DINING & CAFÉ TABLES

For a unique al fresco dining experience, our bespoke service enables you to curate your outdoor space to suit your individual style. For an ultra-stylish dining, coffee and side table, simply choose from a range of durable porcelain slab tops in different colour tones, textures and sizes, then opt for a matching frame in a teak, white or black aluminium finish: team timeless terrazzo to teak for an on-trend biophilic feel, white marble works with white aluminium for a sleek, monochrome look or, for an urban industrial edge, style grey concrete with black aluminium.

UMBRELLAS

Create pleasant shaded areas for relaxing in the great outdoors with our umbrellas. Choose from a side or central pole and square or round shape with a suitable base - for customised umbrellas. Our easy-open, heavy-duty options offer sizes of up to 3 M x 4 M which are available in several colour options for ease of customisation.

TYPES OF UMBRELLA

- **Centre Pole**

The most popular type of umbrella has a straight pole that is positioned in the centre of the umbrella and usually sits in a base on the ground, or through a table designed with an umbrella hole.

- **Side Pole**

This umbrella features the pole off to one side rather than down the centre. Some side pole umbrellas have a shade that will pivot from side to side and may even rotate 360°.

POLE MATERIAL

- **Wood**

Wood umbrellas have that classic umbrella appeal. They pair well with wooden furniture and are available in a range of sizes. Wood poles or frames generally lift via the A.L.S system, single or double pulley systems or gas struts.

- **Aluminium**

A very durable and versatile pole option, as aluminium is rust resistant and very strong. Many aluminium poled umbrellas feature the A.L.S system, single or double pulley systems or gas struts.

- **Struts**

Struts are the main supports for the umbrella canopy and can be either aluminium or wood. Both options function in the same way and offer similar durability (wood may need some treatment as part of the care and maintenance program), it is a personal choice to match the style of furniture.

CARE & MAINTENANCE

- **Do not force your umbrella open.** It should open gently, if it does not it may be caught on something. Forcing it could damage the frame and/or the lifting mechanism.
- **The umbrella must be closed when not in use, this will reduce the chance of damaging the frame in adverse conditions.**
- **Occasional/periodic rinsing with fresh water will keep your umbrella in good condition.**
