

30^{T1.5}
MM

Irix Cine 30mm T1.5 is a full-frame cine lens, for sensor resolution up to 8K. It is excellent for interviews and medium wide shots of your subject. Especially on a crop sensor where you will get 45mm (1,5x).

KEY FEATURES

- Ultra HD 8K ready optics with superb image resolution
- Weather-sealed construction
- Low distortion
- Very low focus breathing
- 7 mounts, including mirrorless
- 11 aperture blades
- Weather sealed
- Laser UV reactive markings
- Magnetic mount system
- Standardised 0.8 pitch mod gears
- Internal focusing

DESCRIPTION

Made to work with your equipment

Are you a professional, an amateur or perhaps just an enthusiast of cinematography? Perfect!

Irix Cine 30mm is a >43,3mm Full Frame lens, covering Full Frame 35, Super 35, Red Dragon 6K, Arri Alexa, APS-C, MFT, Super 16, Sony Venice and other sensors. It's so versatile it'll fit YOUR favourite equipment – so that you can enjoy every second of shooting with the tools you already love.

Put our Irix Cine 30mm to work and enjoy the comfort and functionality that it offers. Available in the most popular industry mounts: Canon RF, Canon EF, Fuji X, Sony E, Nikon Z, Leica L, Olympus / Panasonic MFT and Arri PL-mount, this superior cine lens is ready for action whenever you are.

Ready for any weather conditions

Rain or shine. The rugged and durable construction of the Irix Cine 30mm guarantees that you can keep on working with whatever weather throws at you. The lens is resistant to rain, sand, and dust. So you can take it for your next adventure in a desert or jungle if your camera can handle those environments. Engraved markings on the lens have been filled with UV-reactive paint, thanks to which filming in difficult lighting conditions becomes much easier.

Modern optics guarantee outstanding image quality

Creativity and passion lie in your individuality. Craft one-of-a-kind cinematic look that won't be easily forgotten! Thanks to the perfectly refined optical system, your shots will come out with low level of distortions and aberrations.

The internal focusing system of the lens guarantees incredible sharpness. 11 – blade iris provide beautiful bokeh and a very smooth adjustment between T1.5 and T16.

With very low focus breathing and close to human field of view Irix 30mm Cine is a perfect lens for filming natural-looking scenes. Allow yourself to enjoy every moment of filming!

Functionality and innovation

All Irix film lenses have very similar dimensions and weight, which allow for quick and easy lens changes without the need to change the rest of your setup. The product is equipped with a Magnetic Mounting System (MMS), which allows you to connect accessories such as magnetic filters from the Irix Edge line up.

(Irix) CINE Standard

Irix Cine 30mm was designed in accordance with the standards of the professional film industry, being the result of a combination of traditional lens solutions and modern innovation. Irix Cine 30mm has a front filter thread size of 95mm and geared Mod 0.8 M rings, which ensure compatibility with most accessories available on the market.

Irix is a young brand, but thanks to the fifth lens in its lineup, it's closing the set covering most of the common focal lengths. All of our lenses are carefully tested, to meet the highest standards. And we don't play around with them. We make sure, that all of our lenses are compatible. Starting from our neutrino coating, which provides the same color reproduction on each lens to the same weight and location of gears.

Innovative adaptive ring

The adaptive ring is an innovative function which you will love no matter if you are a pro or an amateur.

The ring has been designed to keep the lens housing sleek and user-friendly when operated manually, but without any compromises when you want to use your favourite cine gear. Combining compatibility and usability that have never met before!

Lightweight and compact design

Irix cine 30mm T1.5 meets requirements of all filmmakers. No matter if you like to build professional setup or shoot with bare lens on stabilizer this lens is for you. Aluminium and magnesium alloy construction and housing weight only 1,1-1,2kg.

Front external diameter 95mm for barndoor and accessories, filter thread 86mm, front MMS – Magnetic Mount System for rapid filters are just a small part of multifunctional design.

New and improved lens cover

We have listened to requests from our customers and decided to redesign our lens cover. The previous one didn't allow for leaving the lens standing on it. The improved one has a flat top and slides on the lens. Thanks to this, you can now leave the lens upside down on a table and not worry about it wobbling!

Magnetic Mount System

All of the Irix Cine lenses (except Irix 11mm T4.3 lens) have a Magnetic Mount System (MMS) that is compatible with Irix Edge MMS, Vari ND filters and Irix MMS Lens Hood. The Irix Edge magnetic filters have a unique threadless design, so you can be sure that everything stays clean & clear ready for action! No more hesitate with dirty or dusty filter thread again.

The MMS filter can be stacked together allows you to not only freely combine them but also saves a lot of space when stored.

The MMS Lens Hood effectively protects the lens from unwanted light that can cause ghosting and flares.

All of the Irix Edge Magnetic Mount System (MMS) filters are made of hardened optical glass (SR) which makes it extremely robust. The filters surfaces are covered with the multi-layer, anti-reflective coating with a special type nano-coating that makes it easy to clean.

Available types of Irix Edge MMS filters: UV, CPL, ND4, ND8, ND16, ND32, ND64, and Vari ND 2-5.

Irix and gimbals work great together

All Irix has a similar weight, which makes swapping them on gimbal much easier. Additionally, focus gears help with any wireless follow focus. The weight of around 1kg works as a perfect counterweight to most mirrorless cameras, making balancing a breeze. We have tested it personally on many gimbals from most popular brands like Zhiyun or DJI and were very happy with how it all performed together. *Each camera has different weight distribution and size, some balance easier, others don't. Tests were done on the Sony A7 series and Canon R series.

