

Playing The Game

Once you've laid the trail and jewels, call the child(ren) to the game board and give them the loot bag. Tell them a tale to set the scene. There's treasure hidden somewhere in the house or garden ... maybe pirates left it; maybe some cheeky pixies did ... it's their job to follow the trail and find it.

To start: turn over the card on the **game board** and lay it face up. That's clue number 1. **Players need to find that "location" to lead them to the next clue!** Of course, that "location" might be hard to find. In our set-up example, the first clue was BED. There might be lots of beds to search in your house. There might even be a dog's bed! That's where the fun comes in!

Each time they find a clue, players must return to the game board, place the clue on the board, and exchange it for a jewel (which can be placed in the red loot bag).

The game ends when the players find the golden treasure bar. To prove they have completed the trail, all 10 clue cards should be face up on the board, and 9 jewels should be in the loot bag.

DOWNLOAD YOUR FREE ACTIVITY PACK

Not only does it include 40+ extra riddle clues to print and use in the game, it also contains forfeits, mazes, word search & puzzles.

Download, print and let the kids entertain themselves for a while.

THE FAMILY TREASURE HUNT GAME!

Your treasure awaits, come seek, come find,
Follow the clues, don't get left behind!

Are you ready for adventure and some
fabulous treasure-filled fun?! Then let's get
started ...

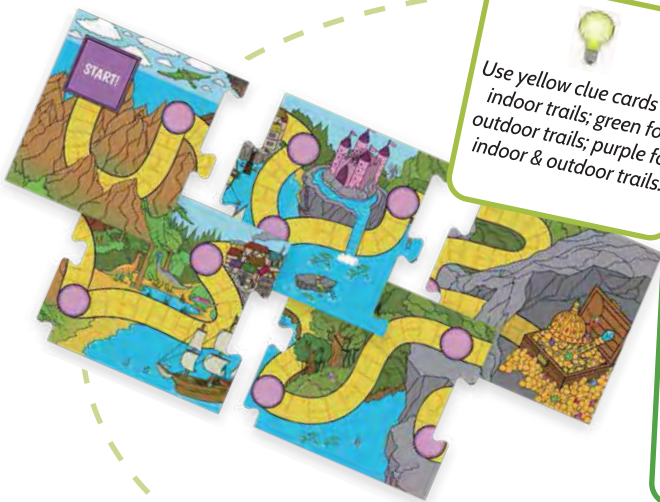

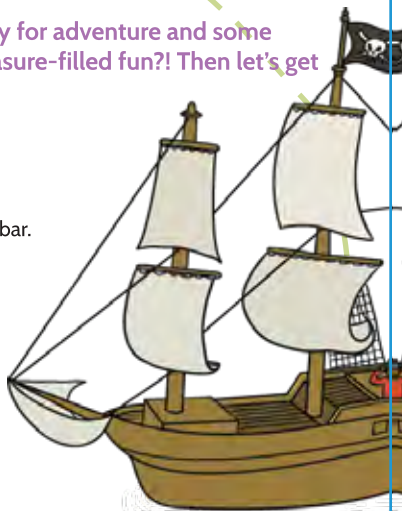

Aim of the Game!

It's simple! Follow the trail of clues that leads to the golden treasure bar.
If you're really lucky, there might be some loot hidden inside it!

Set-Up (Grown Ups: this is your bit!)

Make sure the kids aren't watching! And pay attention - this first
set-up is a brain-strain!

- Step 1:** Choose 10 clue cards to use for the trail.
- Step 2:** Select your first card (e.g. BED) and place face down on the **game board**.
- Step 3:** Walk to your first "location" (e.g. BED). Hide the **SECOND** card (e.g. TABLE) in this location.
- Step 4:** Walk to your next "location" (e.g. TABLE). Hide the **THIRD** card here.
- Step 5:** Repeat until you have hidden all 9 cards.
- Step 6:** Walk to the final "location" and hide the golden treasure bar. If you're feeling generous (!), you can pop an extra treat or reward (like a promise of a trip to the park) inside the box.
- Step 7:** Return to the game board and place 9 jewels on the circles shown on the board.

Use yellow clue cards for indoor trails; green for outdoor trails; purple for indoor & outdoor trails.

Riddle clues are great for older kids, picture clues for younger kids. Use a mix of both when playing in teams.

Parenting Hack

Older kids love the challenge of laying trails for younger ones or creating clues using the blank cards! Teach them how to do it and you'll be repaid with down time for a coffee!
