Take Out Tastings

Mix & Match to find your perfect flavor combination

Take out tastings are \$50 and also function as your non-refundable deposit. Should you book with us, the \$50 tasting fee will be put towards the cost of your cake.

We provide you with the cake flavors (in the form of cupcakes), filling flavors, and cream and/or buttercream flavors all packaged separately so you can mix and match flavor combinations to find what is best for you!

Each tasting comes with a sample of Vanilla Buttercream in addition to the 3 creams and/or buttercreams of your choice. We suggest our regular creams for the inner layers, and buttercream for the outer. Buttercreams are sweeter than the regular creams and are better for decorating and as an outer icing.

We suggest a take-out tasting for your convenience. In person tastings with our pastry chef can be scheduled by request for an additional fee. Please be aware that we have limited availability, so certain days and times may not be possible.

After you submit an inquiry through our website (puresweets.com/weddings), our Wedding & Custom Experience Coordinator will reach out with flavor options and additional details.

Cake Information

Our cakes are made of 100% organic, plant-rich, gluten-free, kosher, & whole food ingredients. These ingredients are temperature sensitive, meaning our cakes, cupcakes, and baked goods should be refrigerated until ready to display or serve.

For orders over 60 servings, we suggest supplementing with a couple's cake, cupcakes, or baked goods. We also offer sheet cakes for additional servings.

All cakes are decorated by hand using whole food ingredients. We do not use any artificial coloring, fondant, edible paper, printing, or other artificial design elements.
