		-

- 2. Click the menu button (...) top right to open the Device Settings.
- 3. At the very bottom of the menu, click Delete device.

- 4. When prompted, click confirm
- 5. Start again by clicking Add Device from the Home screen and groing through the steps for connecting a device.

Kanana Gardens

Getting Started

Sonoff S31 Configuration

Turn a Smart Controller into an Irrigation Controller

(i) Leave a drip loop when plugging in your cables.

Scan for online tutorials and videos or go to go.kanana.ca/help/sonoff31-configure

Connecting to your smart controller

- 1. Install the eWeLink Smart Home app and register a new account.
- 2. From the Home screen, click Add Device.

2

- 3 From the slideshow click Quick Paring. On a shorter phone, you may need to scroll down to see the button.
- 4. Select a WiFi network for the device and enter the password

11

æ

5. Plug in the controller. The blue indicator light should start flashing repeatedly in the following order: 1 long, 2 short. This indicates it is now in pairing mode. To activate pairing mode manually, hold the power button down for about 10 seconds. Note: it may take up to 2 minutes to pair.

is complete, the

device ID should

- 6. Once the pairing ← Add Device Add All E Devices found S31TPB(US)
- tedroom Other
- show up. 7. Click on the pencil button to the right of the device to edit the controller's name or location. Make your changes and click Done.

Setup as an Irrigation Controller

Turn the pump(s) on for 12 minutes every 2 hours while the lights are on

All Livingro... Bedroom Othe Pumps 12 min every 2 hrs,

- 1. From the Home screen in the eWeLink app, select the device you wish to configure.
- 2. Add a Schedule for every second hour that the lights will be on and set it to Repeat every day of the week. Set the Add action to ON.
 - For example, if your lights are scheduled to turn on from 6 am to 10 pm every day, add a schedule for 7 am, 9 am, ..., 9 pm. (or the even hours if you prefer: 6 am, 8 am, ..., 10 pm)
