Understanding Microfiber

About Microfiber

Microfiber is a synthetic fiber typically made up of polyamide and polyester. Microfiber is made through an extrusion process, which individually, is less than 1.0 denier in diameter (1/100 the size of a human hair). In the cleaning world, this fiber strand is then split to create multiple small microscopic 'hooks' that help hold liquid, soil and germs on the outside of the split-fibers. This split looks like an exploded star shape, when examined under a microscope. These split strands are bundled together to form a 'rope-like' split-fiber-bundle, which can be constructed into a cleaning product.

CPI's goes much further in their fiber-bundle, through a trade secret process referred to as Trio-Split™ Technology. CPI's process of splitting and bundling the fiber together creates our WAVE™ microfiber material, which has become the leader in microfiber cleaning since 2008 and removes 99.9% bacteria with no chemical or water.

Microfiber vs. Traditional (cotton)

The debate has been settled and microfiber is the winner, hands down. When compared to the traditional mop and bucket, microfiber is the clear choice. Microfiber cleans better, lasts longer and is more cost effective.

Cotton Absorbs, Microfiber Holds

Most importantly, cotton absorbs liquids INTO the fiber while microfiber holds liquid on the OUTSIDE of the fiber. The liquid & soils are held by the splits of the fiber. When laundering microfiber, the soil and bacterias are easily removed when the fiber is submerged in the rinse cycles, providing a clean regenerated WAVE™ microfiber.

All CPI WAVE™ microfiber is third party verified to remove 99.9% bacteria through GBAC Star Technology Certification. CPI is the creator of the i-fiber® and WAVE™ microfiber products.

Trio-Split™ Technology Up Close

Trio-Split™ fiber strand

Bundled strand

Microfiber loop

Close up of one small area

TRIO SPLIT Technology™
Removes Up To
99.9%
Germs & Bacteria

Why Is Our Microfiber Better?

Trio-Split™ Benefits

Reduces water and chemical consumption up to 95%.

Reduces bacteria up to 99.9%.

Helps reduce cross contamination (color coding).

Saves time and money while increasing productivity over 60%.

Looks cleaner and more presentable.

"Releases" dirt and debris. When submerged into a rinse cycle or washed, the soil and bacteria are easily released allowing for a cleaner and renewed surface.

Quad Cross-Loop Stitching™ Durable, last longer through more wash cycles, user application and a better looking product lifetime.

Mesh Backing - A flow through mesh backing Pre-Treats mops and pads in seconds, which also allows dirt and soil to easily wash through both sides and reduce laundry cost & BTU's by up to 60%.

Debris Channels - These uniquely designed areas trap and hold more soil helping to improve productivity.

No 'Ballooning' - The Trio-Split™ Technology keeps the fiber bundle intact throughout launderings, maintaining the Debris Channels and the fibers 99.9% bacteria removal.

What Is 5D Clean™

Accredited, Standardized Training Courses.

We train you and your staff to look at your facility within these 5 areas:

Ceilings – Vents and grates, pipes, and ducts 5D Clean™ tools are specifically designed to clean in areas not normally addressed. Ceiling tiles, fan blades, vents and lighting are just a few examples.

Surfaces - Walls, furniture, vertical surfaces and fixtures. When 5D Clean™ System approach is utilized, it allows for more time to clean areas otherwise left alone.

Floors and Baseboards – Horizontal surfaces depending on the surface area and the extent to which it needs to be cleaned, 5D Clean™ has a solution.

The Air - Unlike conventional cleaning tools, Trio-Split™ Microfiber and our HEPA filtration equipment traps and holds the dust and dirt while cleaning. This limits airborne particles from spreading potential bad viruses in facilities.

People - We train people. Whether it's for the cleaner themselves or the people they're cleaning for, thorough cleaning is a fundamental preventive measure that safeguards against a range of health risks, contributing to overall well-being. The above steps, when executed properly, help to eliminate germs, bacteria, and viruses that can cause diseases. Regular cleaning can also reduce the accumulation of allergens like dust mites and mold.

Training

Comprehensive Program – Years of planning has gone into the *5D Clean™ Training System*. Each of the five Training Modules go into specific details covering a broad range of topics.

Personal Attention – We are with you every step of the way. When you purchase Intelligent Design Manufacturing, LLC products you are opening the door to be a part of a comprehensive training program. We want to make sure you and your staff are getting the most out of our products and Systems. To make that happen we have developed the *5D Clean Training™ System*.

Follow Up – We want to make sure you're satisfied. A crucial part of the *5D Clean Training™ System* takes place long after the training is over.

We've come to learn the feedback months after training brings up great dialog. The Follow-up is in place to ensure that there is a high level of confidence in the use of Intelligent Design Manufacturing, LLC Products and Systems.

The ATP Testing Kit

Test the number of microorganisms detected in a contained area with proprietary testing swabs. Traditional methods were only once obtained by technicians in the laboratory. Now, with this simple to operate testing kit, your staff can perform these results on-site.

Part# ATPMTR

Sales & Marketing Support

Experienced Professions – Intelligent Design Manufacturing, LLC boasts a diversely experienced staff that's dedicated to your success. We've always felt that your questions, concerns and ongoing needs are always well served with personal attention. Intelligent Design Manufacturing, LLC customer service and qualified Sales Professionals always strive to exceed your expectations.

Product Literature – Available and at your disposal is an ongoing interactive product library consisting of:
- Product literature
- Sales support worksheets
- Cleaning guides and posters
- Every section of this and other catalogs available to download from our website

Video Library – Constantly adding video to help educate everyone on the benefits of our products and systems. These videos include the practical application and use of the products as well as additional information boasting benefits.

