LE MAX

Photography by Pieter Estersohn.

Channel your inner Francophile and say *salut* to Le Max, a fresh new collection of fabrics and wallcoverings pulled from the Schumacher archives and updated to embrace classic Continental chic and the kind of old-school glamour that never goes out of style. These are gild-the-lily, dimension-building textiles, trims, and papers designed for projects where opulence is not optional: shimmering moirés, worldly paisleys, sophisticated florals, and intricate embroideries in a range of scales and rich, exuberant patterns, not to mention a smattering of Napoleonic bees. Tailor-made for luxurious, sumptuously layered living, Le Max is *magnifique!*
