

## Bangle Size Guide

Start by printing this page in US letter paper size (8.5" x 11").

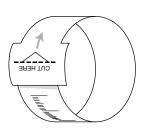

Use the scale checker with a ruler to make sure the page is printed correctly. It should measure 2cm on both directions.

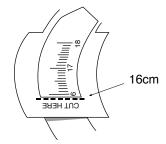

## How To Measure Your Wrist

- 1. Cut the wrist measuring strap on the left of this paper.

  And make the inside cut on the strap where it says: "cut here".
- 2. Make the strap into a circle and insert the point inside the opening in the strap.
- 3. Insert your hand through the circle and stop right below the wrist bone.
- 4. Pull the paper until it feels tight enough to take a measurement (it should not be too tight). Write down the number you see on the border of the opening (see picture below).

- 5. If the measurement falls between two measurements, choose the size that is closer.
- 6. Review your size with the chart below.

| Wrist Measurement (cm) | Bracelet Size |
|------------------------|---------------|
| 14 cm                  | XXS           |
| 15 cm                  | XS            |
| 16 cm                  | S             |
| 17 cm                  | М             |
| 18 cm                  | L             |
| 19 cm                  | XL            |

**\*\*NOTE:** This is only meant to be a guide, it is not a 100% accurate way of sizing yourself.