Demo PreTreat Bags
PART# CPIeBAG WET

Demo Duffel Bag
PART# CPIeBAG

The CPIeBAG Benefits
- Packed with a variety of over 50 CPI products
- Heavy duty construct. Stainless steel clasps and zippers, reinforced stitching and tons of storage
- 3 additional poly-zipper bags for quick access to products and to help stay organized.

5D™ PreTreated Systems

What is it?

The **Patented 5D PreTreated System™** is a well thought out array of tools that seamlessly work together to make cleaning tasks efficient and productive. Designed for consistent results and built in quality control for workers and supervisors.

The 5D PreTreated System™ Benefits

- ✦ Everything you need to clean is in a condensed and accessible system
- ✦ A simple process ensures efficient results
- ✦ Promotes a healthy work and living environment
- ✦ Simple and easy to use
- ✦ Lightweight and ergonomic design with less stress than traditional mops and bucket
- ✦ Unique design allows for easy access in congested areas
- ✦ It saves money
- ✦ It requires very little water and chemicals
- ✦ Washable and extremely durable

How Do I use It?

This process allows you to conserve water and chemical usage. Here are the steps to PreTreat microfiber mops using the 5D PreTreated Systems™.

Consistent results every time

The 5D Clean™ measuring bucket provides the worker with a simple and easy way to measure cleaning solution based on the type and amount of microfiber being PreTreated. It's as straightforward as following the visual chart on the inside of the bucket.
Leak-proof, snap tight sealing lid

Both the PTBUCKET and the PTMINI come with a unique sealing lid. These buckets are a key part of the 5D Clean™ System but are equally beneficial on their own.

Part of the 5D Clean™ System

The 5D Clean™ PreTreat bucket are a fundamental part of the 5D Clean™ System. They work in conjunction with our cart systems to hold, sort and dispose of you microfiber mops, pads and cloths.

Pre-Treating — Easy As ① ② ③

① Place desired quantity of microfiber items in Pre-Treat bucket.

② Fill measuring bucket with desired solution to corresponding line that matches quantity of items place in Pre-Treat bucket.

③ Pour solution over microfiber items in the Pre-Treat bucket.*

*Cloths and non-mesh backed microfiber products require the lid to be secured and the bucket to be flipped for 10-15 minutes for the microfiber to correctly charge with cleaning solution.

eDouble®

PART# eDOUBLE B/R/G/Y

Double sided microfiber cleaning cloth. One side 400g heavy duty split microfiber (light gray) opposite side fine, non-streak microfiber (lime green), designed to fit the CPI PTMINI buckets.

Colors:
Blue(B), Red(R), Green(G), Yellow(Y) trimmed edging.

Spec: 8" x 10" cloths with Double Stitched edging with polytape ribbing and Trio-Split™ Technology

Packaging:
48/polybag - 192/case

Exclusive Mesh Backing

Debris Channel Design

eWAVE® II

PART# eWAVE18P B/R/G/Y

Used for low to heavy soil levels and all applications CPI's Premium 18" pocket mop with mesh backing for quick cleaning solution saturation times. Solid color exclusive *CPI WAVE™* microfiber material. Designed for Pre-Treating in *5D Clean™ Systems.* Patented product.

Colors:
Blue(B), Red(R), Green(G), Yellow(Y)

Spec: 6" x 18" mops with Trio-Split™ Technology

Packaging: 12/vacuum packed polybag 48/case
ePOCKET

PART# ePOCKET

Fit CPI 18" pocket mops. 360 degree swivel, solid core frame construction. Frame collapses for complete touch free operation.

Spec: 16" x 5"

Packaging: 1/polybag - 12/case

eHANDLE

PART#
eHANDLE72
eHANDLE48

Heavy Duty aluminum telescopic handle. Removable grip. Fits ePOCKET, eTROWEL, TAB, HOOK, WALLWASH & MFLEX frames.
(Interchangeable handle sets designed for color coding)

Spec: Telescopic lengths
#eHANDLE72 = 39.5" to 72"
#eHANDLE48 = 26.5" to 48"

eWALL™

PART# eWALL

eWall™ frame boasts 360° swivel frame, with pocket mop functionality. Color coded hand grip, built in scraper.

Spec: 4" x 9"

Packaging: 1/polybag - 10/case

eHANDLEGRIPS

PART# eHANDLEGRIPS

Designed for eHANDLE. Soft construction for ergonomic operation, helps prevent handles from slipping against a wall. Used for color coding.

(1 of each color per set)

Colors:
Blue(B), Red(R), Green(G), Yellow(Y)

Packaging:
1/polybag - 1 set/polybag

eTROWEL®

PART#
eTROWELb (black light)
eTROWEL (no light)

The first trowel with pocket mop functionality. Color coded hand grip, built in scraper and black light function for detecting germs. Patented product.

Spec: 4" x 9"

Packaging: 1/polybag - 10/case

eSNOW, eSCRUB, eGLASS

PART# eSNOWB10, eSCRUBB10, eGLASSB10

Used for low to medium soil with these pads are specifically designed for the CPI eTROWEL® with quick release. Patented product.

eSCRUB = color tabs

Spec: 5" x 10" pad

Packaging: 12/vacuum packed polybag - 48/case

eTROWELPAD

PART# eTROWELPAD B/R/G/Y

Used for low to heavy soil levels. Specially designed for the CPI eTROWEL® with quick release. Features CPI's premium eWAVE™ mop mesh backing for quick cleaning solution saturation times. Exclusive CPI WAVE™ microfiber material. Designed for Pre-Treating in 5D Clean™ Systems. Patented product.

