

Patriot

METAL DETECTOR

11" DD
Waterproof
Searchcoil

The **PATRIOT**
is designed
specifically to find
the smallest gold
nuggets in the
most highly
mineralized soils.

- Detects coins to 12 inches
- 13 kHz frequency – good for coin shooting, relic hunting and gold prospecting
- Frequency shift for eliminating electrical interference
- Visual Target-ID by category and 0-99 numerical indication
- Target-ID confidence bar
- Ground balance all the way to salt
- Continuous ground mineral concertation readout
- Push-button static pinpoint
- Speed selection – normal for most conditions, slow for deep coins in non-trashy areas
- 11-inch waterproof DD searchcoil
- 40 hours of battery life (4 AA batteries)