Perfectly fits into the cine world

Your comfort matters. To ease the use as much as possible, we made sure our Irix Cine 30mm is compatible with most follow focus systems, matte boxes, stabilizers and accessories available on the market.

Furthermore, it comes with a detachable lens support foot – to provide stabilization and reduce the strain of the camera mount when in use with follow focus gears.

Irix Cine is so universal it will become your favourite lens no matter the task!

TECHNICAL DATA

Image format	>43.3 mm "full frame"
Focal length	30 mm
Aperture range	T1.5 ~ T16
Number of iris blades	11 (rounded shape)
Minimal focusing distance	0.34 m (13.39")

Focus ring	
• rotation angle	180°
• gear pitch	0.8 mm
• number of teeth	119
• distance scale	metric or imperial

Aperture ring	
• rotation angle	75°
• gear pitch	0.8 mm
• number of teeth	110

Viewing angle (horizontal)	
• Full Frame	61.9°
• S-35mm 1.39x	45.1°
• APS-C 1.53x	42.9°
• APS-C 1.62x	40.9°
• MFT 2.0x	32.2°

Front filter thread	86 x 1.0 mm
Weather sealing	5 rubber o-rings (PL 4 rubber o-rings)
Front diameter	95 mm
Markings	laser engraved, UV reactive

ACCESSORIES INCLUDED

- Front cap
- Rear cap
- Lens support foot 1/4"

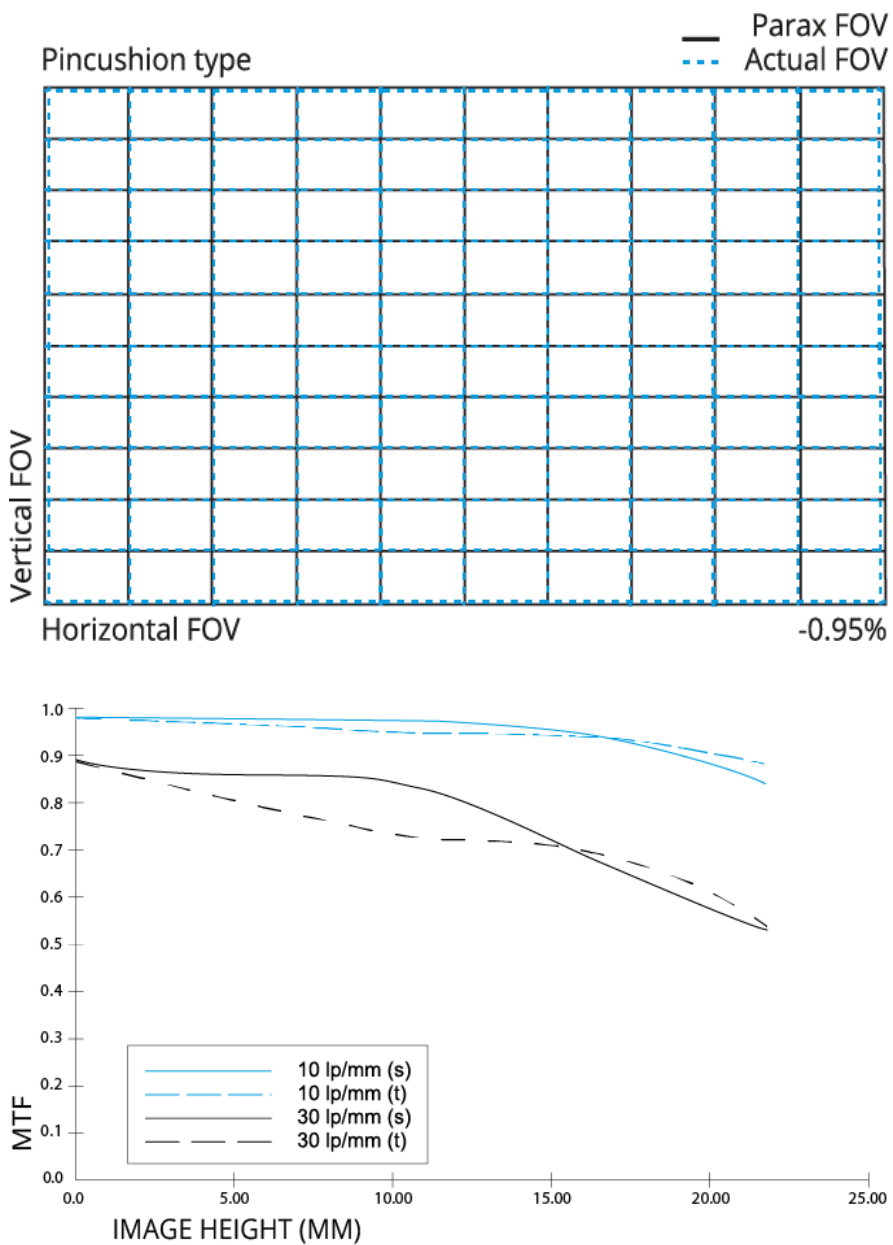

DIMENSIONS*

• Canon EF	107 x 97 mm
• Canon RF	130 x 97 mm
• Sony E	133 x 97 mm
• Arri PL	99 x 97 mm
• MFT	132 x 97 mm
• L mount	131 x 97 mm
• Nikon Z	135 x 97 mm
• Fuji X	137 x 97 mm

WEIGHT*

• Canon EF	1130 g
• Canon RF	1187 g
• Sony E	1191 g
• Arri PL	1136 g
• MFT	1215 g
• L mount	1223 g
• Nikon Z	1225 g
• Fuji X	1222 g