Colors:
Blue(B), Red(R), Green(G), Yellow(Y)

Spec: 5" x 10" pad with Trio-Split™ Technology and mesh backing

Packaging: 12/vacuum packed polybag - 48/case

eMINISMALL
PART# eMINISM

Hanging 6 gallon bucket and sealing lid. Fits on front of janitor cart

(Hangs from front of shelf)

Bucket Colors:
Buckets available in; Blue(B), Red(R), Lime Green(GN), Gray(GY)

eMINI
PART# eMINI

Heavy duty metal dolly construction. 2 - 6 gallon buckets and sealing lids (1-lime green, 1-gray). Fixed wheels. 5 handle holders. Wet floor sign holder (sides). Black w/ lime green rubber coated push handle and front stabilization pegs.

Bucket Colors:
Buckets available in; Blue(B), Red(R), Lime Green(GN), Gray(GY)

eMINIXL
PART# eMINIXL

2 tier, heavy duty metal dolly construction. 1 - 6 gallon bucket and sealing lid (lime green). 2 - 3.5 gallon buckets and sealing lids (1-lime green, 1-gray).
1 Bottle tray. Caster wheels in front — fixed wheels in back. Washable, heavy vinyl bag. 5 handle holders. Wet floor sign holder (sides). Black w/ lime green rubber coated push handle.

Bucket Colors:
Buckets available in; Blue(B), Red(R), Lime Green(GN), Gray(GY)

eMINIXXL
PART# eMINIXXL

2 tier, heavy duty metal dolly construction. 2 - 6 gallon buckets and sealing lids (1-lime green, 1-gray). 2 - 3.5 gallon buckets and sealing lids (1-lime green & 1-gray). Caster wheels in front — fixed wheels in back. Washable, heavy vinyl bag. 5 handle holders. Wet floor sign holder (sides). Black w/ lime green rubber coated push handle

Bucket Colors:
Buckets available in; Blue(B), Red(R), Lime Green(GN), Gray(GY)

PTBUCKET
PART# PTBUCKET B/R/GY/GN

6 gallon (20 Lit.) Bucket w/ sealing lid, graduation marks in gallons & liters, carrying handle, optional casters. Inside dimension: 20" x 8" x 10.5" H

Colors:
Blue(BL), Red(RD), Green(GN), Gray(GY)

Packaging: 10/case

PTMINI
PART# PTMINI B/GY/GN/R

3.5 gallon (13 Lit) bucket with sealing lid. Graduation marks in gallons & liters. Carrying handle.

Colors:
Blue(BL), Red(RD),

PreTreat BUCKET
PART# ANTA125 B/Y/G/R

1.5 gallon (6 Lit.) Bucket w/ carrying handle, graduation marks.

Colors:
Blue(B), Red(R), Green(G), Yellow(Y)

Packaging: 10/case

PTWHEELS
PART# PTWHEELS

2" caster wheels, fits #PTBUCKETS (set of 4).

Packaging: 25/case

What is it?

We've taken the guess work out of providing the proper tools for all your cleaning projects.

5D Clean™ Kits are specific microfiber cleaning tools paired together to clean distinct areas of your facility. All 5D Clean™ Kit include our eMINI® XL cart combined with eDouble® cloths, 9" microfiber pads and 18" eWave® microfiber mops. Kits provide far less chemical and water consumption, radically reducing cross contamination.

Each 5D Clean™ Kit differs in the color coded items of buckets, pockets mops and eDOUBLE® cloths.

Our 5D Clean™ Kit provide a productive, safe and ergonomic worker experience.
Select from our four most popular 5D Clean™ Kits below. Visit our website to see more details like what your 5D Clean™ Kit includes and informative training videos.

Microfiber POCKET Mops

ePOCKET

PART# POCKETFRAME

Fits CPI 18" pocket mops. 360 degree swivel, solid core frame construction. Frame collapses for complete touch free operation.

Spec: 16" x 5"

Packaging: 1/polybag - 12/case

WAVEPOCKET

PART#
WAVEPOCKETB18
WAVEPOCKETR18
WAVEPOCKETG18
WAVEPOCKETY18
WAVEPOCKETW18

Used for low to heavy soil levels and all applications. Premium 18" looped microfiber mop with CPI WAVE™ microfiber, pocket with a coated polyester backing.

Microfiber colors:
Blue (B), Green (G), Red (R), Yellow (Y), White (W)

Spec: 6" x 18" mops with Trio-Split™ Technology

**Packaging:** 12/polybag - 48/case

TRIOMOP

PART# TRIOMOP

Used for low to medium soil levels on rubber floors and polished stone. Three sided 18" microfiber mop with short nap cut pile microfiber, pocket backing. Designed for rubber floors and more resistant surfaces. GREAT for treadmills.

Spec: 12" x 18" opened. 6" x 18" folded.

Packaging: 1/polybag - 25/case

SNOWPOCKET

PART# SNOWPOCKETB18

Used for low soil levels on floors, table tops, walls and ceilings. Short nap cut pile 18" microfiber mop with pocket backing.

Spec: 6" x 18"

Packaging: 12 polybag - 48 per case

SCRUBPOCKET

PART# SCRUBPOCKET

Used for low to medium soil on steps, rubber floors and grimy surfaces. Microfiber scrubber mop with short loop microfiber and poly microfiber square block scrubber pads and pocket with a coated polyester backing. Featuring color coding selector tabs in blue, green, yellow and red. GREAT for soap scale.

