MASSAGE TOOLS FOR EVERY BODY

Introducing the Body Back Buddy™

While in massage school in 1995, I experienced firsthand the numerous benefits of applying direct pressure to tight, sore and knotted muscles: noticeable relief, more flexibility and better circulation. I later noticed many of my clients needed a way to manage their pain between visits. I began the process of creating a tool that would comfortably and effectively treat any muscle, be lightweight, versatile, affordable and simple enough for anyone to use. You are holding in your hand the result of this process.

We are a family-run business committed to promoting global wellness one person at a time. We design and build the best massage tools available. With over a million sold worldwide and over 5,000 5-star 'verified purchase' reviews on Amazon, the Body Back Buddy has set a standard for personal massage

tools that few can match. When we hear remarkable stories about how folks like you relieved their muscle aches and pains, it makes our work very rewarding indeed! Please know you are the best part of our business.

Welcome to our family and be well!
