## ENGAGING THE WORLD SINCE 2011

“At Beyond Therapy, we use the NunoErin Sparkle Bench everyday. Its not just for our PTs but our OTs and STs use it too. We incorporate it in all type of therapy from improving attention when working on standing to using it as a reinforcement table for handwriting to a following direction task when pressing the lit up squares. We get complimented on it all the time from parents and observation students. Its one of our favorite items in our clinic.”