Selector tabs: Blue(B), Red(R), Green(G), Yellow(Y)

Multi-color blue microfiber.

Spec: 6" x 18"

Packaging: 12/polybag - 48/case

TIGERPOCKET

PART # TIGERPOCKETB18

Used for low to medium soil levels and all applications. Economical combination microfiber mop with blue nap pile and outer CPI WAVE™ fringe. Pocket with a coated polyester backing.

Color: multi-color blue microfiber.

Spec: 6" x 18" mop with Trio-Split™ Technology

Packaging: 12/polybag - 48/case

DUO System

What is it?

CPI microfiber TUBE Mops and DUO bucket are specifically designed for large surface areas and/or heavily soiled floors. This large capacity bucket ensures your water and cleaning solution stays cleaner longer and is extremely easy to maneuver.

The DUO Benefits

✦ CPI Microfiber TUBE Mops release dirt far better in the rinse cycle

✦ Clean side of bucket water stays clean unlike a traditional one compartment bucket

✦ Larger capacity 9.5 gallons, more productive and less trips back to janitors closet

✦ Easy to maneuver and superior quality

✦ TUBE Mops don't stink or bio-degrade like traditional mops

CPIs DUO Microfiber Bucket is designed to used with TAB Mops *or* TUBE Mops ››

TAB Mop System
TUBE Mop System

Reinforced Exterior Walls

Designed to empty into the toilet.

Molded Inside Divider
Molded Inside Divider
Keeps the dirty water and cleaning solution completely separate.

Extra large down press to accommodate TUBE mops

Stainless steel ergonomic handle

Reinforced engineered gear

CAUTION Wet Floor
CUIDADO Suelo Mojado

4.5 gallon clean water section and 5 gallon rinse water section.

Metal carry handle

Tremendous Stability
Extra wide ball bearing 3" swivel casters

How Do I use It?

Step ❶

Dirty Water Compartment

Fill rinse compartment (under wringer) with 2 gallons of clean water (⅓ full). Use the DUO wringer insert for TAB mops.

Step ❷

Clean Water Compartment

Fill clean compartment (front of bucket) with 4 gallons of desired cleaning solution.

Step ❸

Dirty Water Compartment

Dip CPI microfiber tube mop in rinse compartment.

Step ❹

Clean Water Compartment

Wring out mop. Dip mop in clean compartment. Wring out the mop one more time.

Step ❺

Clean the floor using the "S-Stroke" method and flip mop over once first side put on floor is dirty.

Step ❻

Repeat steps 3-6 until desired area is cleaned or mop becomes dirty and needs rinsing..

Sewn in tail band for added stability

5" Abrasive scrubber heads

Use the DUO INSERT for all TAB mop applications

100% Microfiber material

Insert for bottom of the wringer.

Microfiber TUBE Mops

Scrub Headband Microfiber Tube MOP

PART#
MOPL (blue)
MOPM (green)
MOPS (yellow)

Microfiber tube mop, 7" scrubber head band, tubular microfiber construction. Color coded tail bands. Lint-free design.

Microfiber colors:

Spec: 100% Microfiber constructed tubes (lint free with stitching inside of tube) with polyester scrubber headband.

All Tube Mop Headband & Tail band colors:

Large = Red
Medium = Green
Small = Yellow

Packaging: 1/polybag - 12/case

WAVEHOOK

PART#
WAVEHOOKB18
WAVEHOOKR18
WAVEHOOKG18
WAVEHOOKY18
WAVEHOOKW18

Used for low to heavy soil levels and all applications. Premium 18" looped microfiber mop with CPI WAVE™ microfiber and patented hook & loop backing.

Microfiber colors: ▦▦▦▦
Green (G), Red (R), Blue (B), Yellow (Y), White (W)

Spec: 6" x 18" mops with Trio-Split™ Technology

Packaging: 12/polybag - 48/case

SNOWHOOK

PART#
SNOWHOOKB18

Used for low soil levels on floors, table tops, walls and ceilings. Short nap cut pile 18" microfiber mop with hook backing.

Microfiber color: ▪ blue trim with white microfiber

Spec: 6" x 18"

**Packaging:** 12 polybag - 48 per case

TIGERHOOK

PART#
TIGERHOOKB18

Used for low to medium soil levels and all applications. Economical combination microfiber mop with blue nap pile, outer CPI WAVE™ fringe and patented 18" hook & loop backing.

Color: ▪ multi-color blue microfiber

Spec: 6" x 18" mops with Trio-Split™ Technology

Packaging: 12/polybag - 48/case

SMARTBLUE

PART#
SMARTBLUE18

Used for low to medium soil levels. Microfiber mop, hook and loop backing, 18".

Color: ▪ multi-color blue

Spec: 6" x 18"

Packaging: 12/polybag - 96/case

ATHANDLE

PART# ATHANDLE

Aluminum telescopic handle with gray grip. Fits POCKET, ePOCKET, TAB, HOOK, WALLWASH & MFLEX frames

Colored handle grip and trim: ▪

Spec: 39.5" to 72"

Packaging: 1/polybag - 12/case

eSeries® Exclusive Pocket Backing

EveryDay Durable Hook & Loop Backing

eTROWEL®

PART#
eTROWELb (black light)
eTROWEL (no light)

The first trowel with pocket mop functionality. Color coded hand grip, built in scraper and black light function for detecting germs. Patented product.

