2024 - 2025

Hello, friends!

Here at Navy Midnight Press, we love the infinite possibility contained in small simple moments - like opening a lovely envelope, wondering what you'll find, or spotting the first signs of life in an early spring garden.

Our designs celebrate the serendipitous beauty of the natural world, with a modern and streamlined touch.

Letterpress printing provides a warmth, dimension, and beautiful variability that is difficult (or perhaps impossible?) to get with any other printing method.

design and letterpress process

Our designs begin as hand drawings which are ultimately printed by hand on an antique letterpress. I love the tactility of the letterpress process and print on heavyweight cotton paper for the luxurious look and feel - as well as the environmental benefits of using tree-free paper made from reclaimed fibers that would otherwise be discarded by the cotton industry.

We love heavyweight cotton paper and the texture and warmth of letterpress printing.

Letterpress is a handmade process. Slight variations in ink color and coverage are to be expected and give the process its unique character.
