

Assembly Guide

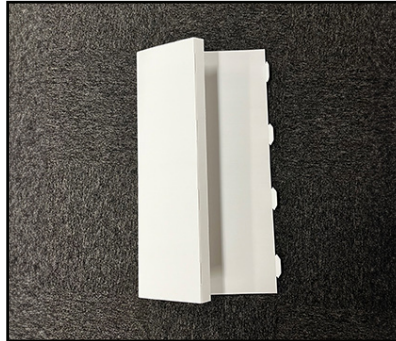

Bollard Signs

HOLLER
PRINT

Step 1

Grab your bollard sign and place it on a flat surface, print side down.

Step 2

Time to channel your inner origami master! Fold along each crease, don't forget the tabs. Use your palm to make those creases nice and sharp.

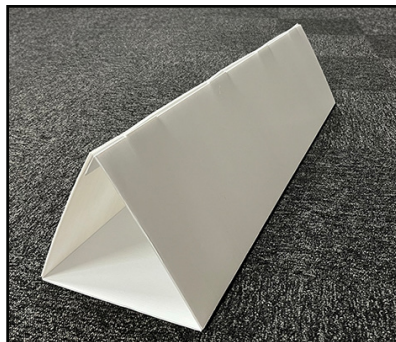

Step 3

Carefully fold your bollard into the correct shape as indicated, ensuring all edges align perfectly.

Step 4

To secure your bollard sign in its new shape, locate the tabs and slide them into their corresponding slots with precision – think of it like locking the pieces of a puzzle in place.

Step 5

Secure the top of the banner to the top pole. Congratulations, you've just graduated from Banner Assembly University with flying colors! Your pull-up banner is now ready to steal the show.