Spec: 4" x 9"

Packaging: 1/polybag - 10/case

eWALL™

PART# eWALL

eWall™ frame boasts 360° swivel frame, with pocket mop functionality. Color coded hand grip, built in scraper.

Spec: 4" x 9"

Packaging: 1/polybag - 10/case

eTROWELPAD

PART# eTROWELPAD B/R/G/Y

For low to heavy soil levels. Designed for the CPI eTROWEL® with quick release. Features CPI's premium eWAVE™ mop mesh backing for quick cleaning solution saturation times. Exclusive CPI WAVE™ microfiber material. Designed for Pre-Treating in 5D Clean™ Systems. Patented product.

Colors: Blue(B), Red(R), Green(G), Yellow(Y)

Spec: 5" x 10" pad with Trio-Split™ Technology and mesh backing
Packaging: 12/vacuum packed polybag - 48/case

eGLASS

PART# eGLASSB10

Used for glass and mirrors the microfiber glass cleaning Specially designed for the CPI eTROWEL® with quick release pocket backing. Best used by spritzing pad with glass cleaner or water.

Spec: 5" x 10" pad

Packaging: 12/vacuum packed polybag - 48/case.

eSCRUB

PART# eSCRUBB10

Used for low to medium soil with poly microfiber square block scrubber pads. Specially designed for the CPI eTROWEL® with quick release. Excellent for removing soap scum.

Selector tabs: Blue(B), Red(R), Green(G), Yellow(Y)

Spec: 5" x 10" pad

Packaging: 12/vacuum packed polybag - 48/case.

eSNOW

PART# eSNOWB10

Used for low soil levels on table tops, walls and ceilings. Specially designed for the CPI eTROWEL® with quick release.

Spec: 5" x 10" pad

Packaging: 12/vacuum packed polybag - 48/case.

TROWEL

PART# TROWEL

Hand trowel with handle and scrapper edge. Hook & loop backing.

Color: blue

Spec: 4" x 9"

Packaging: 1/polybag - 10/case

WALLWASH

PART# WALLWASH

Wall wash frame with swivel, hook & loop backing. Fits CPI ATHANDLE and eHANDLE

Color: blue

Spec: 4" x 9"

Packaging: 1/polybag - 10/case

WAVETROWEL

PART#
WAVETROWELB9 (blue)
WAVETROWELR9 (red)

Used for low to heavy soil levels and all applications. Use in bathrooms, chalkboards and heavier soiled areas such as grouted tile. WAVE™ material microfiber pad with hook & loop backing. Fits hand trowel and wall wash frames.

Microfiber colors: Red(R), Blue(B)

Spec: 5" x 10" pad with Trio-Split™ Technology

Packaging: 12/polybag - 48/case

MGLASSTROWEL

PART# MGLASSTROWELB9

Used for glass and mirrors the microfiber glass cleaning pad is a microfiber glass cleaning cloth sewn onto hook & loop backing.

Color: blue

Spec: 5" x 10"

Packaging: 12/polybag - 48/case

SCRUBTROWEL

PART# SCRUBTROWELB9

Spec: 5" x 10"
Packaging: 12/polybag - 48/case

SNOWTROWEL

PART# SNOWTROWELB9

The microfiber SNOW pad is used for low soil levels on table tops, walls and ceilings. Hook & loop backing. Fits hand trowel and wall wash frames.

Microfiber color: blue trim with white microfiber

Spec: 5" x 10"
Packaging: 12/polybag - 48/case

Microfiber Dusters

MFLEXPK2
PART# MFLEXPK2

Flexible duster with removable 12" handle (may attached to telescopic handles). Low nap removable microfiber sleeve (may be laundered).

Handle and Microfiber color:

Spec: 12" removable handle and 100% microfiber sleeve with Trio-Split™ Technology

Packaging: 1/polybag - 25/case

MSLEEVE
PART# MSLEEVE

Replacement microfiber sleeve for MFLEXPK2.

Microfiber color:

Spec: 100% microfiber sleeve with Trio-Split™ Technology

Packaging: 1 polybag - 50 per case

MFLEXWAVE
PART# MFLEXWAVE

Flexible duster with removable 12" handle (may attached to telescopic handles). Removable WAVE™ microfiber 2" long strands sleeve (may be laundered).

Handle and Microfiber color:

Spec: 12" removable handle and Web backing for easy wash out in laundering. 100% microfiber sleeve with Trio-Split™ Technology

Packaging: 1/polybag - 25/case

MWAVE
PART# MWAVE

Replacement microfiber WAVE™ sleeve for MFLEXWAVE.

Microfiber color:

Spec: Web backing for easy wash out in laundering. 100% microfiber sleeve with Trio-Split™ Technology

Packaging: 1/polybag - 50/case

WAVEDUST
PART# WAVEDUST

Duster with WAVE™ material, extension handle (34" to 51"). Head is removable and Launderable WAVE™ microfiber.

Handle and Microfiber color:

Spec: Aluminum extension handle (34" to 51"), web backing for easy wash out in laundering and microfiber with Trio-Split™ Technology

Packaging: 1/polybag - 25/case

WAVEDUSTHEAD
PART# WAVEDUSTHEAD

Replacement head for WAVEDUST with 2 snaps for attaching to handle.

Microfiber color:

Spec: Web backing for easy wash out in laundering and microfiber with Trio-Split™ Technology

Packaging: 1 polybag - 50 per case

MDUSTMOP

PART#
MDUSTMOP18   MDUSTMOP24
MDUSTMOP36   MDUSTMOP48
MDUSTMOP60   MDUSTMOP72

Microfiber dust mop with debris channel design, 1.5" loop pile, 5" slip pocket backing (fits 5" wire frame).

