

# SB2T TUBBUDDY Tilt

## For transfers over a bath tub

The SB2T bath transfer system from Showerbuddy is also designed to allow a user to be safely transferred by a caregiver over the bathtub, but with the addition of a tilt. The SB2T offers a significant reduction in costs, no need for costly bathroom remodeling.

While eliminating unnecessary transfers, the SB2T with a tilt function allows for pressure relief and alleviates caregiver strain by allowing the user to slide over the bathtub without having to lift their legs.

The SB2T TubBuddy Tilt can roll straight over most toilets and can also be used as a commode chair.

### Product Features:

- Weight capacity - 160kg (350lb)
