comparable buckets
- Wide vinyl caster wheels and a ball bearing core means smooth, gliding maneuverability

## Looped-End, Microfiber Tube Mops

- 5" Scrubber headband removes marks on floor
- Tailbands keeps tubes in place for a wide cleaning path
- Tubular microfiber construction for picking up heavy soil loads

## TRIO-Split™ Finish Application System

- Store the 24" & 18" pocket frames on the rear of the bucket and use with handle to move bucket around
- Lid seals air tight to allow for less waste and continue projects for several days
- Removable flat press for easy access
- Heavy duty industrial design with a stable center of gravity for assured stability
- Raised inner ribs fits inside of a standard janitor cart front recessed area where a bucket and wringer usually sit.

## TRIO-Split™ Microfiber Dust Mops

- Patented Product (MopDoc®)
- Extends the life of your floor finish and improve safety
- Debris channel design holds more dust and dirt
- The patented MopDoc® cuts down on the amount of soil in your facilities floors by cleaning your dust mops more often. Compact and easy to use, just connect to your vacuum cleaner.

## Why Is Our Microfiber Better?

- Reduces water and chemical consumption up to 95%.
- Reduces bacteria up to 99.9%.
- Helps reduce cross contamination (color coding).
- Saves time and money while increasing productivity over 60%.
- Looks cleaner and more presentable.
- "Releases" dirt and debris. When submerged into a rinse cycle or washed, the soil and bacteria are easily released allowing for a cleaner and renewed surface.

### Quad Cross-Loop Stitching™

Durable, last longer through more wash cycles, user application and a better looking product lifetime.

**Mesh Backing** - A flow through mesh backing Pre-Treats mops and pads in seconds, which also allows dirt and soil to easily wash through both sides and reduce laundry cost & BTU's by up to 60%.

**Debris Channels** - These uniquely designed areas trap and hold more soil helping to improve productivity.

**No 'Ballooning'** - The TRIO-Split Technology™, keeps the fiber bundle intact throughout launderings, maintaining the Debris Channels and Trio-Split™ Technology's 99.9% bacteria removal.

## TRIO-Split™ Technology

## About 5D Clean™ Systems

### Accredited, Standardized Training Courses.

We train you and your staff to look at your facility within these five areas:

**1D Ceilings** – Vents and grates, pipes, and ducts 5D Clean™ tools are specifically designed to clean in areas not normally addressed. Ceiling tiles, fan blades, vents and lighting are just a few examples.

**2D Surfaces** - Walls, furniture, vertical surfaces and fixtures. When 5D Clean™ System approach is utilized, it allows for more time to clean areas otherwise left alone.

**3D Floors and Baseboards** – Horizontal surfaces depending on the surface area and the extent to which it needs to be cleaned, 5D Clean™ has a solution.

**4D The Air** - Unlike conventional cleaning tools, Trio-Split™ Microfiber and our HEPA filtration equipment traps and holds the dust and dirt while cleaning. This limits airborne particles from spreading potential bad viruses in facilities.

**5D People** - We train people. Whether it's for the cleaner themselves or the people they're cleaning for, thorough cleaning is a fundamental preventive measure that safeguards against a range of health risks, contributing to overall well-being.

## The Benefits of 5D Clean™ Systems

- Environmentally friendly tools that reduce chemical and water consumption.
- Color coded to help reduce cross contamination.
- Light-weight, ergonomic design reduces the potential for back, shoulder and elbow injuries, limiting workman's compensation claims.
- Improve indoor air quality and reduce dusting.
- Clean horizontal and vertical surfaces. Microfiber products are designed to be used on walls and ceilings.
- Modular systems are customizable to fit virtually any situation.
- 5D Clean™ Systems pick up soil and remove it from the facility instead of spreading it around (traditional soil redistribution system).
- Proven to improve productivity by over 60%