Microfiber color:

Spec: Polyester coated backing material with double stitched banded edging. WAVE™ microfiber construction with Trio-Split™ Technology.

Packaging:
18"-24" = 12/polybag - 48/case
36" = 12/polybag - 24/case
48" = 6/polybag - 24/case
60" = 6/polybag - 18/case
72" = 1/polybag - 12/case

DFRAME

PART#
DFRAME18   DFRAME24
DFRAME36   DFRAME48
DFRAME60   DFRAME72

Metal wire frame that fits MDUSTMOPs 18" – 72". Full weld construction. Zinc plated. Quick connect center pivot.

Packaging: 12/case

**Spec:** 18" – 72" x 5"

Wood Handle

PART#
9000

Clip-On wooden dust mop handle with chrome quick connect clip-on bracket.

Packaging: 12/case

The eCART® Cleaning System

What is it?

Created directly from our customers input and is the perfect companion for the 5D Clean™ Systems. It's evolution stems from customers wanting durability, versatility, compact functionality and a "all-in-one" cleaning solution. The best part, the modular and customizable design means you have the ability to create a cart configuration that fits perfectly into your cleaning routine.

1 2-Way Drawer Access
✓ Drawers open from both sides of carts
✓ Fits PTBUCKET or 2 PTMINI Buckets

2 PTBUCKET, DUO or X-Scrub® PRO Ramp
✓ Choose the type of bucket platform
✓ Transport the X-Scrub® PRO

3 Handle Holders
✓ Extra wide, recessed slots won't bump/scratch walls
✓ Holds 5 handles with nothing to break, 10-Year warranty

4 PTMINI Buckets or Charger
✓ Pre-Treat with convenient access
✓ Store the X-Scrub® PRO charger and extra batteries

5 Video Holder
✓ Training at your fingertips

6 eTROWEL® Access/Glove Box Storage
✓ Easy placement for tools
✓ Save time & money

7 Custom Labeling
✓ Standard license plate size logo template to identify workers, area, etc.
✓ Customizable for the facility (optional)

8 Heavy Duty Utility Bag
✓ Zipper-top closure with custom logo pocket
✓ Quick release trash removal

9 Roto-mold Construction
✓ Durable Functionality
✓ **10-year warranty**

10 Stable Platform *Caster-centric*
✓ Push with ease and smoothly rolls over expansion joints
✓ 7" Rear wheel multi-bearing and 5" Front wheel multi-bearing

90° Shelf

» Shelf with flat base to fit PTBUCKET

Working Speed	0-5.6 mi/hr		

X-Scrub® 40" Ride-On Scrubber - *Cylindrical*

Part#: 40C000002 = no batteries, charger, comes with standard brushes
Part#: 40C000004 = charger, wet batteries, comes with standard brushes
Part#: 40C000005 = charger, AGM battery pack, comes with standard brushes
Part#: 40C000007 = super charger, 460 AH lithium battery pack, standard brushes
Part#: 40C000008 = super charger, 800 AH lithium battery pack, standard brushes

1 year battery warranty. 3 years for parts.10 years for the rotational molded tanks.

Product Specifications			
Model	X-Scrub® 40c" Rider	Noise	76 dBA
Solution Capacity	100 Gallons	Squeegee Size	54 inches
Recovery Capacity	105 Gallons	Cleaning Path	40 inches
Batteries	36 Volt	Drive Motor	1,500W
Weight w/o batteries	1,350 lbs.	Vacuum Motor	2 each @ 550W
Dimensions	87.5" x 53" x 60.5"	Brush Motor	2 each @ 750W
Working Hours	6-9 Hrs	Productivity	125,000 ft/h
Working Speed	0-5.6 mi/hr		

Vacuums

No Computer Boards!

Works GREAT With The MopDoc®

Optional, not included - part #MopDoc

CRI
THE CARPET AND RUG INSTITUTE
APPROVED

INCLUDED TOOL KIT:
- Stretch hose
- Crevice tool
- Plastic wand
- Combo dust brush/upholstery tool

INCLUDED TOOL KIT

INCLUDED TOOL KIT

HEPA Dual Upright Vacuum

Two motor design with a 3 position switch allows for just the vacuum motor for attachment hose usage or both motors for carpet/hard surface. Strategically positioned larger debris opening to prevent clogging. HEPA filter bag and HEPA exhaust filter.

PART# 310000002

Commercial Wet Dry Vac With Squeegee

The CHAMP23 wet/dry vacuum comes ready for whatever is in front of it, thanks to its adjustable front-mount squeegee system and its powerful dual 1,000W vacuum motors. It also comes with a dry filter insert and 25 ft power cord.

PART# CHAMP23DMFMS

Powerful Commercial Wet Dry Vacuum

Durable stainless steel tank. Unit weight 63 lb. empty. Steady on the floor, yet easy to transport. Cloth vacuum filter controls dust and protects the motors. Easy to remove and wash. Includes 10-foot vacuum hose, two piece wand and durable vacuum head. Includes a 4-piece tool kit: dust brush, squeegee tool, scalloped bristle floor brush, and crevice tool.

PART# CHAMP20WVC

Product Specifications	
Cleaning path	15" bristles that push the dirt towards the debris opening
Vac motor	120 volt 9.5amp
Weight	19.5 lbs. (16.5 lbs. Without cord)
Water lift	90"
Power cord	50' quick change extension cord
Noise	68 db
3-year warranty on motor AND Belt!	

