DOMINO EFFECT

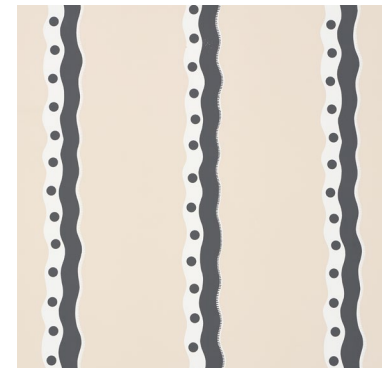

We've completely fallen for Domino Effect, our new collection of fabrics and wallcoverings inspired by traditional domino papers—handprinted, hand-colored sheets popularly used during the 18th century to enliven the interiors of trunks, drawers, and books with a graphic, surprisingly modern punch. Our updated iteration brings equally joyful patterns to the forefront: small-scale geometric and floral motifs in perky colors and playful repeats that elicit smiles all around. You'll positively tumble for them!
