

# Pour-Over Brewer 2.2L

BREWER

POUR-OVER BREWER 2.2L

## About this product

The Curtis Pour-Over Systems are convenient and produce high-quality coffee. They have generous tank capacity, quick-recovery heating elements, and a large, wide-mouth inlet for easy filling. The precisely engineered spray head and brew cone combination extract coffee flavour quickly and thoroughly.

The Pour-Over Brewer is easy to use and requires no plumbing—just plug it in and add water. Optional accessories include glass coffee-bowls and thermoPro stainless-steel airpots and servers.