Product Specifications	
Volume	23-gallon
Vac motor	dual 1,000W
Airflow	225 cfm
Water lift	92"
Power cord	25'
1-year warranty on motor	

Product Specifications	
Vac motor	1,000W
Airflow	225 cfm
Water lift	78"
Power cord	50' - 16/3
1-year warranty on motor	

17" Concrete Scraper Attachment
PART# MRSCRAPER17

15" Concrete Scraper Attachment
PART# MRSCRAPER15

20" Concrete Grinder

Single-phase planetary grinder designed for both open and confined spaces. Detachable head and larger wheels make this machine easier to transport.

PART# MUSTANG20

Product Specifications	
Voltage	220-240 1-ph
Weight	540 lbs.
Heads	3 x 9 inch planetary
Working width	19.5 inch
RPM range	350 - 1,500
Motor	5.5 hp WEG
Inverter	7.5 hp VEICHI
Water tank	Stainless steel
1-year warranty on motor	

22" Floor Grinder with Planetary Polisher

Single-phase planetary grinder designed for both open and confined spaces. Detachable head and larger wheels make this machine easier to transport.

PART# MUSTANG22

Product Specifications	
Voltage	220-240 1-ph
Weight	363 lbs.
Heads	3 x 9 inch planetary
Working width	21.5 inch
RPM range	350 - 1,260
Motor	5.5 hp WEG
Inverter	7.5 hp VEICHI
Water tank	Durable poly
1-year warranty on motor	

27" Concrete Diamond Grinder

Single-phase/three-phase planetary grinder designed for both open and confined spaces. Detachable head and larger wheels make this machine easier to transport.

PART# MUSTANG27

Product Specifications	
Voltage	220-240 1-ph / 3 ph
Weight	792 lbs.
Heads	3 x 9 inch planetary
Working width	27 inch
RPM range	450 - 1,680
Motor	15 hp (3)/ 13 hp (1) WEG
Inverter	20 hp Delta
Water tank	Stainless steel
1-year warranty on motor	

8-Sided Replacement Blades

The ultimate solution for effortless and efficient floor maintenance! Whether you're a professional cleaner or a DIY enthusiast, these high-quality blades are designed to meet all your floor scraping needs precisely and easily.

PART# MRSCRAPERBLADE

The Finish Application System

What is it?

A heavy duty sealing bucket that is used for a variety of applications. Apply finish with a 24" or 18" ePocket™ frame and seal the mops between coats. The buckets' air tight seal boosts productivity with less waste.
The Finish System Kit Includes:

1) 24" ePocket™ frame

1) 24" eWAVE™ Finish mop

1) 24" Glide Finish mop

1) Finish Bucket with sealing lid, flat press and 4 casters

Handle and optional drain valve sold separately

Part# - FINISH KIT 24

Finish Application System Benefits

Transport your Finish Application System with the ePocket™ frames and handle using the 24" or 18" frame. Store your frames while not in use on the back of the sealing bucket.

The raised inner ribs easily fit inside of a standard janitor cart front recessed shelf area (17", total width) where a bucket and wringer would usually sit.

The buckets optional drain valve is used to lay a bead of finish directly onto the floor. It also allows for a safe and easy way to drain anything remaining for reuse. Makes for easy cleanup.

Heavy duty wide caster wheels. With axle and raceway bearings. Center-weighted design means less spills and extra stability.

Removable press for easy "tapping" of the mop head that ensures there are less bubbles in the finish. Plenty of clearance to access the finish during application.

The sealing lid (like the PTBUCKET) seals air tight to allow for less waste and continue projects for several days between coats.
Wave Finish

Trio-Split™ Technology holds more floor finish on the microfiber mop which means increased productivity. The debris channels support a smooth, even and consistent coat of finish while collecting any soil left on the floor.
Part# - FINISH MOP 24WAVE

Part# - eHANDLE 72

The Pocket Mop System

Allows for a quick on/off assembly of the mop head from the frame between coats. Provides an assured straight head control with mop fringe.

Part# - ePOCKET24 or ePOCKET (18")

Glide Finish

Glide poly strips helps this microfiber "picoloop" mop move smoothly over the surface while laying down a thin coat of finish.

Part# - FINISH MOP 24GLIDE

Glide Finish

24" wide, 11 gal bucket with sealing lid and flat mop press. Perfect for finish applications. Drain valve at center bottom for laying a bead of finish while pushing bucket or for easy cleanup at the floor drain. Extra wide wheels with axle & raceway bearings.

Part# - FINISH BUCKET

What is it?

The only microfiber laundry cleaning system specially formulated for microfiber and the environment. CPI detergents in conjunction with CPI WAVE™ microfiber and the CPI Smart washer help facilities become more energy efficient, conserve resources and have a lower environmental impact.

The eSmart System Benefits

Readily Biodegradable Surfactants Meets EPA Safer Detergent Stewardship Initiative (SDSI)

pH Balanced Formula Specially formulated for microfiber

Quickly releases soil from microfiber

Formulated for Low Temperature Washing

Concentrated Formula A little product goes a long way

How Do I use It?

Follow the recomended steps below to insure consistently clean microfiber
Step 1
Vacuum your dust mops pior to washing

MopDoc®
PART# MOPDOC

Hooks up to your vacuum cleaner hose. The MopDoc® patented vacuum attachment creates cleaner everyday use for your dust mops. Just swipe the dirty mop over the removable SS grate vacuum chamber and the dust, debris and dirt is vacuumed away. Even cleans the fringe. 20x11.5". Patented product.

