ABOUT US

INTERNI'S HISTORY BEGAN IN 1933

1933

Leonardo Cazzaniga opens a carpentry workshop in Verano, in the heart of Brianza.

1950S

Cazzaniga and his wife Giulia Citterio turn the carpentry workshop into a commercial business, based first in Verano and then in Dalmine, close to Bergamo.

1970S

Luisa, Luigi, Giuseppe and Antonio Cazzaniga, the founders' children, change the name of the business to Interni and open the first furniture shop in Bergamo along with a new 5,000 sq m showroom in Verano.

1980S

The Arclinea flagship kitchen showroom opens in the centre of Milan.

1990S

The company keeps evolving and becomes more established, opening the first multi-brand showroom under the Interni brand in Porta Venezia, Milan.

2000S

The showroom on Via Turati opens. It is now the Design Factory, where customers can bring their interior design projects to life with the help of Interni's Creative Team.

2010S

With the third generation of the Cazzaniga family entering the company, Interni opens up to new challenges and new markets: it opens new flagship stores, carries out projects and receives national and international awards and acclaim.

2020S

Interni opens the new 10,000 sq m logistics hub, as well as the first Giorgetti flagship store in London, confirming the brand's international spirit also in retail.

*In November **2021** Lifestyle Design (formerly Poltrona Frau Group), together with **Haworth, Inc.**, announced the acquisition of the majority stake in INTERNI. INTERNI today operates within the Lifestyle Design Division, joining brands like Poltrona Frau, Cappellini, Cassina, Ceccotti, DZine, Karakter, JANUS et Cie, Luminaire and Luxury Living.*

VISION

It pays homage to Interni founder Leonardo Cazzaniga, who back in 1933 already had a clear vision: design can and must improve the spaces we live in, and therefore our quality of life. This concept continues to guide Interni today.

MISSION

To conceive and implement interior design solutions at all levels, across the world, offering our customers a total design experience, thanks to a consolidated know-how and a global network of partners and collaborators.

DESIGN EXPERIENCE

Interni offers a total design experience. A journey through materials and artisan know-how, giving our clients access to a broad range of products and customisation options to furnish the spaces they live in.

VALUES

QUALITY

Interni is synonymous with total quality. It offers top-of-the-range services across its departments – from its broad selection of designer furniture to the quality of customer experience, from interior design to project management.

VARIETY

Interni has something for everyone: contemporary and classic furniture, high-end and mid-range, from kitchen to bathroom, from custom-made designs to works of art. It doesn't need to be associated with one particular taste or style: Interni's strength lies in its ability to understand the taste and style of its customers.

INTERNATIONALLY

Interni is international and multinational by nature. It works across five continents, 169 countries and 1912 cities, with people who speak the local language and understand the potential and limitations of the places in which they work.

SERVICE

Interni is at the complete service of its clients, whoever they are. It takes charge of all stages and relations required to bring a project to completion, from creative aspects to logistics, from assembly to post-sales customer service.

OPENNESS

Interni can make anybody feel at home. It has the open attitude of someone who has travelled the world and does not discriminate against anybody. This means it is welcoming, open to dialogue and able to understand its customer's needs.

RELIABILITY

Those who choose Interni can be safe in the knowledge that they are dealing with a sector leader worldwide. Every handshake, at whatever level, is a commitment for Interni.

16 STORES

This experience materialises in fourteen stores. In the Interni showrooms in Milan, Bergamo and Verano Brianza, customers can see, touch and choose products from over 200 prestigious Italian and international furniture and design brands.

Interni further manages eleven monobrand stores in Milan, London and Dubai, and has access to a network of artisans, who can bring to life custom products and designs.

INTERNI DESIGN FACTORY

Interni Milano Via Turati, 6/8

+39 02 29063421

milano@internionline.it

Interni Design Factory is at the heart of its operations.

The space in Milan welcomes customers from different backgrounds and with different needs, giving them the opportunity to build the interior project that best suits their style together with Interni's Creative Team.

The first floor is entirely dedicated to the experience of interior design, inviting customers to embark on a journey to discover different materials, objects and artisan techniques.

In the waiting lounge, opposite the video wall dedicated to the Interni brand and its achievements, a carved marble wall stands as a preview to the Materials Gallery, containing a display of all available materials and coverings to be used to create custom interiors.

With the guidance of Interni's Creative Team, they can choose their favourites to build their own interior project.

The Materials Gallery leads to five Project Rooms, where discussions around the projects take place.

CUSTOMER SERVICE IS A FLAGSHIP OF THE COMPANY

Among the fundamental values of Interni there is a great attention to the craftsmanship and quality: unique features to face “contract” projects, whether they are fittings of mega yachts, offices, wellness and so on. Here the focus, typical of Interni, for details and “tailoring”, which are the ingredients of success, resulting in great customer satisfaction.

Interni Contract Division guarantees, no matter where you are, the fulfillment of perfect custommade projects where furniture, materials, manufacturing and site management follow the highest quality standards for a service without equal.

Analyzing every need and following the quality standards required by the clients, Interni Contract Division is able to create innovative views of design, as well as projects shaped on the dreams of the customer.
