

Windshield Cover

- **Warning dragging the magnets across your paint will scratch your vehicle. Cleaning the paint at the magnet contact area before installing will help reduce the chance of scratching your vehicle. Be aware not to pull on cover when magnets are stuck to your paint job.**
1. Fold up wipers, install your wiper covers to keep your cover clean from rubber residue and sun cracking during storage.
 2. Lay cover on windshield and carefully unfold.
 3. Hook corner pockets on doors and slide the bottom magnet flap inside of the door and close the doors.
 4. Hook Velcro strap around door handle, and around mirror.
 5. Fold down the wipers.