INCLUDED TOOL KIT

Commercial Wet Dry Vacuum
PART# CHAMP20WVC

Durable stainless steel tank. Unit weight 63 lb. empty. Steady on the floor, yet easy to transport. Cloth vacuum filter controls dust and protects the motors. Easy to remove and wash. Includes 10-foot vacuum hose, two piece wand and durable vacuum head. Includes a 4-piece tool kit: dust brush, squeegee tool, scalloped bristle floor brush, and crevice tool.

Step 2
Add your laundry detergent

eMICROBRITE
PART# eMICROBRITEII 41 (4 - 1 gallon bottles)

Specially-formulated to clean microfiber cleaning products. Microbrite includes a brightening agent that is safe for your microfiber and produces a clean and bright-looking result (does not contain any chlorine bleach). Strong enough for tuff jobs yet gentle on the environment, biodegradable and phospate-free. A daily-use product.

Packaging: 4 - 1 gallon bottles

Step 3
Add your microfiber and wash as recommended

Automatic Washer
PART# SMARTCLEAN3

Automatic washer with a stainless steel drum, pump out, fill hose, programmable up to 24 hours, settings for: water level, wash cycles, rinse & spin cycles. Designed specifically for CPI microfiber products. Easy to use!

Spec: 110 volt, 64 lbs, 22" x 22" x 36" high.

CPI Microfiber Laundry Process Recommendations

- Recommend using CPI SMARTCLEAN automatic washer.

- Do NOT overload the washer with product. (they need sufficient room to agitate in the drum to properly rinse)

- Generally, load one of the following combinations in the washer.
  - 18" wet mop *equal to* -> 25 mops
  - 16x16 Cloths *equal to* -> 50 cloths
  - 18" wet mop & 16x16 cloth *equal to* -> 12 mops + 24 cloths
  - 18" wet mop & 16x16 cloth & trowel pad *equal to* -> 12 mops + 12 cloths + 12 trowel pads
  - 18" wet mop & trowel pad *equal to* -> 12 mops + 24 trowel pads

- Wash ONLY microfiber products together. (NO cotton, towels, etc. mixed with microfiber in the washer)

- Do NOT use liquid fabric softener.

- Do NOT use chlorine bleach. (oxygen bleach with pH 4.0-11.0 is ok to use)

- Use alkaline detergent with pH level under 11.

- Do NOT exceed 140°F (60°C) drying temperature. (avoid over drying microfiber for long period of time)

- Do NOT exceed 200°F (95°C) water temperature.

System Analysis

We begin with an Analysis your facilities current cleaning procedures and recommend an approach towards an efficient and environmentally sound solution. We focus on these four areas:

Employees – Reduce fatigue during cleaning

Customers – Provide a cleaner, healthier environment for your customers

Environment – Reduce water and chemical usage by using microfiber

Health – Provide a cleaner environment with our 5D Clean™ System.

Intelligent Design Manufacturing (IDM) and Creative Products International (CPI) have worked with the Global Bio-risk Advisory Council (GBAC) since its inception in 2019 to assure the processes and system meet the highest standards used in the industry. IDM and CPI have GBAC Trusted Advisors to best develop, educate and implement the best programs.

CPI has been part of the ISSA Sustainability Council and sits on the community dedicated to providing education to grow the awareness for worldwide sustainability in all sectors. It is the goal of ISSA and a large group of member companies, including ours, to become more sustainable everyday and share our knowledge with others. Please join us in this commitment while protecting the environment and our natural resources.
Most facilities look at cost first and then what they can get for what they have to spend. Our systems look at the environment first. In all cases using the program will save money for a facility. An important aspect to keep in mind is that "going Green" is not an event, it is a journey. CPI helps each facility on their journey.

The ATP Testing Kit

Test the number of microorganisms detected in a contained area with proprietary testing swabs. Traditional methods were only once obtained by technicians in the laboratory. Now, with this simple to operate testing kit, your staff can perform these results on-site.

Part# ATPMTR

• Included: Locking aluminum protective case
• Display: 3.5-inch high-precision graphic touch screen
• Processor: 32-bit high-speed data processing chip
• Detection range: 0 to 9999 RLUs
• Detection time: 15 seconds
• Detection mode: RLU, coliform screening
• 50 user ID settings
• Automatically judge pass and fail
• Automatic statistical pass rate
• Built-in self-calibration light source
• Equipped with mini USB interface, you can upload the results to PC

Environmental Sustainability

What You Can Expect

Increase cleaning effectiveness with the use of
***5D Clean™ System* and *5D Clean Training™ System*.**

- Improve air quality by picking up and removing microscopic particles
- High performance cleaning fibers removes bacteria

Ergonomic enhancement

- Reduce employee injuries by eliminating the use of conventional buckets and wringers
- No lifting heavy buckets full of water and chemical

Prevent cross contamination

- A Color Coded Process insures proper compliance
- *5D Clean™ System* cleaning provides a healthier facility

Reduce chemical and water consumption

- Use less chemical by utilizing the Pre-treated cleaning process
- Use less water reducing environmental conservation concerns
- Less water and chemical consumption means more for your bottom line and benefits our environment

Proven Results!

CPI has taken proven steps toward helping facilities becoming Environmentally Sustainable through our Systems and Training. This is accomplished by:

- Providing a healthier living/working area through *5D Clean™ System*
- Reducing chemical and water consumption
- Reducing overall cleaning cost through the *5D Clean Training™ System*
